SEARCH/ADD PERSON EXERCISE

Before beginning this exercise review the person information on the Case Intake Form provided at the end of this training workbook.

1. Navigate to the **Person Search/Add Screen** by clicking person management in the top navigation menu.
2. Search for the client by SIN:
 - Enter 9 numbers in the SIN field without spaces/hyphens (i.e. 123456789)
 - Two asterisks (**) will appear next to the field if an invalid SIN is entered
 - Click Search
3. No search results are found. Click clear to reset the person search criteria.
4. Search for the client by last name:
 - Enter the client's last name (found on the Case Intake Form) in the last name field
 - Click Search

Why search this way? If you enter additional search criteria, the application may exclude the person you are searching for in the search results. In this case you may think that the person does not exist in the registry and add a duplicate record.

5. Person search results may appear at the bottom of the page; however, your client is not listed. Complete the data entry of the person information, including all information available on the Case Intake Form, such as:
 - Last Name
 - First Name
 - Middle Initial
 - Gender
 - Marital Status
 - Address
 - Phone
 - SIN
 - Date of Birth

The screenshot shows the LaMPSS interface for adding a new person. The user is logged in as SMITHJ-100319 (Smith, John). The form is titled 'Person Search' and shows search results for 'Jackson, Jake'. The form includes fields for Last Name, First Name, Middle Initial, Gender, Marital Status, Address Type, Care Of, Line 2, Line 3, City, Country, Postal/Zip Code, Province/State, Phone, SIN, Date of Birth, and Age Range. The 'Add & Save' button is circled in red. A red callout box points to the form with the text 'Enter all person information from the Case Intake Form'.

6. Click add & save. If any required information has not been provided or LaMPSS identifies invalid information a **red error message** will display at the top of the screen. Otherwise, the person record is created and you will be taken to the newly created **Person Homepage**.

As you complete this exercise, take a few moments to become familiar with the menu options and various sections of the Person Homepage.

<<end of exercise>>

UPDATE PERSON DETAILS EXERCISE

1. Navigate to the **Person Homepage** by clicking the recent persons section of the left navigation menu.
2. Click on the Person ID and name of your client to access their homepage.
3. Click the person details link in the left navigation menu under person actions. The **Person Details Page** will appear displaying the information you entered to create the person record. Review the Case Intake Form and, if necessary:
 - Enter any additional information available about the client such as service language, addresses, phone numbers or email.
 - Enter any known first name and/or last name aliases.
 - Click cancel to return to the **Person Homepage** at any time without saving your changes.
4. Click Save. Your changes will be saved and you will be returned to the **Person Homepage**.
5. Review the person record to ensure you have entered all information, including the Social Insurance Number, accurately for your client.

Remember, you won't only be updating a person record the first time you add a new person to LaMPSS. Each time a person's information changes you will need to make updates. Life events such as marriage, divorce, buying a home, having a baby or even minor events such as getting a new cell phone number will require changes to the person details in LaMPSS!

ADD CASE EXERCISE

1. Navigate to the **Person Homepage** by clicking the recent persons section of the left navigation menu.
2. Click on the Person ID and name of your client to access their homepage.

4. Click share. This indicates that the case being created and client information should be shared with the Province. LaMPSS will search Nova Scotia Government person records to find potential matches for the client.
 - If a match or potential matches are found, LaMPSS will display those matches and wait for you to select which match you would like to merge with the person record.
 - If no match is found, LaMPSS will display messaging and ask you to select the next button to complete the process of sharing the person information with the Nova Scotia Government.

6. For the purposes of this exercise we will create a sample document that you will attach to the application package. Although this would not work in the 'real world', because ENS verifies all document attachments you submit with an application, for training this will allow us to submit our application package without spending too much time creating the required documents. The steps to create this sample document are as follows:
 - *Navigate to the desktop of your computer*
 - *Right click your mouse*
 - *Select New > Microsoft Office Word Document. The document will appear on your desktop.*
 - *Double-click the document to open it*

7. Following the steps we reviewed during the presentation, attach this newly created document to the application package to satisfy all of the form/document requirements.
 - Don't forget to select the appropriate document topic to match each item in the application checklist! (e.g. Select a topic of acceptance letter for the document attached to the acceptance letter field)
8. For one form/document do not add any an attachment but instead select the checkbox to indicate you will be submitting a hard/paper copy of that document.
