

Release 4.3.2

Release Notes for External Users

LaMPSS Release 4.3.2 implemented the ability for clients and staff to provide their electronic signatures on their Individual Funding agreements via LaMPSS Online.

The National Occupational Classification (NOC) was also upgraded from the 2016 version to the 2021 version throughout LaMPSS.

Individual Agreement Management (IFA) – Electronic Signatures

This allows clients and staff to view and provide their electronic signature on their funding agreements via LaMPSS Online.

National Occupational Classification (NOC) Upgrade

The National Occupational Classification (NOC) was upgraded from the 2016 version to the 2021 version throughout LaMPSS. The existing NOC lookup feature has been enhanced and the following LaMPSS areas were affected:

➤ External Case Management (ECM):

For ECM, the existing data has been migrated from the 2016 version to the 2021 version. The following screens will now only contain and accept the 2021 version of the NOC:

- Education & Experience
- Needs Determination Results
- RTW Outcomes

➤ Service Registration

For Service Registration, some programs have enabled additional participant questions related to the NOC. For those programs, the existing data has been migrated from the 2016 version to the 2021 version. The NOC questions will accept a 5-digit NOC.

➤ Private Career Colleges (PCC)

For PCC, the existing NOC data has **not** been migrated from the 2016 version to the 2021 version for existing programs that have been Approved, are being Amended, Refused, Suspended or Expired.

For new program applications that have not been approved, the existing NOC data has been migrated from the 2016 version to the 2021 version for existing programs. Only the 2021 version of the NOC will be accepted for new training programs (i.e., new applications). Existing approved programs and their related student outcomes will continue to use the 2016 version.

The following screens are affected:

- Training Program Details
- Students Survey Results
