Week ending

Week 22 (May 27 to June 2, 2012)

### **RESPIRATORY SYNCYTIAL VIRUS (RSV)**

Figure 8: Number of positive RSV specimens by report week, Nova Scotia, 2011–2012

### Figure 9: Cumulative number of positive RSV specimens by age group and sex, Nova Scotia, 2011-2012

Age group

Week 22 (May 27 to June 2, 2012)

### **OTHER RESPIRATORY PATHOGENS**

Table 4: Total number of specimens tested and number (%) positive for other respiratory pathogens, by report week and cumulative season, Nova Scotia, 2011–2012

	Surveillance Week			Cumulative		
					Season-to-Date	Totals
Number and percent positive for:	n tested	n positive	% positive	n tested	n positive	% positive
Adenovirus	15	0	0.0	832	7	0.8
Bocavirus	15	0	0.0	832	0	0.0
Chlamydophila pneumoniae	2	0	0.0	238	6	2.5
Coronavirus	15	0	0.0	832	62	7.5
Enterovirus	15	0	0.0	832	2	0.2
Metapneumovirus	15	1	6.7	834	39	4.7
Mycoplasma pneumoniae	2	0	0.0	238	33	13.9
Parainfluenza	15	3	20.0	832	47	5.6
Pertussis	2	0	0.0	151	0	0.0
Respiratory syncytial virus A	15	0	0.0	867	46	5.3
Respiratory syncytial virus B	15	0	0.0	867	5	0.6
Respiratory syncytial virus not typed	3	0	0.0	832	245	29.4
Rhinovirus	15	1	6.7	832	56	6.7

Week 22 (May 27 to June 2, 2012)

### APPENDIX: Definitions used in Influenza Surveillance, 2011-2012

1) ILI in the general population:

Acute onset of respiratory illness with fever and cough and with one or more of the following - sore throat, arthralgia, myalgia, or prostration which is likely due to influenza. In children under 5, gastrointestinal symptoms may also be present. In patients under 5 or 65 and older, fever may not be prominent.

2) Outbreaks of influenza / ILI by setting:

#### Schools and Daycares:

Greater than 10% absenteeism (or absenteeism that is higher (e.g. >5-10%) than expected level as determined by school or public health authority) which is likely due to ILI. Note: it is recommended that ILI school outbreaks be laboratory confirmed at the beginning of influenza season as it may be the first indication of community transmission in an area.

### Residential institutions:

Two or more cases of ILI within a seven-day period, including at least one laboratory confirmed case. Institutional outbreaks should be reported within 24 hours of identification. Residential institutions include but not limited to long-term care facilities (LTCF) and prisons.

### Other Settings:

Two or more cases of ILI within a seven-day period, including at least one laboratory confirmed case; i.e. workplace, closed communities.

3) National FluWatch Definitions for Influenza Activity Levels:

#### Influenza activity levels are defined as:

1 =	No activity:	i.e. no laboratory-confirmed influenza detections in the reporting week, however, sporadically occurring ILI* may be reported
2 =	Sporadic:	sporadically occurring ILI* and lab confirmed influenza detection(s) with <b>NO ILI/influenza outbreaks</b> detected within the influenza surveillance region <sup>†</sup>
3 =	Localized:	evidence of increased ILI* and lab confirmed influenza detection(s) together <b>with outbreaks</b> in schools, hospitals, residential institutions and/or other types of facilities occurring in <b>less</b> <b>than 50% of the influenza surveillance region(s) †</b>
4 =	Widespread:	evidence of increased ILI* and lab confirmed influenza detection(s) <b>together with outbreaks</b> in schools, hospitals, residential institutions and/or other types of facilities occurring <b>in</b> greater than or equal to 50% of the influenza surveillance region(s) <sup>+</sup>

\* ILI data may be reported through sentinel physicians, emergency room visits or health line telephone calls.

<sup>+</sup> Sub-regions within the province or territory as defined by the provincial/territorial epidemiologist.

Week 22 (May 27 to June 2, 2012)

- 4) District Health Authorities (DHAs), Nova Scotia:
  - DHA 1 South Shore Health
  - DHA 2 South West Health
  - DHA 3 Annapolis Valley Health
  - DHA 4 Colchester East Hants Health Authority
  - DHA 5 Cumberland Health Authority
  - DHA 6 Pictou County Health Authority
  - DHA 7 Guysborough Antigonish Strait Health Authority
  - DHA 8 Cape Breton District Health Authority
  - DHA 9 Capital Health
