

Animal and Plant Laboratory

Schedule of Dairy Services

The following price schedule applies to the analysis of raw and processed dairy samples, and to related materials performed at the Animal and Plant Laboratory. These services are available to agricultural producers and the general public, as well as to other departments of government, researchers, and private industry.

All samples tested by Laboratory Services will incur an additional disposal fee of \$1.00.

Sample handling and disposal fees may be applicable when referred to an offsite lab; fees are available upon request. HST is **not** included in listed prices and will be applied separately.

For questions regarding the sample volume/quantity required for testing, please contact Sample Receiving at 902-893-4683.

- Priority analysis may be available for a rush fee which will be assessed when sample is received.
- Data is available in electronic format upon request.
- Please contact the laboratory at (902) 893-4683 for sample protocols and current pricing for tests available at referral labs.
- If you require a test that is not listed, please contact the Lab Services for availability.
- Fees, including handling and disposal fees, are subject to change without notice.
