

THE PREMIER  
Halifax, Nova Scotia

September 14, 2021

Honourable Brian Wong  
Minister of Advanced Education

Dear Minister Wong,

Thank you for agreeing to serve Nova Scotians as Minister of Advanced Education.

Governing is about people. On August 17<sup>th</sup>, 2021, we were given a mandate by Nova Scotians to activate solutions. They responded to our platform, *Solutions for Nova Scotians*, and its vision for our Province. Nova Scotians share the hope you and I have for our beautiful province and its potential.

A brighter future starts with a shared belief in what our province can do. A belief in each other. A belief in our communities. A belief in fellow Nova Scotians. We can put Nova Scotians on the path to financial sustainability and fix healthcare. We can support our traditional industries and build an environment plan that fights climate change. We can make our province a magnet for doctors, students, new residents, investors and tourists alike, and remain proud of our traditions and our heritage.

Fixing healthcare and rebuilding our economy is not for the faint of heart. It will require strong leadership and a willingness to take bold action. Working together, we can get the job done.

The success of all Nova Scotians and improvement of their health, access to health care and quality of life will be our collective success.

We have committed to listen to and respect all Nova Scotians. We have also committed to lead a government which represents all Nova Scotians and is reflective of the modern societal makeup of Nova Scotia, inclusive and respectful of all demographic, cultural and ethnic diversities to advance our collective growth and prosperity.

You have been chosen for Cabinet because of your track record and capabilities as a problem solver, as a “solutionist”, as someone who gets things done and is not deterred by complexity. You are a known collaborator who will work with your colleagues on solutions that need all the capabilities of the Government and the public service pulling in the same direction.

As Minister, your leadership and your team will play a critical role in contributing to the commitments we have made and to providing solutions. You are responsible for the conduct of the department(s) you oversee and must be aware of and adhere to the public service’s *Code of Conduct and Respectful Workplace Policy* in your

interactions with the public service. Most importantly, you are part of a team of solutionists who share a common vision and commitment to *Solutions for Nova Scotians*.

As Minister of Advanced Education, you will:

- Within the first 90 days of your mandate, prepare a timeline for completion of all tasks below over the next four years. The initial timelines are to be updated quarterly thereafter.
- Work towards an increase in residency seats, targeted to areas of specialty and need across the province is absolutely essential to our recruitment.
- Increase the CCA training grant to 1,000 students with a two-year commitment to stay in Nova Scotia following the training being required.
- Resume appropriate staffed and accredited CCA training programs hosted by long-term care properties.
- Work with the NSCC on a program design whereby students' participation in certain, accredited apprenticeships, will count towards program credits when furthering their education.
- Require each college, university and private career college to develop a sexual violence policy that addresses sexual violence involving any of its student.
- Within the first nine months of your mandate, undertake a review of all University charters and Acts, their respective governance models and structure.

As Minister of Advanced Education, you will also support your Ministerial colleagues as they execute their responsibilities. In particular, you will support the:

- The Minister of Seniors and Long-Term Care as they amend the Homes for Special Care Act.
- The Minister of Health and Wellness as they develop the Clinical Health Services Plan.
- The Minister of Labour, Skills and Immigration to develop and advance an immigration and population growth policy that is bold, decentralized and is focused on immigration and population growth as an economic development tool and a fiscal opportunity.
- The Minister of Seniors and Long-Term Care to reinstate the CCA training grant that was cancelled in 2013.
- The Minister of Economic Development as they focus on innovation driven, green and sustainable businesses and partner with Municipalities, universities and our community college, the private sector and equity finance to enable entrepreneurs to start and scale their businesses in all parts of the province and our distinct regions based on their comparative advantages.

As we progress through our mandate, we will work together to identify further refinement and priorities of focus.

Within the first six months, and as part of your Department's mandate, you will work with me and other Departments in reviewing the role and effectiveness of Agencies, Offices and Crown Corporations with a goal of ensuring the most efficient and accountable methodology for the undertaking of their respective tasks.

We have a clear mandate and the vision and the determination to take decisive action to solve problems for people by giving them hope for health, universal mental health care, dignity for our seniors and a new opportunity for aging well. We will invest in our future. We will build a Nova Scotia with more people, more jobs, better jobs and more housing and infrastructure for people. We will do this with an overriding commitment to sustainable prosperity, establishing Nova Scotia as a world leader.

Honourable Brian Wong

We will overcome the obstacles that stand in the way of achieving the incredible opportunities within our reach to improve the well-being and quality of life every Nova Scotian deserves.

I look forward to working with you to improve the lives of all the people of Nova Scotia and change the course of our Province now and for generations to come.

Sincerely,
