Containment Breach Leads to Release of Rainbow Trout

May 10, 2018 9:00 AM

The Nova Scotia Department of Fisheries and Aquaculture is confirming a containment breach in May at an aquaculture site that resulted in the release of rainbow trout from the facility.

Department staff are following up with the operator to ensure that a third-party review of the incident is conducted as required by regulations to provide recommendations for corrective action.

In addition, the department has also notified relevant agencies.

In keeping with a commitment to transparency, public notices are posted to the Aquaculture Laws and Regulations website at:
