**Summary of Application:** Aquaculture Site No. 1368 has been an issued aquaculture site since October 2012. A review of the applicant's Farm Management Plan indicated that the applicant was conducting bottom shellfish aquaculture with gear, without the appropriate approvals in place for this type of aquaculture. The intent of this amendment application is for the applicant to become fully compliant with all relevant regulations and licensing and leasing requirements related to bottom shellfish aquaculture with gear. Such requirements will include marking the site in accordance with Transport Canada requirements. Furthermore, the standard licence and lease documents for shellfish aquaculture sites conducting bottom cultivation with gear allow for continued access to the aquaculture site by the general public for recreational activities; however, the general public are not permitted to carry out American oyster harvest, enhancement, or husbandry activities on aquaculture sites.

Kenneth R Fraser has also applied to authorize the suspended cultivation method to site No. 1368.
