2 Operating motor vehicle in committing offence

Schedule B: Tables of Offences, Fines and Demerit Points

Interpretation for Schedule B

1 Definitions for Schedule B

- (1) In the column headings of the tables in Schedule B,

“maximum fine” means the maximum fine amount that may imposed following conviction of an offence (including an offence for which there is an out of court settlement amount that the accused disputes or a NIL offence), not including any applicable victim-fine surcharges under the *Victims’ Rights and Services Act* or costs payable under Section 4A of the *Summary Proceedings Act*, and is equal to the fine amount set out in the *Summary Proceedings Act* for a third or subsequent offence for any offence category specified for the offence;

“offence category” means the category of offence listed in Section 4B of the *Summary Proceedings Act* and as set out in Section 6 of the *Summary Offence Tickets Regulations* to determine the out of court settlement amount to be imposed for guilty plea or in-absence conviction for that category of offence;

“Section” means the provision in the Act or regulations that sets out the contravened prohibition or requirement.

- (2) In the tables in Schedule B, words used in the description of an offence have the same meaning as the words used in the enactment cited for the offence.

2 NIL offences

If “NIL” appears in the “Offence Category” column of the tables in Schedule B, opposite the description of an offence, then there is no out of court settlement option available for the offence and the penalty is determined by the court on conviction, as set out in the *Summary Proceedings Act* and its regulations.

3 Double fines

In the tables in Schedule B, “double”, when written in parentheses beside an offence category, indicates that the penalty and maximum fine prescribed for the offence is set at double the usual penalty for that offence category.
