Background:

An Aquaculture Development Area (ADA) is a designated set of marine sites on Crown land that have been approved by the Governor in Council for the purpose of conducting aquaculture. An ADA has pre-defined site boundaries, species, methods of cultivation and may have other conditions or restrictions. This information is available on the Aquaculture Division website at <https://novascotia.ca/fish/aquaculture/public-information/>

The Minister of Fisheries and Aquaculture may issue a public call for proposals for any site within an ADA not currently issued an aquaculture licence and lease. Following this competitive call for proposals, the Aquaculture Administrator may select a proposal (with or without variations). A proponent whose proposal is selected has the exclusive right to apply for a new aquaculture licence and lease for the specified site within an ADA, within a limited time (90 days).

Applications for an aquaculture licence and lease within an ADA follow the Administrative decision process as set out in the Nova Scotia *Aquaculture Licence and Lease Regulations*. However, the procedures involved in designating an ADA and choosing a proponent mean that much of the necessary information is already gathered. Consequently, the amount of information needed for an application for a new license and lease within an ADA is substantially less than what is required for a similar application outside of an ADA.

How to Submit a Proposal:

Interested parties must complete and submit the form titled "Proposal for the Exclusive Right to Apply for a Licence and Lease Within an ADA" (hereafter called the "Proposal Form") which can be found on the Department website at <https://novascotia.ca/fish/aquaculture/starting-an-aquaculture-site/>

Proposals may be submitted as follows:

1. By Email (preferred method) at: Aqua.Admin@novascotia.ca
2. By Mail at:
Aquaculture Administrator
Nova Scotia Department of Fisheries and Aquaculture
1575A Lake Road, Sandy Point, NS B0T 1W0
3. By Fax at:
902-875-7429

Proposals will be accepted from 12:00 AM on the above Start Date to 11:59 PM on the above Deadline for Submissions Date.

Assessment of Proposals:

Proposals are screened to ensure that they are received within the Call for Proposal period and that all sections of the Proposal Form have been completed. Incomplete proposals or proposals received outside the period are not eligible for further assessment or consideration. Following screening, the proposals are assessed by a panel comprised of Department staff, key stakeholders and industry experts.

The table below explains the general criteria for assessing and evaluating proposals. Additional criteria may be taken into consideration based on the specific site. Refer to the Proposal Form for more details on the criteria under consideration and how proposals are assessed.

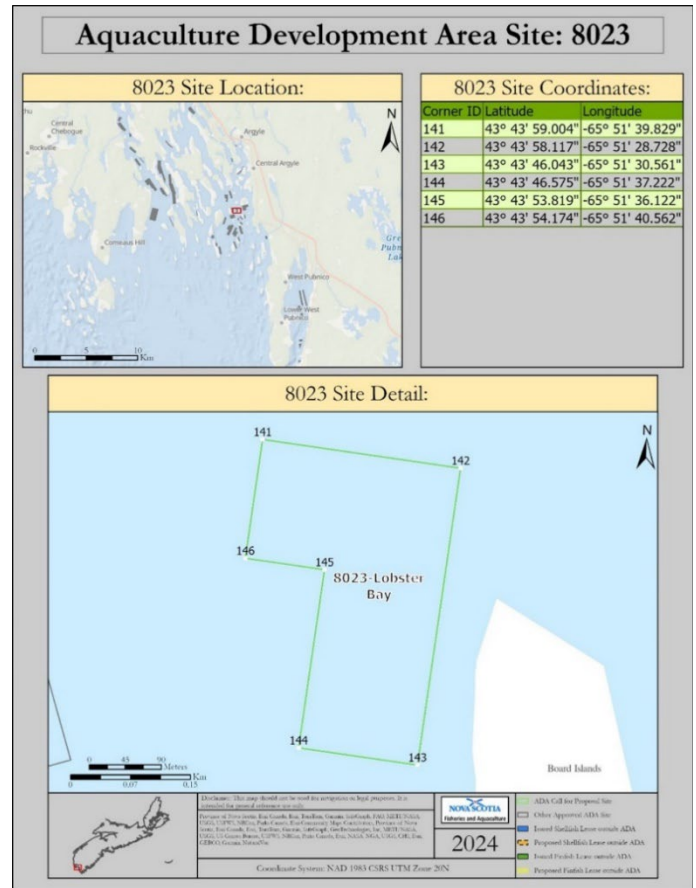

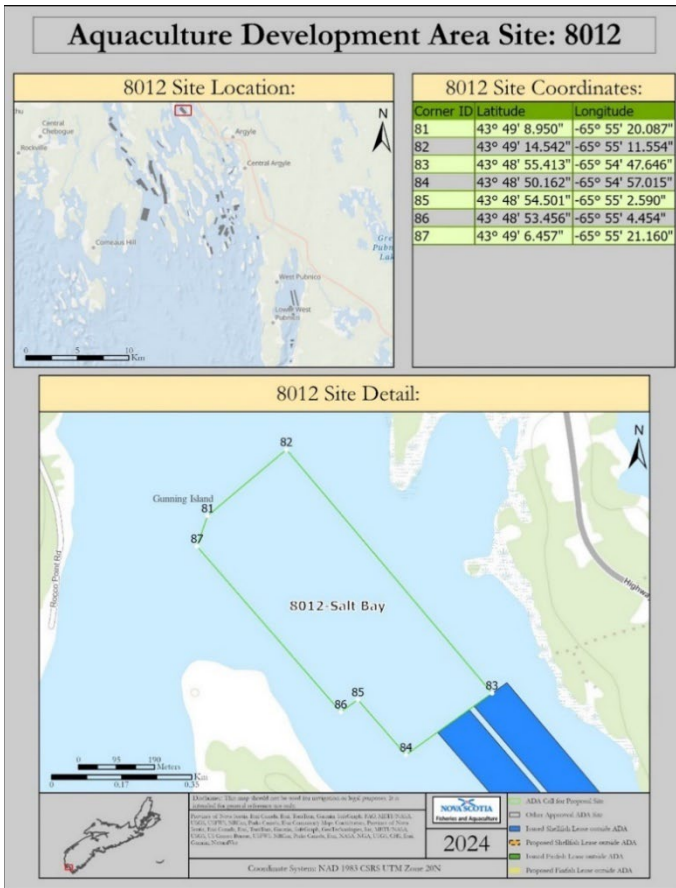

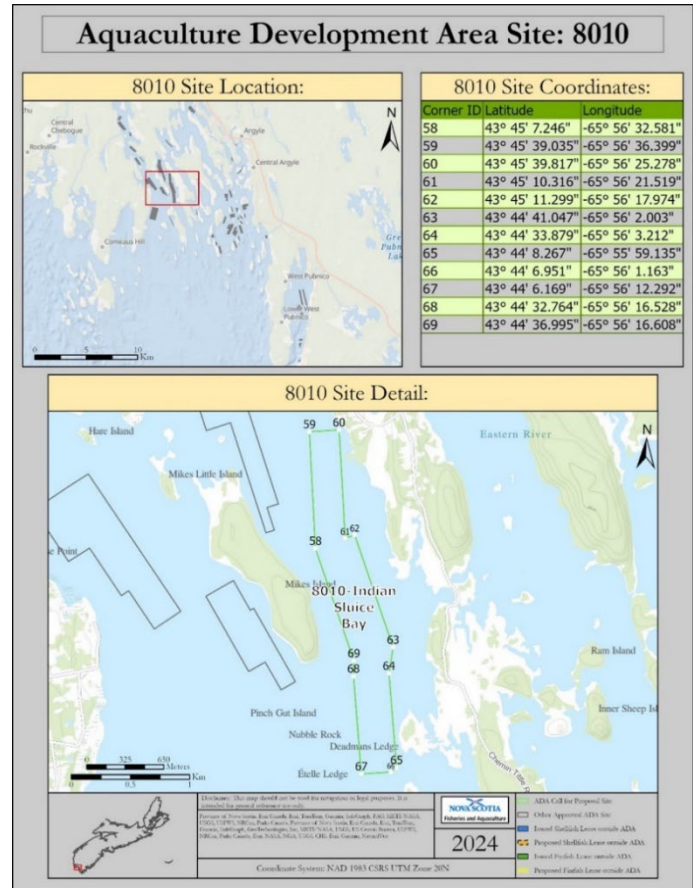

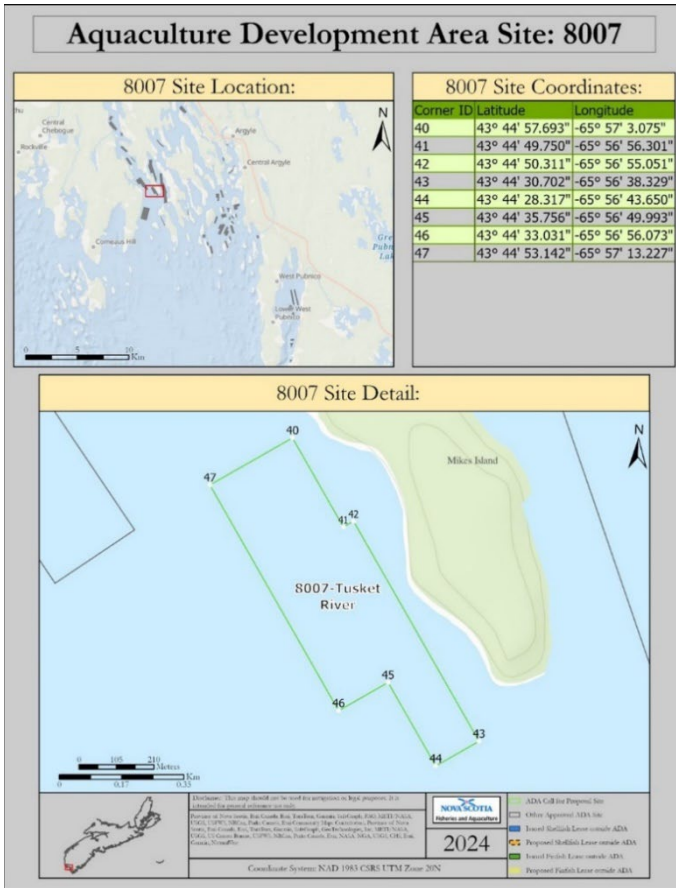

Relevant Section of the Proposal Form	Section Name	Criteria to Consider
3	Proposed Production Plan Summary	The suitability of the proposed production plan to the given site
4	Production Plan Details	The technical feasibility of the proposed production plan
5	Benefits to the Local Community and Province	The benefits of the proposed development to communities in the area as well as to the Province
6	Past and Present Aquaculture Operations in the Province	The proponent's past and present aquaculture operations in the Province, in terms of site utilization and compliance history. Note that if the proponent has no past or present aquaculture activities in the Province, they will not be penalized in this section.
7	Ability to Execute the Proposed Activities	Relevant knowledge and experience, technical and business skills
8	Market Plan	Feasibility of the plan to promote, sell and distribute the product
9	Financial Plan	Understanding of financial requirements for starting and maintaining the proposed activities. Ability of the proponent to achieve their plan
10	Summary / Additional Information	How the proponent has positioned themselves as the most suitable proponent. Any additional criteria to consider as indicated in this Call for Proposals and the associated Site Report

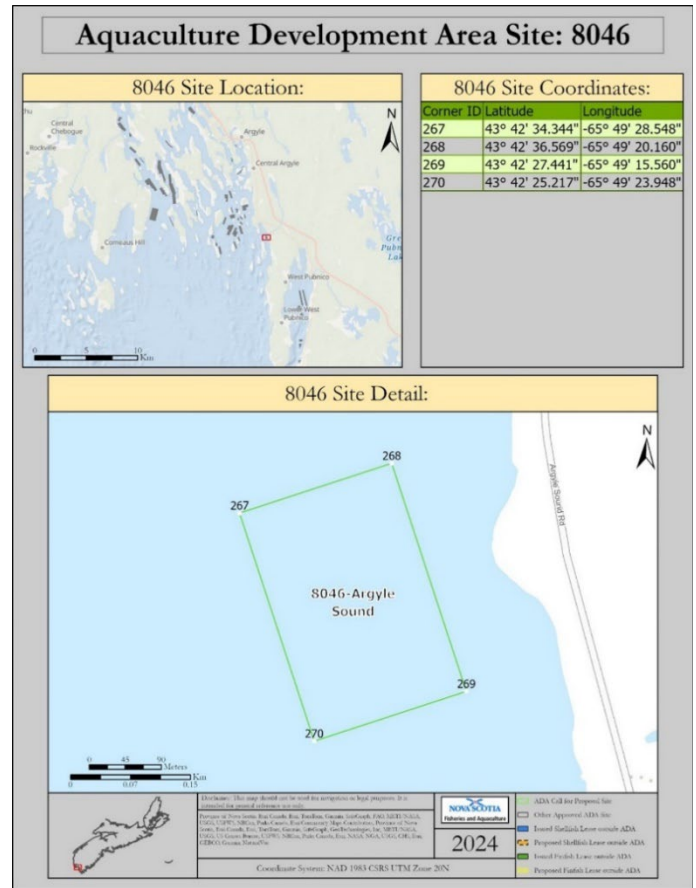

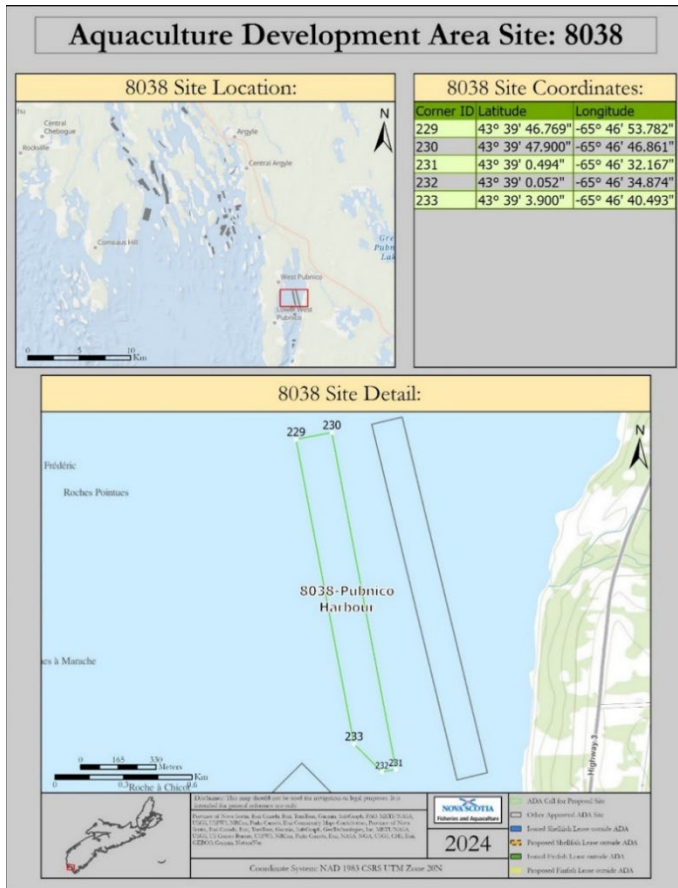

Weighting of Criteria:

To ensure that the most suitable proposal is matched to the unique characteristics of each site, certain criteria may be given more weight than others. For transparency, each Call for Proposals includes a table indicating how each criteria will be weighted during assessment (refer to the table above).

Evaluating and Decision:

Following assessment by a panel, a *recommendation* (not a decision) is provided to the Aquaculture Administrator. The Administrator has the authority to issue the final decision on the Call for Proposals. The decision can be to either select a proposal (as submitted or with variation) or to not select any proposals. The Administrator's decision will be posted on the department's website. If no eligible proposals were received in response to the Call for Proposals, the Administrator will provide a public notice to that effect on the department's website, and another Call for Proposals may be issued at a later date by the Department.
