

How to Start a Funding Application

There are many options for you to start the process of an application in LaMPSS. When you log into LaMPSS click on Programs and Services under the Apply for Funding in the left navigation menu. This will direct you to a list of all the programs and services you can apply for via the self-serve option. When you click on the program name, a display window will open with a brief description on the program. From this window, you can either navigate to the program website or start the process to be directed to LaMPSS Online by selecting the Apply Now button.

The main content area displays 'LaMPSS Organization #:' and 'Name:'. Below this is a 'Programs' table with columns for 'Department/Area', 'Program Name', and 'Apply'. You also have the option to click on the Apply link that is to the right of the program name, and you will be navigated to LaMPSS Online. This option would skip the display window.

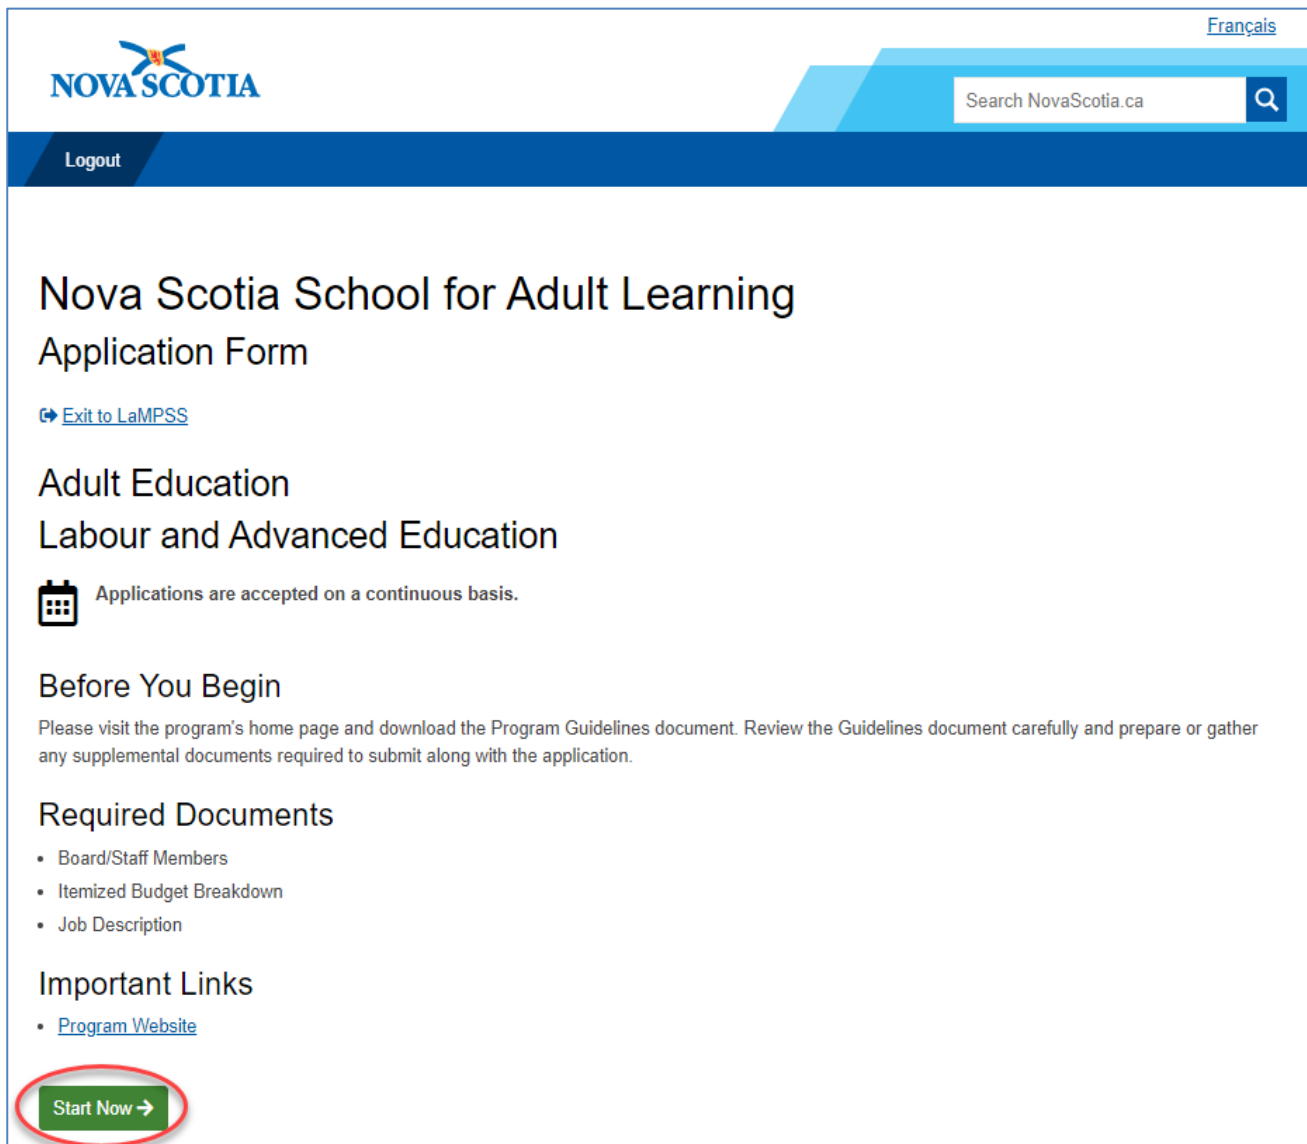

All program areas have the option to link the application to their program website. You could also receive an email from a program area with the link for the application. These links will open directly in LaMPSS Online where you will be prompted to login. This will be the same organization ID, username and password that you currently use to login to LaMPSS.

When you launch the application form, you will receive an email with a direct link to your newly created form. You can use this link to directly return to the form without navigating through LaMPSS.
