Release 2.7.3
Release Notes for External Service Providers

NSCC Data Sharing

The primary focus of this release was enhancements to the data sharing processes between ENS and NSCC. These improvements will not result in any direct changes for external service providers, but should result in better service overall for clients with funding agreements to attend NSCC.

External Case Management

- **Additional Info**
    - Defect Fix: TFS 14994 – Fixed defect where deselecting options from "Self identified as", "Targeted group membership" or "In receipt of the following benefits" sometimes didn't save properly if a note or document was opened between unchecking the option and clicking the "Save" button for the screen
- **Action Plan – Intervention Status**
    - Defect Fix: TFS 11823 – Users with Configurator security are now able to change the status of an intervention from "Incomplete" to "Planned" or "In Progress" without receiving an error
- **Notifications**
    - Defect Fix: TFS 14983 – Case Managers will no longer receive notifications that a client's banking info has changed – banking info is only relevant to management of the funding agreement
- **Enhanced Services**
    - Defect Fix: TFS 15836 – Fixed issue where popup message "More than 100 Enhanced Services Found" was always displaying even when there were less than 100 active services listed
- **Person List Report**
    - Defect Fix: TFS 15952 – Fixed issue where Person List Report omitted cases that were created exactly on the day indicated in the "Case Start Date To" or "Case Start Date From" parameters
