

ELECTRICAL BULLETIN

2008-01

From: David MacLeod, C.E.I., P.Eng.
Provincial Chief Electrical Inspector

Date: Sept 30, 2008

Subject: New Accredited Electrical Certification Organization / Body

Per the Nova Scotia Electrical Code Regulations all electrical products sold or used in Nova Scotia shall be certified, as approved equipment, by a Certification Organization accredited by the Standards Council of Canada and be acceptable to the Provincial Chief Electrical Inspector.

Please be advised that effective immediately NSF International will be accepted as an electrical certification organization in Nova Scotia within the scope of their accreditation for electrical items.

In order for the product to be acceptable in Nova Scotia the certification label must have a small “c” at the eight o’clock position which indicates compliance to the applicable Canadian standard.

The contact for NSF International is:

Craig S. Morr
Quality Assurance & Organizational Safety Manager
789 N. Dixboro Rd.
Ann Arbor, MI 48105
Tel: 734- 769-5143
Fax: 734- 827-7182
Email: CMorr@nsf.org
Website: www.nsf.org

NSF International Certification Mark

The certification mark that must appear directly on the product for Canada is as indicated above. In some instances there may be a “us” at the four o’clock position also, but the small “c” as indicated is always required to be shown next to certification mark for acceptance in Nova Scotia..

Any questions regarding the certification of any electrical equipment contact the Provincial Chief Electrical Inspector David MacLeod, C.E.I., P.Eng. at 902-424-8018 or by email at macleodd@gov.ns.ca.
