

## Release 5.6.1

### Release Notes for External Users

LaMPSS Release 5.6.1 focused on Maintenance items that included enhancement and defect fixes. ECM and Service Registration Participant Management enhancement are mostly related to the Federal Provincial response to support workers and businesses affected by international tariffs. Additional enhancement and defect fixes were made to NSNP, OFA and Person Management.

---

#### ECM

- **Intake Details**
  - Addition new fields that are conditionally required for Intake if the Client is part of a sector experiencing a downturn and impacted by tariffs.
  - Addition of the ability to identify employer's business sector (NAICS) via lookup
- **RTW Outcomes**
  - Label updates to existing fields to make wording more applicable to the user but still collect the information about the client.
  - Addition new fields that are conditionally required for RTW Outcome Assessment if the Client has been impacted by tariffs.
  - Addition of the ability to identify employer's business sector (NAICS) via lookup
- **RTW Development - Action Plan** – Submission of an application package will share the new tariff related ECM intake responses with the related IFA (e.g., Skills Development agreement).

#### Service Registration

- **Service Participant Management**
  - **Service Participant List**
    - **Case ID column** – Issue fix for displaying the Case ID when the Case is closed.
    - **Intake / Outcome column** – improved participant list display to indicate if user should refer to Case for Intake or Outcome information
    - **Participant Status column:** Added the last session date after the status of a Participants registration to improve user experience.
  - **Participant Management** - Issue fix for navigating using Previous Next functionality for certain Security profiles.
  - **Participant Intake** – Addition of:
    - New fields that are conditionally required for Intake if the Participant is impacted by tariffs.
    - Ability to identify employer's business sector (NAICS) via lookup
  - **Participant Outcomes** – Addition of:
    - New fields that are conditionally required on Outcome Assessment when the Participant has completed their participation in the Service if the Client has been impacted by tariffs.

- The ability to identify employer's business sector (NAICS) via lookup
- Business rules that require:
  - The Intake to be completed before an outcome can be completed.
  - The previous expected outcome assessment be completed before the next expected outcome can be completed.
  - The user to wait until a predefined timeframe to pass before the Outcome can be completed (e.g., a 6 Mos. Outcome cannot be completed until 22 weeks after the participation in the service is reached)

#### **OFA**

- **Login & Signatures** - Made improvements to login email and contract signature invitations.

#### **NSNP**

- **Form Submissions** -
  - Fixed issue where NOC Details are not saving to Case Player Essentials in some situations.
  - Updated the Attachments section in Form Submission so that the document type "NSNP Application" is always displayed at the top of the documents list.
  - Fixed issue where "Representative Contact" is incorrectly displayed as "Employer Contact" in LaMPSS.

#### **Person Management**

- **Person Details** - Marital Status and Service Language must be indicated for Person records.
