

LaMPSS Release 2.6

Release Notes for External Service Providers

Agreement/Case Management

External Case Management (ECM)

- **Additional Case Info**
 - Fixed Defect: TFS 7197 – fixed spelling of “Disability” on Assessment form question
- **Application Package**
 - Fixed Defect: TFS 9689 –reabeled button on application package from “Print/View Statement” to “Save and View Statement”. Any changes made to the application package will be saved when viewing the statement.
 - Enhancement (Multiple Source of Funding) – when applying for funding, verifies that some funding has been established for the specified program for the fiscal years covered by the dates of the application. If not, an error is displayed.
- **Case Additional Info**
 - Fixed Defect: TFS 9375 – fixed an issue when a Target Group Membership was deleted it was not saving the results properly. This would cause an error when an application for funding was submitted, which has been resolved.
- **Case Details**
 - Fixed Defect: TFS 9228 – allowing a decimal point to be entered in the “Work hours/week” field
 - Fixed Defect: TFS 7721 – do not allow a “blank/space” to be entered in the “Work hours/week” field
- **Case Status**
 - Fixed Defect: TFS 9629 – any outstanding tasks and notifications will now be autocompleted when a case is Closed from Follow-up status
 - Data Fix: TFS 10228: any closed cases that had outstanding tasks or notifications have been removed
- **Documents**
 - Enhancement: TFS 9967 – added new Document Type “NSCC Consent Form”
 - Fixed Defect: TFS 3651- an error message will display when an invalid date is entered in the From Date field on the Document Search module
 - Fixed Defect: TFS 3652 - an error message will display when an invalid date is entered in the To Date field on the Document Search module
 - Fixed Defect: TFS 3653 - an error message will display when the To Date is earlier than the From Date on the Document Search module
- **Education & Experience**
 - Fixed Defect: TFS 7645 – fixed the issue that the wrong employer would sometimes display, when the Employer’s Name hyperlink was used on the Education & Experience page, under Employment History.

- **Employment Outcomes**
 - Enhancement: TFS 10339 – updated the values for Employment Status and Employment Details dropdown fields so they are consistent on all screens which use them. Changes were made to Case Details, Employment History, and Employment Outcomes screens. Existing cases have been updated to use the following values.
 - Employment Status – valid values are:
 - Employed
 - Unemployed
 - Self Employed
 - Unknown
 - Employment Details – valid values are:
