

## Release 2.7.4

### Release Notes for External Users

#### NSCC Data Sharing (Individual Funding Agreements & External Case Management)

---

##### NSCC Data Sharing

- **NSCC Progress Report – NEW Program ‘Completion’ Notification**
  - Enhancement: TFS 18259 – Upon receiving a NSCC Participant Progress report indicating a program ‘Completed’ status, LaMPSS will now generate notifications for the ENS Agreement Manager (assigned to the Individual Funding Agreement) and external Case Manager (assigned to the external case) to indicate program completion. LaMPSS will not create additional notifications where successive ‘completed’ progress reports have been received for the same participant. Sample Notification: *‘NSCC Student has completed the following Agreement Activity as of 06/25/2014: NSCC Program - Academic & Career Connections; Institute of Technology Campus; Fall 2013’*

#### External Case Management

---

- **Intake Form**
  - Enhancement: TFS 17687 – ENS has recently updated the LAE ‘Collection, Use and Disclosure of Personal Information Form’ to include a reference to sharing with the Department of Community Services. This form has been updated in LaMPSS (in both English and French) for use by external case managers going forward.
- **Recent Cases/ Persons**
  - Defect Fix: TFS 12715 – Fixed issue where cases managed by other organizations sometimes appeared in the Recent Cases/Persons menu.

#### Organization Management

---

- **Organization Search**
  - Defect Fix: TFS 14636 – Multiple Addresses - Fixed issue where search results were not displaying the most recent address if the Organization had multiple addresses.
  - Defect Fix: TFS 15964 – Province/State List – Fixed issue where States sometimes appeared in the Province/State dropdown even though ‘Canada’ was selected as the country.

## Person Management

---

- **Person Merge – Share with Government Context**
  - Defect Fix: TFS 12312 – Fixed issue when sharing with Government Context where warning message about client currently receiving funding was displayed even if the funding agreement was closed. The warning will now only be displayed if the agreement is open.

## Web Browser Compatibility

---

- **Internet Explorer 11 – Compatibility**
  - Various changes have been made to ensure LaMPSS is compatible with the Internet Explorer 11 web browser.
