

# EAS Activity Report

## Release Notes – 18 January, 2013

### General Changes

Area	Type	Before	After
Report Data	Defect	Changes that occurred ON the last day of the reporting period were not being reflected in the report	Report now reflects changes that occurred on or after the reporting “From Date” up to <u>and including</u> the reporting “End Date”
Section Order and Defaults	Usability	Section Order and default selections were:  Case Detail (selected) Case Statistics (selected) Enhanced Services / Group (selected) Enhanced Services / Individual (selected) Case Interventions Statistics (selected) Application for Funding (selected) Target Groups (selected)	Section Order and default selections are now:  Case Statistics (selected) Enhanced Services / Group (selected) Enhanced Services / Individual (selected) Target Groups (selected) Case Interventions Statistics (NOT selected) Application for Funding (NOT selected) Case Detail (NOT selected)
Accountability Reporting Parameter	Usability	Single Select	Multiple Select

## Case Statistics Section

Area	Type	Before	After
Employed Outcome	Defect	Incorrect count – if multiple employed outcomes were recorded for the same case, they were being counted multiple times. Also, outcomes were included for cases that were not yet in FollowUp or Closed status	Correct count – now includes only the FIRST employed outcome, only if it has an effective date with the reporting period, and only if the case has a status of FollowUp or Closed. (NOTE: this logic now aligns with the federal accountability reporting standards )
Carry Forward	Defect	Incorrect count – included only the cases that were Open (or in the designated status) <u>at the time the report was run</u>	Correct count – now includes cases that were Open (or in the designated status) <u>as of the beginning of the reporting period</u>
Total Ongoing	Defect	Incorrect count – included only cases that were Open (or in the designated status) <u>at the time the report was run</u>	Correct count – now shows cases that were Open (or in the designated status) <u>as of the end of the reporting period</u> . NOTE that with this fix and the fix to Carry Forward, the following should now be true: CarryForward + Started – Completed = TotalOngoing

## Enhanced Services/Group Section

Area	Type	Before	After
Total Sessions Completed (this period)	Defect	<p>“Total Workshops”</p> <p>Total number of group services whose end date was within the reporting period</p>	<p>“Total Sessions Completed (this period)”</p> <p>Total number of group services whose end date is within the reporting period <u>AND have a status of “Completed”</u></p>
Total Participants Completed (this period)	Defect	<p>“Total Participants”</p> <p>Total number of participants whose status is “Completed” in all services with end dates within the reporting period</p>	<p>“Total Participants Completed (this period)”</p> <p>Total number of participants whose status is “Completed” in all services with end dates within the reporting period <u>that also have a status of “Completed”</u></p>
