

## LaMPSS Release 2.2 - Release Notes (for External Users)

### **Agreement / Case Management**

- ECM – EAS Service Providers
  - o Fixed defect: there was an issue when trying to close a case – if there was an associated agreement that was closed, it would think the agreement was active and would not allow the case to be closed
  - o Fixed defect: Closed reason code was not displaying on the Case Homepage
  - o Fixed defect: ECM Configurator role could not edit completed interventions when they had other ECM security roles assigned to themselves.
  - o French Translation: All screens were reviewed to ensure that all fields have been translated to French
