Labour and Advanced Education 2011-2012 French-language Services Plan August, 2011

1. Message from the Deputy Minister

We are pleased to present the 2011-2012 French-language Services Plan for the Department of Labour and Advanced Education that now includes the Office of Immigration and the Advisory Council on the Status of Women. The plan outlines our intent to continue broadening the array of French information available to our clients and stakeholders. It also underscores a commitment to serving Nova Scotia's Acadian and francophone communities.

We have carried forward the momentum generated from previous French-language Services Plans and the progress achieved in the delivery and implementation of French-language services in prior years. We are committed to building on existing capacity to provide services in French to meet the needs of the Acadian and francophone communities.

One initiative that works towards this goal has already garnered recognition. Last year, our LaMPSS system was programmed to allow French applications. This resulted in the team being presented with a Bonjour Award. A comprehensive list of the Department's other initiatives are featured in this report.

In addition to efforts within the Department, we continue to work collaboratively with the Office of Acadian Affairs (OAA) to enhance our capacity to deliver French-language services. We also participate on the Steering Committee for Francophone Immigration and the national Citizenship and Immigration Canada-Official Language Minority Communities (CIC-OLMCs) Steering Committee. We have provided funding and support to Fédération acadienne de la Nouvelle-Écosse, Université Sainte-Anne and Conseil de développement économique de la Nouvelle-Écosse to provide services to the Acadian and francophone communities.

The progress we have made this past year, and the goals we have set for this coming year, will ensure that the Department continues to deliver programs and services that reflect the needs of all Nova Scotians.

The Department's French-language Services Plan for 2011-2012 is in keeping with the goals of our mandate as well as our responsibilities under the *French-language Services Act and Regulations*.

2. Responses to French Requests (Written and Oral)

The Department will continue to respond in a timely manner to written and verbal requests from the public for French-language services. Various French-speaking staff members have offered to provide services in French. Some staff answer the telephone in both English and French (Hello / Bonjour). In the Office of Immigration, the *Bonjour!* sign offering services in both official languages is prominently displayed in the reception area and bilingual staff are encouraged to wear the *Bonjour!* pin to indicate their bilingual capacity. We have bilingual staff throughout the province willing and able to provide service in French. Staff members who receive requests beyond their capacity to provide a response in French have been instructed to contact French-speaking staff members for help.

Some of the Chairs or Deputy Chairs of our boards can conduct hearings in French. Also, if applicants or witnesses need a French interpreter, that is provided free of charge. In addition, the Conciliation and Labour Tribunals Division has an agreement in place with New Brunswick for conciliation in French where workplace parties request it.

Publications can be translated upon the request of the originating Division.

3. French-language Services Inventory

Labour and Advanced Education provides a wide range of services and publications available in French. Appendix A has more information.

4. Labour and Advanced Education Steps To Improve Our French-Language Services for 2011-2012

Last year, Labour and Workforce Development developed a comprehensive plan, along with relevant goals and objectives, which aims to further improve our services in French. This year, the Departments' plan continues our efforts to increase and deliver programs and services that reflect the needs of the Acadian and francophone community.

Appendix B details those goals and objectives.

5. Progress in Reaching Goals and Objectives for 2010-2011

Labour and Workforce Development, and its successor organizations, made great progress in improving its French-language services in 2010-2011. Appendix C lists:

- the goals and objectives we established for 2010-2011 to improve French-language services;
- the actions and activities we set to meet the goals and objectives for 2010-2011; and
- the progress we made last year to reach our goals and objectives.

Overall, 14 of the 20 Planned Measures from 2010-2011 were accomplished, for a 70 percent success rate. It is anticipated that the 2011-2012 plan will be even more successful.

6. Immigration Priorities of the Acadian and Francophone Community

Fédération acadienne de la Nouvelle-Écosse established a Steering Committee for francophone immigration (Comité directeur pour l'immigration francophone). It comprises immigration stakeholders and the Office of Immigration as a non-voting member.

The Acadian and francophone community has outlined in its five year plan on francophone immigration – *Plan directeur – Immigration francophone 2009-2014*, strategies to support French-speaking immigrants in the province with the following objectives:

- to increase the number of French-speaking immigrants into the Acadian and francophone communities
- to improve the capacity of the communities to welcome newcomers
- to support the economic integration of francophone immigrants in the Acadian and francophone communities
- to support the social and cultural integration of francophone immigrants in the Acadian and francophone communities

The Office of Immigration was involved in the development of the action plan and supports, in principle, its global vision and objectives.

7. Conclusion: Contribution to the Preservation and Growth of the Acadian and Francophone Community

The Department's French-language Services Plan contributes to the preservation and growth of the Acadian and francophone community by allowing us to serve French-speaking community members in their native language. This engages the Acadian and francophone community more fully in the planning and delivery of our operations and programs.
