

## **CPA ( Wilderness Areas )**

**Type:** ARC/POLY

### **Description/Source**

Layer contains the areas within the province covered by the Wilderness Areas Protection Act. Boundaries were determined by the Department of Environment and digitized by the Survey Division in Halifax at a 1:10,000 scale. At present (Feb. 2001), there are no wilderness areas in Pictou, Antigonish, Hants and Lunenburg counties.

### **Comments**

This layer was formally known as 'candidate'.

These boundaries are being added to the owner layer with polygon fcode of 163.

### **Info Files**

#### **CPA.PAT**

CANPRO	Wilderness area identifier ex. CPA1	6 C
OLDNUMBER	Previous identifier maintained for compatibility only	6 C
NAME	Wilderness area name/location	35 C

#### **CPA.AAT**

FCODE	all arcs set to 700, except for Neatline/Shell Boundary	4 I
-------	---	-----

#### **CANDIDATE.NAMES/ CPA.NAMES** - file related by CANPRO

CANPRO	Wilderness area identifier ex. CPA1 (sort key)	6 C
OLDNUM	Previous identifier maintained for compatibility only	6 C
NAMES	Wilderness area name/location	35 C

### **Id Codes**

#### **Arc Feature codes**

Many possible id values as any existing boundary from other layers as arcs will retain original value.

- 140 Crown boundary surveyed - required
- 141 Crown boundary surveyed - not required
- 143 Crown boundary unsurveyed - required
- 300 Ocean shoreline - mean high water level
- 301 Lake shoreline
- 302 Double line river
- 700 Wilderness boundary

-99999999 Neatline/shell boundary coded for library usage

#### **Polygon Feature Codes**

- 1 to 31 Wilderness protected area numbers

### **Valid Codes and Descriptions**
