*Snaring hare with Wildlife Habitat Stamp only.

Note: This data is important to help manage furbearers in Nova Scotia. It will help Biologists to calculate trap nights and catch effort.

1 "Kept" means: furbearers/pelts you wish to retain in your possession after April 15
2 "Turned In" means: pelts, over the bag limit or accidently caught and turned into DLF office.
3 Lynx and marten are completely protected in Nova Scotia. Any lynx or marten accidently harvested (or other species captured in excess of bag limits) and which could not be released must be reported on the Accidental Harvest Form and turned in to a local DLF office.
4 Bobcat and fisher are mandatory carcass submissions this year.

**Nova Scotia Small Game and Waterfowl Report Card 2021/22**

It is mandatory to report by March 15. Submit online at novascotia.ca/natr/harvests or mail this completed form after your final hunting trip of season.

Email ________________________________________

Wildlife Resources Card #: __ __ __/ __ __ __/ __ __ __/

**Furharvesters Report Form 2021/22**

IMPORTANT: You are required to report by April 15 even if you did not trap. Report online at novascotia.ca/natr/harvests or submit this report to the DLF office where licence was purchased.

If you held a license but did not trap or snare, check this box.

Please indicate number of sets, trap nights and animals harvested by County.

On the basis of your observations, how plentiful do you feel the following animals are in the county you spent the most time trapping/snaring?

N: No opinion
0: None
1: Low
2: Medium
3: High
4: Very High

This is a summary prepared for the convenience of anyone who plans to hunt or trap in Nova Scotia. Consult the complete copy of the Wildlife Act and Regulations for all purposes of interpreting and applying the law.

These laws are subject to change at any time and are available online at novascotia.ca/natr/wildlife/laws/actsregs.asp

For detailed information please see our website at novascotia.ca/natr/hunt

Report illegal hunting and/or trapping to your local Lands and Forestry Office or call 1-800-565-2224

Honourable Chuck Porter
Minister
Paul LaFleche
Deputy Minister

Please help the environment. Recycle this book.
Message from the Minister

Today, as in the past, hunting and trapping continue to be a valued, safe, and important part of the heritage of Nova Scotia. Currently, approximately 140,000 Nova Scotians have Wildlife Resources Cards which allow them to engage in these and other outdoor activities.

Nova Scotia began offering the Becoming an Outdoors-Woman® (BOW) program in 1997, with a primary focus of assisting women in learning outdoor skills associated with hunting, fishing, and other outdoor pursuits. We are pleased to see the number of women becoming involved in these activities continues to rise in our province.

Young Nova Scotians are also getting involved in hunting and trapping through mentored programs. For example, the early youth season for hunting deer provides qualified young hunters the opportunity to be introduced to hunting activities, and to gain experience under the direct supervision of experienced adult hunters.

Nova Scotians, including hunters and trappers, care deeply about environmental health and the protection of wildlife habitats. Each year hunters and trappers contribute an average of ~$200,000 to the Nova Scotia Habitat Conservation Fund to support biodiversity conservation and research, through the purchase of Wildlife Habitat Stamps. Hunters and trappers also play an important role in effective wildlife management through the reports and biological samples they submit each year, which provide valuable information to inform wildlife management decisions.

Hunters throughout the province continue to contribute donated wild meat to Feed Nova Scotia through the Hunters Helping the Hungry Program. These donations have provided over 10,000 servings of quality high protein meals for Nova Scotians in need.

As we begin the 2021 season, I remind you to respect the rights of private landowners and to follow current public health guidelines when hunting to help reduce the spread of COVID-19.

This booklet provides you with an outline of the fees, bag limits, season dates, a summary of regulations, and other important information for the 2021 hunting season. Please review it carefully. If you have any questions or concerns, please contact your local Department of Lands and Forestry office.
On behalf of the Department of Lands and Forestry, I wish you a safe and successful hunting and fur-harvesting season.

Sincerely,

Chuck Porter,
Minister of Lands and Forestry

**Significant Changes for 2021**

1. Changes to the weapons legal to hunt bears in moose zones 2, 3, and 4 from September 13th until October 9th, refer to page 32 for the Ministerial Order.

2. After 10 years, we have decided to suspend our voluntary collection of trapped coyotes. We would like to thank all those who submitted animals for this program.

3. The number of antlerless deer stamps have increased in several Deer Management Zones to help control deer populations and to mitigate the spread of a parasitic brainworm that is transmitted from deer to moose, where it can be fatal and impact overall moose herd health. Refer to page 58 for more information on antlerless deer stamps.

4. Bobcat carcasses must be turned in and pelts stamped at the appropriate DLF office. (see Furbearer Specimens To Be Turned In page 45)

**COVID-19**

Nova Scotians need to follow current social distancing guidelines when hunting to help reduce the spread of COVID-19. This means limiting your contact with other people and staying 2 metres (6 feet) away from them, not travelling long distances, adhering to group gathering limits and practising good hygiene. Hunters need to determine if they can hunt within those guidelines.

This information is provided as general guidance and is considered accurate as of June 2021. Changes to restrictions continue to evolve. Stay informed by visiting [novascotia.ca/coronavirus/](http://novascotia.ca/coronavirus/) for the most up to date public health information before you begin your hunt. This could also affect programs and services offered by the department for this year’s hunt. Check our website [novascotia.ca/natr/hunt/](http://novascotia.ca/natr/hunt/) for updates.
Attention Nova Scotia Trail Camera Users!

You can win one of three top-quality trail cameras by participating in the Deer and Bear Trail Camera Survey and photo competition. DLF is asking trail camera operators to provide data to help in the management of white-tailed deer and black bears. All participants who complete and submit a survey will be entered into the draw for a free trail camera and may enter the competition for best deer/bear trail camera photo. More information on the survey is available online at novascotia.ca/natr/hunt/trailsurvey

Respect for Private Landowners

Attention all Hunters and Trappers—with the province being above 60% private land, it is important that hunters and trappers understand and respect private property rights. Remember it is not permissible to build or leave structures, such as blinds, on private property. The province strongly encourages hunters and trappers to seek permission to enter private lands.

The Protection of Property Act states that it is an offence to do any of the following activities on property without the permission or consent of the occupier:

a) enter on premises that is a lawn, garden, orchard, vineyard, golf course, or acreage managed for agricultural crops;

b) enter on premises that is apparently a tree plantation area or a Christmas tree management area;

c) enter on premises that is enclosed in a manner that indicates the occupier’s intention to keep persons off the premises or to keep animals on the premises;

d) dump or deposit material of any kind or causes, or permit material to be dumped or deposited on premises;

e) enter on premises where entry is prohibited on the premises by notice;

f) engage in an activity that is prohibited on the premises by notice.

Upon conviction, a fine of up to five hundred dollars may be levied. A notice given pursuant to this Act may be oral or in writing and may be given respecting any part of the land of an occupier.

It is an offence to remain on property after being directed to leave by the occupier or person authorized by the occupier.

However, no person may be prosecuted for contravening any notice under the act if that person is on forest land and is lawfully hunting, camping, berry picking or hiking.

“Forest land” means a wooded area, forest stand, tract covered by underbrush, barren ground, marsh or bog, but does not include:

a) an area which is apparently a tree plantation area or a Christmas tree management area;

b) a special forestry study area;

c) the immediate area where any activity is apparently being carried out on woodlands for the purpose of harvesting a forest product;

d) a commercial berry growing area.
For further information about the trespass laws, please refer to the *Protection of Property Act* online at [nslegislature.ca/sites/default/files/legc/statutes/protect.htm](http://nslegislature.ca/sites/default/files/legc/statutes/protect.htm) which is administered by the Department of Justice through local police departments.

While Nova Scotia Power holds a right-of-way over land on which its power lines are located, the company does not own the lands. Permission to use the right-of-ways for the purpose of hunting must be obtained from the property owner.

Additional information on regulations specifying setbacks for discharge of weapons around a school, dwelling, playground, golf course, athletic field, woods operation, place of business, or agricultural or public building may be found on page 89.

---

**Important Reminder about Hunting and Trapping on Private Land**

Under the *Protection of Property Act*, permission is required to hunt or trap on private land which is managed for agricultural crops, pasture, orchard, vineyard, commercial berry production, garden, Christmas tree production, tree plantation, lawn, or a golf course; or woodlands in the immediate area of an active forest products harvesting operation. On other private lands such as forests, brush or barren lands, marsh and bogs, permission is not required, provided that no hunting, trapping, or discharge of weapons may occur within the distances prohibited in regulations pursuant to the Wildlife Act from schools, dwellings or other features specified in regulations, except with the permission of the owner or occupier (see previous page Respect for Private Landowners, *Protection of Property Act*; pages 38–43 Traps and Snares; page 89–92 legal distance for discharge of weapons, page 30–33 bear harvesting/bait.)
Setting Traps

No person shall set or place a trap or snare on cultivated land without permission of the owner or occupier. In addition no person may set or place a trap (except a box trap, a snare set completely under ice, a rat trap equipped with a hood or other device to prevent animals larger than a weasel from activating the trigger, or submarine trap) within 274 metres of a dwelling, school, playground, athletic field, or place of business unless that person is the owner or occupier or has the permission of the owner or occupier, or is authorized in writing by a conservation officer for the purpose of trapping nuisance wildlife.

However, certain live trapping devices, in addition to box traps, (cable restraints and padded leghold traps) are now allowed within 274 m of a dwelling with permission from the owner of the land where the trap is set (these traps still need to be at least 182 m from any other dwelling, playground, golf course, school or public building).

Traps or snares are not to be placed on privately owned forest land where the owner or occupier has posted a written notice prohibiting trapping or snaring. This does not apply to snares set for snowshoe hare.

Illegal Parking

Section 149 of the Motor Vehicle Act nslegislature.ca/sites/default/files/legc/statutes/motor_vehicle.pdf states no person shall leave a vehicle standing on property of which he is not the owner or tenant without the consent of the owner or tenant of the property. When a peace officer is satisfied that a vehicle has been left standing on property for one hour or longer, the officer may, on the request of the owner or tenant of the property, remove the vehicle and detain it until the expense of removal and detention are paid.

Prohibition against using drones to hunt

Nova Scotia, like most jurisdictions across Canada, prohibits the use of drones to hunt animals. This is because the province considers drones to be aircraft. The general hunting regulations in the wildlife act states that “No person shall operate or be a passenger in an aircraft for the purpose of hunting wildlife” (Regulation 283, Section 10 [1]). Further, the Nova Scotia government promotes ethical hunting practices including the doctrine of fair chase. We believe that the use of drone technology to hunt gives an unfair advantage to hunters.
Report Waterfowl Bands

Each year thousands of waterfowl are banded in North America. There are three ways to report your bands.

3 Ways to Report Bird Bands

Online   www.reportband.gov
Call toll free  1-800-327-BAND (2263)
Write Bird Banding Laboratory
           12100 Beech Forest Road
           Laurel, MD 20708

By reporting North American Bird Banding Program bands, you will help in the management of our continental migratory birds. When you report your band number, you will be asked for information on when and where you encountered the bird or band. You can keep the band. You also will receive a Certificate of Appreciation for all reported bands.

If you report on-line, you will immediately receive feedback on the band number reported.

By online, phone or mail your information is wanted and needed.

Thank-you!
WILDLIFE MANAGEMENT NEEDS YOUR HELP!

All licenced hunters/trappers are required to submit an Activity Report for each licence s/he holds. This is required even if you do not hunt or do not harvest an animal.

**Reporting Online** is fast and easy.  
Go to [novascotia.ca/natr/harvests](http://novascotia.ca/natr/harvests)

Submission deadlines for this year are:

- Bear hunting/snaring 2 weeks after season closes
- Deer hunting *(General)* 1 week after season closes
- Deer hunting *(A&M)* 1 week after season closes
- Moose 2 weeks after season closes
- Small game March 15\(^{th}\)
- Furharvester April 15\(^{th}\)

* A separate report is required for each Deer Hunting licence you hold.
Seasons and Bag Limits

EAGLES, HAWKS, FALCONS, OWLS, OSPREY AND ANY OTHER WILDLIFE NOT SPECIFICALLY MENTIONED BELOW ARE PROTECTED AT ALL TIMES.

HUNTING ON SUNDAY IS ALLOWED ON THE TWO SUNDAYS IMMEDIATELY FOLLOWING THE LAST FRIDAY IN OCTOBER. HUNTING IS ALLOWED FOR ALL SPECIES, EXCEPT MOOSE, FOR WHICH A SEASON IS OPEN AT THAT TIME.

Big Game

Bear Hunting Season
2ND MONDAY OF SEPTEMBER TO 1ST SATURDAY IN DECEMBER, BAG LIMIT — ONE (1) BEAR

Bear Snaring Season
OCTOBER 1ST TO 1ST SATURDAY IN DECEMBER
BAG LIMIT — TWO (2) BEAR
To obtain a Bear Snaring Stamp, you must be a resident of Nova Scotia and certified as a qualified (FQ) or trained (FT) Furharvester. See page 30.

Moose Hunting Seasons
SEASON 1 - THE LAST MONDAY IN SEPTEMBER UNTIL THE FOLLOWING SATURDAY
SEASON 2 - THE 1ST MONDAY IN OCTOBER UNTIL THE FOLLOWING SATURDAY
SEASON 3 - THE 2ND MONDAY IN OCTOBER TO THE FOLLOWING SATURDAY (ZONE 5 ONLY)
SEASON 4 - THE 3RD MONDAY IN OCTOBER TO THE FOLLOWING SATURDAY (ZONE 5 ONLY)
SEASON 5 - THE 4TH MONDAY IN OCTOBER TO THE FOLLOWING SATURDAY (ZONE 5 ONLY)
SEASON 6 - THE MONDAY FOLLOWING THE 4TH MONDAY IN OCTOBER TO THE FOLLOWING SATURDAY (ZONE 5 ONLY)
SEASON 7 - THE 2ND TUESDAY, WEDNESDAY, AND THURSDAY IN DECEMBER (ZONE 1 AND 5 ONLY)
BAG LIMIT — ONE (1) MOOSE
Moose hunting is only permitted in Inverness and Victoria counties. Moose Hunting Licences are allocated through an application and random draw process. See 78 or novascotia.ca/natr/hunt.

2021 Moose Draw Entry Fee .................................... $8.04 (+ HST)

Deer Hunting (General) Season
LAST FRIDAY IN OCTOBER TO 1ST SATURDAY IN DECEMBER
BAG LIMIT — ONE (1) DEER

Deer Hunting (Archery and Muzzleloader) Season
2ND MONDAY IN SEPTEMBER TO 2ND SATURDAY IN DECEMBER,
NOTE: BOW ONLY FROM OPENING DAY UNTIL THE 2ND FOLLOWING SATURDAY. THEREFORE, NO CROSSBOW OR MUZZLELOADER FOR FIRST TWO WEEKS OF SEASON. BAG LIMIT — ONE (1) DEER

Deer hunting is limited to antlered deer except:
• For hunters having a valid antlerless deer hunting stamp affixed to their deer hunting licence or;
• If hunting in deer management zones 101, 102, 105, 107, and/or 109, as these zones are open to one deer of either sex (antlered or antlerless) in 2021.

Special Youth Season for Hunting Deer
1ST FRIDAY IN OCTOBER AFTER OCTOBER 10 UNTIL THE 2ND SATURDAY FOLLOWING.
Persons 16 and 17 years of age may hunt deer during this season with any weapon permitted for use for the Deer Hunting Stamp they are hunting under, provided they are:
• under the immediate supervision of a responsible adult 18 years of age or older who is certified to hunt wildlife in Nova Scotia with a firearm or bow or crossbow and;
• hold a Wildlife Resources Card with appropriate certification (HT, CQ, CT or B) and;
• hold a Wildlife Habitat Stamp and;
• hold a Deer Hunting Stamp. See definition of “immediate supervision” on 119.

Special Archery and Muzzleloader Hunting Season
3RD MONDAY IN OCTOBER UNTIL THE FOLLOWING SATURDAY
(LISCOMB GAME SANCTUARY AND TOBEATIC WILDLIFE MANAGEMENT AREAS ONLY)
BAG LIMIT — AS PER SPECIES FOR WHICH THE PERSON POSSESSES A VALID LICENCE.
SEE 93 FOR DETAILS, AND RULES ABOUT BAITING.

Small Game
Pheasant Preserve Hunting Season
AUGUST 1 TO MARCH 31
NO BAG LIMIT
A Wildlife Habitat Stamp (base licence) is required to shoot pheasants or quail on a licenced pheasant shooting preserve. A Wildlife Habitat Stamp and a Small Hunting Game Stamp are required to shoot other small game on a preserve. No person is to remove a pheasant or quail from a preserve unless the game bird(s) are identified with a band or tag bearing the licence number of the pheasant shooting preserve operator.

Ruffed Grouse Hunting Season
OCTOBER 1 TO DECEMBER 31
BAG LIMIT — FIVE (5) PER DAY, WITH POSSESSION LIMIT AFTER THE FIRST DAY OF TEN (10) AT ANY TIME.
A Wildlife Habitat Stamp and a Small Game Hunting Stamp are required.

Ring-necked Pheasant (Male) Hunting Season
A) IN THE COUNTIES OF ANNAPOLIS, KINGS AND HANTS, NOVEMBER 1 TO DECEMBER 15
B) IN ALL OTHER COUNTIES OF THE PROVINCE, OCTOBER 1 TO DECEMBER 15
BAG LIMIT — TWO (2) MALE RING-NECKED PHEASANTS PER DAY, WITH A POSSESSION LIMIT AFTER THE FIRST DAY OF FOUR (4) BIRDS AT ANY TIME.
A Wildlife Habitat Stamp and a Small Game Hunting Stamp are required. Persons transporting a ring-necked pheasant must leave at least one fully feathered wing and the tail attached to the bird. This does not apply to legally tagged pheasants taken from a licenced pheasant shooting preserve.
Rabbit (Snowshoe Hare)

**HUNTING AND SNARING SEASON; NOVEMBER 1 TO THE LAST DAY OF FEBRUARY**

**NO BAG LIMIT**

A Wildlife Habitat Stamp is required by all persons hunting and/or snaring rabbits (see 21). A Wildlife Habitat Stamp and a Non-Resident Small Game Hunting Stamp is required by non-residents. The use of dogs to hunt snowshoe hare is prohibited from November 1 to November 15 inclusive. Rabbits may be snared on Sunday.

Hungarian Partridge

No open hunting season.

**Migratory Game Birds**

Only the following migratory game birds may be taken or hunted: ducks, geese, woodcock, and Wilson or Common Snipe. Seasons and bag limits are established by the federal government. To hunt migratory birds in Nova Scotia, you must obtain:

a) Federal Migratory Game Bird Hunting Permit and;
b) Federal Habitat Conservation Stamp and;
c) NS Small Game Stamp and;
d) NS Wildlife Habitat Stamp

The federal permit can be obtained online at [https://www.canada.ca/en/environment-climate-change/services/m migratory-game-bird-hunting/permit.html](https://www.canada.ca/en/environment-climate-change/services/migratory-game-bird-hunting/permit.html) or at your local post office.

The summary of federal regulations can be obtained at your local post office or online at [www.ec.gc.ca/rcom-mbhr/](http://www.ec.gc.ca/rcom-mbhr/)

See Legal Weapons and Ammunition page 100–102—regarding Non-Toxic Shot requirement (page 16 and 95). See General Regulations (page 89–92) regarding hunting migratory birds in a motorized vessel and shot capacity.

**Belleisle Marsh Hunting Blind Lottery**

Due to COVID-19 this event may be affected. See COVID-19 page 3.

A special draw will be held for waterfowl hunting on constructed wetlands of Belleisle Marsh, Annapolis County. Hunting on constructed wetlands during the first three days of the migratory bird hunting season (October 1, 2 and 3, 2021) is permitted at registered blind sites only.
Applications for use of blind sites will be available online at [novascotia.ca/natr/hunt/belleisle.asp](http://novascotia.ca/natr/hunt/belleisle.asp) and at DLF Offices starting August 1, 2021. Application deadline is August 31, 2021. The draw will be held on September 1, 2021 at the DLF office in Lawrencetown.

**Belleisle Marsh Lead Shot Hunting Prohibition**

It is an offence to possess lead shot while hunting on Belleisle Marsh (this includes hunting upland game).

---

**Non-Toxic Shot**

No person shall possess or use shot other than non-toxic shot for the purpose of hunting waterfowl or snipe. It is an offence to possess shot other than non-toxic shot within National Wildlife Areas (NWA), therefore you must use non-toxic shot for all hunting while in a NWA. See page 95 and 119.

---

**Furbearers**

**NOVEMBER 1 TO MARCH 31 (FOR SPECIFIC SEASONS AND BAG LIMITS OF EACH SPECIES SEE PAGES 33 TO 35)**

A Wildlife Habitat Stamp and a Furharvester Stamp are required to trap, shoot, or possess beaver, otter, mink, muskrat, Fisher, raccoon, fox, bobcat, and weasel. Marten, lynx, and cougar are completely protected. Coyote, red squirrel, and skunk may be hunted as described in Other Harvestable Wildlife (see below).

---

**Other Harvestable Wildlife**

**NO BAG LIMITS. REQUIRES A WILDLIFE HABITAT STAMP.**

<table>
<thead>
<tr>
<th>Species</th>

</tbody>
</table>

*Coyote*

Coyotes may only be trapped by licenced furharvesters during the regular season when traps and snares may be used. Persons hunting coyotes are required to wear hunter orange from October 1 to the end of the general open season for hunting deer.
Consult section Licence, Stamp and Permit Regulations — Other Harvestable Wildlife (20) to see who may hunt them. See section on Legal Weapons and Ammunition — Other Harvestable Wildlife (102) for permitted weapons and ammunition.

For the purpose of preventing damage to property, the following “Other Harvestable Wildlife” may be taken or killed without a Wildlife Habitat Stamp, licence or permit but only by the owner/occupier of a property or an agent of the owner/occupier at any time of year.

“Other Harvestable Wildlife” Causing Property Damage:

- Coyote
- Mice and rats
- Porcupine
- Red squirrel and chipmunk
- Skunk
- Woodchuck (Groundhog)

- Crow
- English (House) Sparrow
- Rock dove (Common pigeon)
- Starling
- Voles, moles and shrews (excludes Woodchuck (Groundhog), Long-Tailed Shrews, Gaspe Shrew and Maritime Shrews)

The Becoming an Outdoors Woman workshops offer:

- A 3 day workshop designed for women 18 years and older
- Classes introduce participants to a variety of hunting, fishing and other outdoor experiences
- Instructors who are willing to share their knowledge and passion in a fun and comfortable environment

This workshop is for you if......

- You are a beginner and want to try something new but don’t know how to get started
- You know how to do some activities and would like to improve on these or try others
- You are looking for fun and fellowship in the great outdoors, with like-minded people

If you would like more information, please contact us at: bownovascotia@gmail.com or visit us online www.bownovascotia.com
Licence/Permit Fees and Location Availability

**DLF Offices and Vendors**

**Wildlife Habitat Stamp**
- $5.15

Wildlife Habitat Stamp is required:

a) To acquire any hunting/furharvesting/snaring stamp. Acts as your base licence.

b) To snare rabbits and/or hunt “Other Harvestable Wildlife”.

Migratory Game Bird Hunting Permit ................. $8.50 (+HST)
also requires purchase of
federal Habitat Conservation Stamp ..................... $8.50 (+HST)
Licence, Stamp and Permit Regulations

General Licence Stipulations

1. Nova Scotia residents **must** present their Wildlife Resources Card, with appropriate training certification, to obtain a Wildlife Habitat Stamp or any hunting/snaring/trapping stamp. Residents must carry their Wildlife Resources Card at all times when in wildlife habitat and in possession of a weapon or trapping device(s). See page 28.

2. A Wildlife Habitat Stamp is required by all residents and non-residents to:
   a) Acquire any hunting/furharvesting/snaring stamp and;
   b) To snare rabbits and/or hunt “Other Harvestable Wildlife”

3. Non-residents must provide proof that they have been certified to hunt in Nova Scotia or another jurisdiction before they can obtain a non-resident hunting licence. Non-residents do not require a Wildlife Resources Card but can order one to save them time when purchasing a NS licence in future. See 29.

4. Any licence obtained by means of false or misleading statements made in respect to any information required for the issuance of said licence shall be deemed to be void and of no effect.

5. No licence shall be valid unless the date, name and signature of the person to whom it is issued is plainly and legibly written on the Wildlife Habitat Stamp. The Wildlife Resources Card number or address (Non-Residents only) are also required on all other stamps.

6. Except as allowed in the Act or regulations, no person shall purchase more than one of the same type of licence, stamp or permit in a given licence year.

7. If a licence, stamp and/or tag is lost/destroyed or needs to be replaced for any other reason, go to your local Department of Lands and Forestry office. A replacement stamp MAY be issued if:
   a) An affidavit is signed by individual who needs the replacement and;
   b) Appropriate proof is provided that is deemed satisfactory by the Department and;
   c) The appropriate replacement stamp fee(s) are paid.
Big Game

1. You must be 18 years of age or older to purchase a Deer Hunting, Bear Snaring or a Bear Hunting Licence, or; if you have attained the age of 16 but not 18 years, you may obtain a Deer Hunting, Bear Hunting or Bear Snaring Licence if it is secured for you by your parent or guardian. In this case, you may hunt deer or bear, or snare bear only under the immediate supervision of a responsible adult of 18 years of age or older who is certified to hunt wildlife in Nova Scotia with a firearm or bow or crossbow. See Definitions — Immediate Supervision (119).

2. Non-resident hunters require the services of a licenced guide or a resident over the age of 18 who has a Special Permit to Guide in order to hunt any wildlife in Nova Scotia. See Guides (24).

3. Antlerless Deer Hunting Stamps are currently only available through a special application and lottery draw process. Application Information is available on 57 or online at novascotia.ca/natr/hunt/.

4. Moose Hunting Stamps are currently only available through a special application and lottery draw process. Application information is available on 77 or online at novascotia.ca/natr/hunt/.

5. For rules specific to hunting in the Tobeatic Wilderness Area, see 93.

6. No person shall, while in a wildlife habitat, possess or use a product that contains or purports to contain any body part of a member of the deer family, including urine, blood or other fluids. This regulation has been put in place in an effort to prevent introducing Chronic Wasting Disease to Nova Scotia’s deer population.

7. To hunt big game with a crossbow, the crossbow must have a draw weight of 150 pounds (68 kilograms) or greater and bolts with heads measuring more than 2.2 centimeters in diameter.
**Small Game**

1. A valid Small Game Hunting licence authorizes the licencee to hunt during the open season for: ring-necked pheasants (male), ruffed grouse, woodcock, snipe, and waterfowl (ducks and geese). If hunting woodcock, snipe or waterfowl, you require both a Small Game Hunting licence and a Migratory Game Bird Hunting Permit.

2. You must be 18 years of age or older to purchase a Small Game Hunting Licence, or,

3. If you have attained the age of 12 but not 18 years, you may obtain a Small Game Hunting Licence if it is secured for you by your parent or guardian. You may hunt small game provided you are under the immediate supervision of any responsible adult of 18 years of age or over who is certified as qualified to hunt with a weapon.

4. Non-resident hunters require the services of a licenced guide or a resident over the age of 18 who has a Special Permit to Guide. See Guides (24).

5. A person may hunt small game with a raptor during the appropriate open season provided they are in possession of their Wildlife Resources Card, all required licences for the species being hunted, and a valid Falconry Permit.

**Other Harvestable Wildlife and Snowshoe Hare**

1. A person who is 18 years of age or over may hunt “Snowshoe Hare” or “Other Harvestable Wildlife”, provided they possess a Wildlife Habitat Stamp and appropriate certification for any weapon used.

2. Any person who is less than than 18 years of age and not less than 12 years of age may hunt “Other Harvestable Wildlife” or snowshoe hare provided:
   - the person holds a valid Wildlife Habitat Stamp and the appropriate certification for any weapon used and;
   - the person is under the immediate supervision of any other responsible person 18 years of age or over who is certified to hunt with a weapon.

3. A resident of any age may snare snowshoe hare (rabbits) provided they possess a valid Wildlife Resources Card with a minimum of an “O” certification and a Wildlife Habitat Stamp.
Education Courses

Register online: https://wrs.novascotia.ca/Education/

To Hunt with a Firearm
To become certified to hunt with a firearm in Nova Scotia you must successfully complete 2 safety courses:
• the NS Hunter Education Safety Course
• the Canadian Firearms Safety Course (Non-Restricted)

NS Hunter Education Safety Course
Available online and in a classroom setting (12 years of age and over).

Canadian Firearms Safety Course (Non-Restricted)
Available in a classroom setting (12 years of age and over)

To Hunt with a Bow
To become certified to hunt with a bow and arrow in Nova Scotia you must successfully complete the International Bowhunter Education Program (IBEP) Course.

Bowhunter Course
• Available in a classroom setting (12 years of age and over)
• Register online by August 1st for a seat in the current year course — late registrations may be held over until the following year

To Hunt with a Crossbow
To hunt with a crossbow in Nova Scotia, you must meet at least one of the following criteria:
• Hold both a recognized NS firearm hunting certification and a bowhunting certification issued prior to September 1, 2012
• Provide proof of crossbow training from another jurisdiction
• Provide proof that you have hunted with a crossbow in another jurisdiction within the last 5 years
• Pass the online Crossbow Course, which requires a WRC with appropriate certification
Crossbow Course
• Available online only (12 years of age and over)
• Must hold a Wildlife Resources Card with either HT or HQ or B certification

To Trap in Nova Scotia
To become certified to trap in Nova Scotia you must successfully complete the Furharvester Education Course.

Furharvester Education Course
• Available in a classroom setting (12 years of age and over)
• Register online by August 1st for a seat in the current year course — late registrations may be held over until the following year

Nuisance Wildlife Operator (Test)
Available to individuals (12 years of age and over) who hold a Wildlife Resources Card with Furharvester Certification (FT or FQ).

Register for a Course Online
• Register online: https://wrs.novascotia.ca/Education/
• If you do not have access to the internet, contact your local Natural Resources and Renewables office.
• Classroom courses (where applicable) are offered throughout the year based on student demand and instructor availability. Course fees are subject to change.

NS Hunter Education................................................. $30.00 (+ HST)
NS Bow Hunter Education........................................... $40.00 (+ HST)
NS Crossbow Hunter Education.............................. $29.95 (+ HST)
NS Furharvester Education........................................... $40.00 (+ HST)
Nuisance Wildlife Operator (test)......................... $6.83 (+ HST)
Canadian Firearms Safety (non-restricted)........ $60.00 (+ HST)
Guides

Special Permit to Guide

A Special Permit to Guide is available to residents of Nova Scotia who are nineteen years of age and over and hold a Wildlife Resources Card showing appropriate certification(s) to hunt. The Special Permit to Guide provides the holder the privilege of accompanying in the woods as a guide, friends or relatives who wish to hunt or fish.

1. A resident must appear in person at a DLF office to obtain a Special Permit to Guide (see Licence and Permit Fees, 20)

2. A Special permit to Guide is intended for residents of Nova Scotia who wish to guide non-resident family and/or friends with no compensation for their service.

3. The holder of a Special Permit to Guide is not permitted to charge a fee or accept compensation or reward for their service.

4. Any holder of a Special Permit to Guide may not guide more than three (3) persons while hunting deer, or guide more than four (4) persons who are hunting or fishing species other than deer.

5. All holders of a Special Permit to Guide are responsible for ensuring information returns and/or biological specimens from their clients are submitted, on time, to the Department of Lands and Forestry.

6. For additional requirements, contact your local DLF office

Registered Guide Licence

A Registered Guide Licence is available to Wildlife Resources Card holders with a guide certification (qualified or trained). A Registered Guide Licence provides the holder the privilege of accompanying in the woods, as a Registered Guide, any persons who wish to hunt or fish. Information on registering for a Guide Course is available online at novascotia.ca/natr/hunt/guidecertification.asp

1. Any person authorized as a Licenced Guide may not guide more than three (3) persons while hunting deer, or guide more than four (4) persons who are hunting or fishing species other than deer.

2. All licenced guides are required to report violations of the Wildlife Act or regulations by any person to the local office of the Department of Lands and Forestry or a local police department.

3. All holders of a Registered Guide Licence are responsible for ensuring information returns and/or biological specimens from their clients are submitted, on time, to the Department of Lands and Forestry.
New to Hunting/Trapping?

**Nova Scotia Resident Requirements:**

1. Possess the appropriate training, as defined above and in the “Education Courses” section (23) and;
2. Order a Wildlife Resources Card (see 28). Individuals with proof of training from other jurisdictions will be prompted during the order process on how to submit proof of training and;
3. Purchase a Wildlife Habitat Stamp (base licence) and;
4. Purchase appropriate wildlife harvesting stamp(s)

**Note to Minors:** If you have reached the age of 12 but are not yet 18, you must have a parent or guardian accompany you to purchase your licence.

**Note to Firearms Hunters:** In addition to the above requirements, individuals hunting with a firearm are also required to possess one of the following valid federal Firearms licences: Possession Only Licence (POL) or Possession and Acquisition Licence (PAL) or Minors Firearm Licence (persons under the age of 18).

More information is available online at [https://www.rcmp-grc.gc.ca/en/firearms](https://www.rcmp-grc.gc.ca/en/firearms) or by calling the Canadian Firearms Center: 1-800-731-4000.

**Non-Resident Requirements**

Non-Residents have the same requirements as listed above for residents but are required to:

1. Be supervised by a Licenced Guide or a resident 19 years of age or older who has the appropriate Special Permit to Guide and;
2. Have the appropriate qualifications (provide satisfactory proof to DLF that s/he is entitled to hunt with a firearm, bow or crossbow in another jurisdiction) and;
3. Purchase a Wildlife Habitat Stamp and;
4. Purchase appropriate wildlife harvesting stamp/s
5. Possess a Wildlife Resources Card if purchasing a commercial licence (eg: Furbuyer, Taxidermist, etc).
Shooting Ranges

The online booking system for shooting range use is available 24 hours a day, 7 days a week at novascotia.ca/natr/srbs. It allows the public to view a list of DLF shooting ranges, their location and availability. Wildlife Resources Card (WRC) holders may book a shooting range online and also edit/delete their bookings online. Individuals who do not hold a WRC may book a range by contacting a DLF office.

Photo by Ursa Major Outfitters
Wildlife Resources Card

The Wildlife Resources Card (WRC) is the only acceptable form of identification for NS residents who wish to obtain a Wildlife Habitat Stamp or any type of hunting/trapping/snaring/furharvesting licence and to apply for limited-entry hunt draws. The WRC provides a record of the holder’s hunting/trapping related training/certifications. A WRC is also required to snare rabbits and use the online shooting range booking system.

WRC Renewal Notice
You are not required to renew your Wildlife Resources Card regardless of the expiry date printed on the card. All you need to do is:

a) Retain your current Wildlife Resources Card—regardless of the printed expiry date.

b) Confirm and update (if necessary) the contact information associated with your WRC online at novascotia.ca/natr/hunt (“Manage your WRC Profile”) or by calling the Customer Service Line toll free at 1-833-302-0750.

More information is available online at wrs.novascotia.ca/wrc/

Hunters and trappers may have noticed changes to the way some online services have been delivered in recent months. The Province is working to re-develop the data system it uses to manage wildlife client services including Wildlife Resource Cards, hunter education registration, draw entries and harvest reporting. This will help ensure the online services you use will be reliable for years to come. As processes change, updates will be provided through our website, to Wildlife Resource Card holders and through the hunting and trapping associations and communities.
Who Needs a Wildlife Resources Card?

Wildlife Resources Cards are required for:

1. Residents wishing to purchase a Wildlife Habitat Stamp (base licence) or any resident hunting, snaring or furharvesting licence.

2. Residents wishing to snare snowshoe hare or harvest “Other Harvestable Wildlife” (see page 21–22)

3. Residents and Non-Residents wishing to purchase commercial licences (Guide, Nuisance Wildlife Operator, Fur Buyer, Taxidermist, Hide Dealer, Pheasant Preserve Operator Licence) or a Falconry Permit (see page 18–19).

4. Residents wishing to enter any DLF harvesting related limited entry hunt draw.

5. Using the online shooting range booking system to book time at the shooting range. (see 27).

Wildlife Resources Cards are optional for:

Non-residents wishing to purchase non-resident hunting licences.

To Order a Wildlife Resources Card (applicable to residents and non-residents):

Available 24 hours a day/7 days a week

Online: wrs.novascotia.ca/wrc/
- Application fee $7.78 plus HST

Toll free: 1-833-302-0750
- Application fee $7.78 plus HST

Mail:
- Application fee $11.70 plus HST
- Application can be found at novascotia.ca/natr/hunt/pdf/WRC-application.pdf or at your local Lands and Forestry office novascotia.ca/natr/staffdir/offices_map.asp

Wildlife Resources Card Application
Citizen Services Division Business Registration Unit
Box 1529, 6N-1505 Barrington Street, Halifax, NS B3J 2Y4
Summary of Bear Harvesting Regulations

Anyone exporting bears or bear parts out of Canada will require a CITES (Convention on International Trade of Endangered Species) Export Permit. Residents of the United States or Canada do not need a CITES permit to export black bear trophies to the United States in a fresh, frozen or salted condition if the personal, sport-hunted trophy is part of the hunters accompanying baggage and is for personal use. Contact your local Department of Lands and Forestry office for further information.

All persons with a Bear Hunting and/or Bear Snaring licence are required by law to submit their completed Bear Report Form(s), within 2 weeks of the season’s closure, regardless of whether they hunt or successfully harvest a bear(s). Submit online at novascotia.ca/natr/hunt/ or to your local Department of Lands and Forestry office. Hunters and trappers who harvest a bear are additionally required by law to submit the lower jaw or full skull of the bear for extraction of a pre-molar tooth. It is helpful to prop the jaw open with a stick before rigor sets in. If requested, the jaw or skull will be returned to the hunter.

Bear Gallbladder Seal

Black bear gall bladders must be sealed with a permanently attached locking seal prior to sale or export. This seal can be purchased at any Department of Lands and Forestry office. The gall bladder must be presented in order to be sealed.

Note: Hunters are encouraged to phone their local DLF office prior to submitting a bear gall bladder to ensure that appropriate staff will be available.

ATTENTION!
Wildlife meat should be thoroughly cooked (75°C/170°F) before it is consumed by humans or pets.
Bear Snaring
1. Only a cable foot snare is to be used for snaring bear.
2. No snares are to be set within 30 m of the boundaries of any common or public highway.
3. No person shall set out bait for the purpose of attracting bears within those distances prohibited under the Firearm and Bow Regulations for discharging a weapon near a dwelling, school, playground, athletic field, or place of business (see 89) unless that person is the owner or occupier of the dwelling, or has the permission of the owner or occupier or is authorized in writing by a Conservation Officer for the purpose of trapping nuisance wildlife.
4. No person shall at any time discharge a weapon within 804 m of a school. See Legal Weapons and Ammunition (100) for stipulations on use of firearms and page 89–92 for more information on where a weapon may be discharged.
5. Non-residents are not allowed to snare bear in Nova Scotia.
6. Only a Nova Scotia resident with valid furharvester certification (FQ or FT) may purchase a Bear Snaring Licence.
7. When the holder of a Bear Snaring Licence has notified DLF in writing that they are snaring in partnership with another licenced bear snarer, that person may tend snares set by the partner and must carry the licence of the partner and must complete the tagging requirements when an animal has been captured.

Bear Hunting and Bait Sites
1. No person who holds a Bear Hunting Licence shall take, hunt or kill or attempt to take, hunt or kill a female bear which is accompanied by one or more cubs.
2. All bait sites for the purposes of attracting bears must be outside the distances stipulated under the Firearm and Bow Regulations for discharging a firearm or bow near a school, dwelling, or other places listed. (See Some General Regulations, 89)

The Bowhunters Association of Nova Scotia offers information on how to increase your skill and achieve success when bear hunting as an archer. See www.bowhuntersns.com.
IN THE MATTER OF Chapter 504 of the Revised Statutes of Nova Scotia, 1989, the Wildlife Act

-and-

IN THE MATTER OF an Order issued under Section 21 of the Wildlife Act

MINISTERIAL ORDER

I. WHEREAS subsection 21(1) of Chapter 504 of the Revised Statutes of Nova Scotia, 1989, the Wildlife Act (“the Act”) provides that, notwithstanding anything contained in the Act, the Minister of Lands and Forestry may issue an Order prohibiting hunting or a method of hunting in any defined area of the province for a period considered necessary for the proper management of wildlife in that area;

II. AND WHEREAS, notwithstanding the Act and any regulations made under the Act, including section 4 of the Firearm and Bow Regulations, the Minister considers it necessary for the proper management of moose to prohibit certain methods of hunting bear within specified areas of the province for a specified duration;

IT IS HEREBY ORDERED THAT:

The Minister of Lands and Forestry, under subsection 21(1) of the Wildlife Act, hereby prohibits the possession or use of a rifle, shotgun or muzzleloader for the purpose of hunting bear within the lands designated as Moose Management Zones 2, 3, and 4 of the province in the Moose Hunting Regulations N.S Reg. 90/88.

This Order is effective on Monday, September 13, 2021 and expires on Saturday, October 9, 2021, inclusive of these dates.

ANY PERSON who contravenes this Order may be liable to prosecution under subsection 21(3) of the Wildlife Act.

Original signed by

Honourable Chuck Porter
Minister of Lands and Forestry
Transporting Bear

1. The licence holder shall ensure that the detached Bear Hunting Tag or Bear Snaring Tag remains with the bear carcass until it is prepared for consumption. The licence holder may keep the tag on their person provided they stay with the carcass while it is being transported.

2. During the Open Season for bear, no person shall be in possession of, or transport, a bear carcass killed by another person unless:
   - the carcass has attached to it, the tag of the Bear Hunting Licence or Bear Snaring Licence issued to the person who killed the bear.
   - or, you are snaring bear in partnership with another licenced bear snarer.

Furharvesting Seasons and Bag Limits

**Beaver**

NOVEMBER 1 TO MARCH 31, BOTH DATES INCLUSIVE; BAG LIMIT, OF NOT MORE THAN THE NUMBER OF BEAVER PRESCRIBED IN THE LIMITS FOR THE ZONE IN WHICH THE TRAPPER IS A PERMANENT RESIDENT.

Furharvesters may not take, in any one zone, more beaver than the bag limit for that zone.

Mink, Muskrat, Red Squirrel, Skunk and Weasel

**NOVEMBER 1 TO MARCH 31**
**NO BAG LIMIT.**

**Otter**

**NOVEMBER 1 TO THE LAST DAY OF FEBRUARY**
**NO BAG LIMIT.**

**Bobcat**

**NOVEMBER 1 TO THE LAST DAY FEBRUARY**
**BAG LIMIT—FIVE (5) BOBCAT**
Bobcat carcasses must be turned in and pelts stamped at the appropriate DLF office. (see Furbearer Specimens To Be Turned In 45)

**Fox and Coyote**

**OCTOBER 15 TO MARCH 31**
**NO BAG LIMITS.**

**Coyote, Red Squirrel and Skunk**
These animals are classed as “Other Harvestable Wildlife” and their pelts can be legally possessed throughout the year without a permit, but:

a) cannot be trapped or snared without a Furharvester Licence or a Nuisance Wildlife Permit, except that a box trap may be used where they are a nuisance;

b) cannot be poisoned;

c) require a permit in order to export the pelt (or other parts) from the province.

**Raccoon Trapping**

**NOVEMBER 1 TO MARCH 31**
**NO BAG LIMIT.**
Requires a Wildlife Habitat Stamp and a Furharvester Stamp. Raccoons taken accidentally in a trap lawfully set for fox or coyote prior to the raccoon season may be kept.
**Raccoon Hunting**

**TRAINING OF RACCOON DOGS AT NIGHT. JULY 1 TO MARCH 31**

Killing of raccoons is not permitted until October 15. No permit is required for training, unless a light of greater than 4.5 volts will be used. To use a light greater than 4.5 volts a Raccoon Dog Night Training/Hunting Permit, available at DLF, is required. The permit holder must hold a Nova Scotia Wildlife Resources Card with FQ or FT certification. The consent of the owner or occupier of privately owned lands must be obtained when training raccoon dogs at night.

**Night Hunting of Raccoons**

**OCTOBER 15 TO MARCH 31 NO BAG LIMIT.**

Requires a Raccoon Dog Night Training/Hunting Permit and a Wildlife Habitat Stamp and a Furharvester Stamp. The consent of the owner or occupier of privately owned lands must be obtained when hunting raccoons at night.

**Lynx, Marten, Cougar and Fisher**

**CLOSED SEASON.**

Accidentally caught animals must be released or reported, and immediately turned in to a DLF office, except one (1) fisher may be kept if taken accidentally in a trap lawfully set for another species.

**Fisher carcasses must be turned in and pelts stamped at a DLF office. (See Furbearer Specimens To Be Turned In, 45 and accidental harvest form).**

**Black Bear**

**SNARING — SEE THE SECTION ON BEAR HARVESTING 30. BAG LIMIT — TWO (2).**

**Rabbits (Snowshoe Hare)**

Not defined as a furbearer—it is illegal to use a body-gripping or leghold trap to take rabbits.
Furharvester Licence

Furharvester Licences are only issued to individuals who:

a) are Nova Scotia residents and;
b) have a Wildlife Resources Card with FQ or FT certification

Individuals with FQ certification on their Wildlife Resources Card must purchase at least one Furharvester Licence every four years. Otherwise, they will be required to take the Furharvester Education Course before another licence is issued.

A Furharvester Licence is required before trapping, snaring, hunting, shooting, or possessing any wild furbearer including the following: beaver, otter, muskrat, mink, raccoon, bobcat, fox, fisher or weasel.

A valid Furharvester Licence is also required before you can legally possess traps and snares (except rabbit snares, cage traps for nuisance wildlife or traps to catch mice or house rats) in wildlife habitat.

The Furharvester Licence may be obtained from any local office of the Department of Lands and Forestry.

If you are under the age of 19, you may register as an apprentice with a person 19 years of age or older. Between 16 and 19 years of age you can, if you wish, purchase your own Furharvester Licence.

If under the age of 16, you cannot purchase a Furharvester Licence, but you can take furbearers as an apprentice of a person 19 years of age or over who holds a valid Furharvester Licence. You must possess a valid Wildlife Habitat Stamp and the Wildlife Resources Card number of the supervising Furharvester Licence holder must be entered in the space provided in the Furharvester Stamp block of the base licence. While trapping, any apprentice must at all times be under the immediate supervision of the person holding the Furharvester Licence.

Trappers may trap together in a partnership provided they notify the Department of Lands and Forestry in writing that they are trapping in partnership with one or more licenced furharvesters identified in the notice. Both partners must have valid Furharvester Licences.

A person may set and tend traps marked with a partner's Trap Identification Number (TIN).
Furharvester Licence Stipulations

1. Your Furharvester Report Form and your pink receipt slips received from the fur buyer must be returned at the end of the furharvesting season, not later than April 15, showing the total number of furbearers of each species taken under authority of the licence. We encourage you to submit your Furharvester Report online at novascotia.ca/natr/harvests. You are not required to submit your pink furbuyer slips or Harvest Report if you file your report online. You should include all furbearers harvested by county (including animals turned in to DLF). The total number of furbearers retained in your possession after April 15 should be recorded in the ‘Kept’ column of the Report. No other permit is required to retain furs (see also 44, Possession and Export of Pelts Mandatory Reports). The total number of furbearers turned in to the Department of Lands and Forestry (e.g. animals accidentally captured in excess of your bag limit or for which there is no open season) should be recorded in the column labelled ‘Turned in’. We continue to ask for your help in advising us on the population levels of harvested species. We are asking trappers to provide information on the number of traps set and the number of nights trapped to gain a measure of trapping effort for each species.

2. “Apprentice” refers to persons under 19 years of age, covered under a Furharvester Licence that has been purchased by a person 19 years of age or older. All fur taken by apprentice trappers must be included on the licencee’s harvest report and is part of the bag limit of the licencee.

3. Many licenced fur harvesters trap together and often sell or ship their fur as a single unit. To avoid duplication, please be sure you report such combinations to a local office of the Department of Lands and Forestry when selling, shipping, or declaring your fur.

4. The Minister may cancel or refuse to issue at any time any Furharvester Licence or furharvester certification issued by or under the authority of the Minister upon such terms and conditions as the Minister considers just.
Traps and Snares

No trap shall be placed in a wildlife habitat except during the period from October 15 through March 31 in the year following, both dates inclusive.

No killing snares shall be set for any furbearer except during the period **November 25 through the last day in February** in the year following, both dates inclusive, unless the snare is set underwater or is a squirrel snare made of 20 gauge or smaller copper, brass or stainless steel wire.

Traps or snares are not to be placed on privately owned forest land, where the owner or occupier has posted a written notice prohibiting trapping or snaring. This does not apply to snares set for snowshoe hare.

Only the following types of traps or snares may be set within 15 m of the traveled surface of a publicly managed trail (trail means a hiking or walking trail that is (i) managed by a registered public body authorized to manage the trail, and (ii) marked with signs that indicate that trapping is not permitted on or within 15m of the travelled surface of the trail) or highway:

a) a body-gripping trap with a jaw spread of 12 cm or less that is completely submerged in water;

b) a box trap;

c) a snare set completely underwater;

d) a snare made of copper, brass or stainless steel set for snowshoe hare or red squirrel;

e) a submarine trap;

f) a rat trap.

Despite the restrictions on traps and snares which may be set within 15 m of highways and designated trails, a person may set a trap on or within 15m of the traveled surface of a trail or highway if that person has a Conservation Officer’s written permission to set that particular type of trap in that location for the purpose of trapping nuisance wildlife. (see 9)
1. No person shall set a trap or snare for a fur-bearing animal unless it is clearly and permanently marked with that person’s Wildlife Resources Card number, except traps or snares set for red squirrels or fur-bearing animals that are trapped as nuisance wildlife in accordance with the General Wildlife Regulations made under the Wildlife Act.

**Note:** Persons who held a Furharvester Licence in 2005 or earlier may, after notifying their local Department of Lands and Forestry office of their intention to do so, use their old Furharvester Code Number as an alternate number for marking traps and snares.

Acceptable means of marking traps and snares include permanently stamping the identification number into some part of the trap or snare or securely attaching a permanently marked tag to the trap or snare. Please consult your local Department of Lands and Forestry office for further advice on appropriate marking of traps and snares.

2. No body-gripping trap having a jaw spread greater than 4.7 inches (12 cm) (e.g. conibear 160, 220, 330) can be set for any furbearer except
   a) in or over water or
   b) five feet (1.5 m) above the ground or
   c) in a dog proof enclosure. (see Definitions, 117).

3. No person while in a wildlife habitat shall possess or use a trapping device or set a trap unless it is one of the following:
   a) a box trap,
   b) a body-gripping trap which kills quickly,
   c) a submarine trap,
   d) a non powered neck or body killing snare,
   e) a cable restraint,
   f) a steel-jawed trap with jaw spread of less than 7.5 inches (19 cm) or
   g) an egg trap or other type of foot-encapsulating trap.

4. A person who sets cable restraints or traps designed to catch animals alive must examine each trap or snare set at least **once every day**.

5. No person shall use any trap equipped with a spearing device, teeth, serrations, or hooks.
6. No person shall set spring poles or running poles unless they are equipped with a killing trap or killing snare.

7. No person shall set a suspended killing snare for the purpose of taking a furbearing animal, except squirrels, unless the snare has a locking mechanism which prevents the snare from expanding or the snare is set entirely underwater.

8. No person shall set a leg or foot hold trap to take a fur-bearing animal unless:
   a) the trap is set for beaver, otter, mink or muskrat and is attached to a device that is designed to submerge the animal and prevent it from resurfacing;
   b) the trap is set for muskrat or mink and is sufficiently heavy to submerge the mink or muskrat and prevent the animal from resurfacing;
   c) the trap is set for weasel, red squirrel or mink and is set in such a manner as to kill the animal immediately upon springing the trap;
   d) the trap is set for a raccoon and has jaws which are padded with rubber compound specifically designed to reduce injury to the animal or is a foot encapsulating trap;
   e) the trap is set for fox; or
   f) the trap is set for bobcat or coyote and has been modified to improve humaneness by such means as laminating the jaws, off-setting the jaws, padding the jaws, using a trap that incorporates a cable restraint, or other similarly effective means of improving humaneness.

9. No person shall set a snare for coyote, fox, or bobcat within 50 metres of a bait unless the bait is camouflaged or concealed in a manner sufficient to render the bait undetectable from the air.

10. No person shall set or maintain a trap or snare for squirrels or weasels during the month of March in any year, except a snare of 20 gauge or smaller wire, a rat trap or a box trap.

11. No person shall set or maintain a trap for mink during the month of March in any year, unless the trap is at least fifty percent submerged in water or is a box trap.
Use of Lights

Licenced fur harvesters may use lights of up to 12 volts while they are checking traps, or dispatching trapped animals at night. Licenced fur harvesters hunting raccoons, or training raccoon dogs, when in possession of a valid Raccoon Dog Night Training/Hunting Permit, may use lights of any voltage. Lights greater than 4.5 volts used at night for the above purposes must not be connected to the electrical system of a vehicle.

Accidental Catches

Any furbearer accidentally trapped in excess of the bag limit, out of season, or for which there is no season, and which could not be released, must be reported immediately to a local office of the Department of Lands and Forestry or by calling 1 800-565-2224. An Accidental Harvest form (available in this booklet) must also be completed before the animal is removed from the trap site.
Summary of Furharvesting Regulations

1. No person may damage, disturb, or destroy the den or usual place of habitation of a furbearer or a beaver dam.

2. No person shall take any furbearing animal by means of poison or deposit or set out poison in any place frequented by furbearing animals.

3. No person shall kill or take any muskrat, beaver, mink, or otter by means of any weapon unless the animal is restrained by a trap.

4. Only licenced furbuyers can legally deal in or buy furbearer pelts for the purpose of resale. All such furbuyers must provide an official receipt at the time any fur is purchased. In the cases of otter and fisher, the dried pelt must be stamped by the department before it can be legally sold to a furbuyer (See section Furbearer Specimens To Be Turned In, 45).

5. All furharvesters and those accompanying them shall wear a cap or hat and shirt, vest or coat of hunter orange or camouflage orange that is plainly visible from all sides, unless they are not on forested land and provided that they only possess a .22 calibre rim fire rifle or smaller.

6. Furharvesters do not require hunter orange after the close of the general open season for hunting deer.

7. Except as otherwise provided in the Fur Industry Act, no person shall keep live furbearing animals whether bred in captivity or not, for the purpose of sale, barter, exchange, preservation, consumption, or propagation, without first obtaining a permit from the Minister.

8. Except for box traps, submarine traps, snares completely under ice or rat traps equipped with a hood or other device to prevent animals larger than weasels from activating the trigger, no person shall set or place a trap or snare within 274 m of a dwelling, school, playground, athletic field, or place of business unless that person is the owner or occupier of the dwelling or has the permission of the owner or occupier or is authorized in writing by a conservation officer for the purpose of trapping nuisance wildlife.
9. Certain live trapping devices, in addition to box traps, (cable restraints and padded leghold traps) are now allowed within 274 m of a dwelling with permission from the owner of the land where the trap is set (these traps still need to be at least 182 metres from any other dwelling, playground, golf course, school or public building).

10. See 30 for bear harvesting regulations.

**Approved Traps**

AIHTS certified traps are updated periodically. For a list of traps that are compliant with commitments made by Canada under the Agreement on International Humane Trapping Standards (AIHTS), please visit [http://fur.ca/certified-traps/](http://fur.ca/certified-traps/)

You can also visit your local DLF office for a printed copy of the list from the website.

---

Possession and Export of Pelts

Holders of a valid Furharvester Licence can legally possess pelts of beaver, otter, mink, muskrat, weasel, fisher, and bobcat from November 1 to April 15, and fox and raccoon from October 15 to April 15.

Furharvesters who fail to declare their furs by the end of the possession period (April 15th) are in violation of the Wildlife Act and regulations made pursuant to that Act, and are subject to prosecution. **Furharvesters who wish to retain their legally-taken raw pelts, carcasses, or parts thereof beyond these dates must register these in the appropriate ‘Kept’ column of the Furharvester Report, which must be submitted online or to a local DLF office by April 15.**

An export permit is required from the Department of Lands and Forestry if you wish to ship your furs directly out of the province. It is not required if the furs are sold or consigned to a licenced furbuyer in the province.

A valid Furbuyers Licence authorizes the possession of legally taken raw furs year round provided they can be accounted for through the furbuyer book receipts.

Coyote, skunk, and squirrel pelts may be possessed year round but an export permit is required to transport outside of province.
Export

The following may serve as your export permit for the game legally taken under that licence:

a) Your Resident or Non-Resident Deer Hunting licence/tag (upon proof of registration)
b) Your Resident or Non-Resident Bear Hunting licence
c) Your Resident or Non-Resident Small Game Hunting licence

In order to export bears or bear parts out of Canada, you may also require a CITES Export Permit (see 30).

Furbearer Specimens To Be Turned In

The whole skinned carcasses of bobcat and fisher must be turned in to your local DLF office and the corresponding pelts must be exhibited and stamped.

Information that must be declared includes the Wildlife Resources Card number, date of capture, location of capture, and method of kill.

A person other than the furharvester may bring in the carcass and pelt provided they can supply all of the above information.

An bobcat and fisher can be sold in the round provided the furbearer is first exhibited at the local DLF office, all of the required information is collected, and a Round Permit is obtained.

Taxidermists

Any person employing the services of a Taxidermist for the purpose of preserving or mounting any wildlife must provide:

• the date animal was taken,
• the name, address and WRC# of the harvester or owner,
• licence number or authority under which it is possessed.

To preserve or mount any protected mammal or bird that was not taken under authority of a licence, you must first contact the Department of Lands and Forestry for authorization.
Dear Fellow Harvesters:

We are proud to be able to include in this handbook an introduction to the Mi'kmaq concept and tradition of Netukulimk.

The Mi'kmaq have been harvesting animal, fowl, fish and plant life in and around Mi'kma'ki, our traditional territory - part of which is present day Nova Scotia - for well over 10,000 years. The Constitution Act, 1982 has recognized Aboriginal and Treaty Rights and as a result, the courts have upheld the right to harvest natural resources in Nova Scotia.

Harvesting has always been an important part of our culture and Netukulimk remains the heart of everything we do. We have been taught how a single animal can provide an abundance of support—including shelter, clothing, tools, medicines and food. As Mi'kmaq we have an inherent right to access and use the resources but, we also know that we have a responsibility to use them in a sustainable way.

Netukulimk is a culturally rooted concept of responsible co-existence and interdependence with the Earth’s resources and each other. It is best described as the use of the natural bounty provided by the Creator for the self-support and well-being of the individual, and the community at large. Netukulimk is about achieving adequate standards of community nutrition and economic well-being without jeopardizing the integrity, diversity, or productivity of our environment.
Our culture is built on long-term vision – being mindful that decisions made today will impact the next seven generations. Conservation and management of resources has been, and continues to be, an important part of Mi’kmaq culture.

We have agreed to co-exist and share these lands and resources, and we hope that you will help to ensure that all our children will have the same rights and privileges to access animal, fowl, fish and plant life in the future.

The Mi’kmaq, partnered with the Federal and Provincial governments, continue to lead the path to a holistic management approach in Nova Scotia. We need to see that care is taken to assure that Nova Scotia’s harvesting areas are not exhausted.

Together, we can guarantee that our children, your children and next seven generations, will never be without.

*The Assembly of Nova Scotia Mi’kmaq Chiefs*
The Nova Scotia Federation of Anglers and Hunters (NSFAH) is a volunteer, non-profit, non-government organization of hunters, trappers, anglers, and outdoor people dedicated to conservation and the wise use of our natural resources. NSFAH has been the voice, for over 89 years, for trappers, anglers and hunters. Your support is needed to ensure that quality trapping, hunting and fishing continues.

Announcing the 2021 Licence of a Lifetime Lottery from NSFAH!

Two (2) lifetime licences awarded annually. Winners are entitled to a free:

a) Fishing licence\(^1\) (excludes salmon) \textbf{and};

b) Small Game licence\(^2\) (excludes Migratory Bird Licence) \textbf{and};

c) any \textbf{ONE} of the following stamps\(^2\):
   - Deer Hunting
   - Bear Hunting
   - Bear Snaring
   - Furharvester licence

Again this year, you can buy a ticket as a gift for a friend or relative by entering their name in the “Gift For” section at the time of purchase.

Rules:

- Open to Nova Scotia residents only
- Lifetime licence(s) are \textbf{NOT} transferrable and may be cancelled, suspended or forfeited in accordance with the law
- Incomplete, illegible, or improperly completed entries will not be accepted and entrants will not be notified
- All entry fees are non-refundable
- Entries must be postmarked no later than December 4\(^{th}\) 2021
- Draw date is December 11\(^{th}\), 2021
- Lifetime licence(s) subject to all laws respecting fishing and hunting.

\(^1\)Sponsored by the Nova Scotia Department of Fisheries and Aquaculture
\(^2\)Sponsored by the Nova Scotia Department of Lands and Forestry
It’s easy to enter: just copy and complete the attached form and mail it along with your entry fee to

**NSFAH, PO Box 654, Halifax NS, B3J 2T3.**

We will fill out your tickets and send you the stubs.

**Enter as often as you like, and good luck!**

Please send me ____________ number of Tickets.

HUNTER AND FUR HARVESTER REPORTS ARE MANDATORY

REPORTING ONLINE SAVES TIME

Reports provide essential information in managing Nova Scotia's wildlife.

Reports are due after the season closes.

Reporting is required from all licence holders despite not hunting or successful harvest.

Failing to report carries penalties starting from $180.00 and losing the opportunity to hold a licence in subsequent years.

novascotia.ca/natr/harvests
WANTED: Antler Measurements and Deer Jawbones

Information on buck antler size and circumference can be used as an indication of herd condition. Age data is just as important. Without the jawbone to determine deer age, the antler information is of little value. To collect this information, we need assistance from YOU, the hunter. The three most important pieces of information to collect from your deer are:

1. the circumference of the antler beam
2. the number of antler points
3. the lower jawbone

Follow the steps below to record this information:

1. Measure the **circumference** (distance around each antler beam) about **2.54 cm (1 inch)** above the hair line. Record the circumference in centimetres in the space provided below. 
   a) use a soft tape to directly measure around the antler base OR 
   b) wrap a string/shoelace around the antler about 2.54 cm (1 inch) above the hair line and then measure the length of string.

2. Count the **number of points** on each antler. Antler points less than 2.54 cm (1 inch) DO NOT count as a point. Record this measurement in the space provided below.

3. Remove the **lower jawbone** of your buck or doe. Remove all meat and air dry for two days. Please do not package in plastic.

4. **Submit both the antler information and jawbone** at your local DLF office to receive a crest! Remember: without the jawbone to determine deer age, the antler information is of no value.

**Circumference**
- right antler: ________ cm
- left antler: ________ cm

**Number of points**
- right antler: ________
- left antler: ________
Deer Jawbone Submissions
A random sample of hunters will be contacted by DLF again this year and advised that they must submit jawbones from any deer which they harvest this year. If you are contacted, it is mandatory to provide jawbones to DLF when requested to do so. All hunters who submit a jawbone will receive this year’s deer crest. As in the past, other hunters who wish to voluntarily provide deer jawbones in exchange for the deer crest are still encouraged to do so.

Thank you for helping to manage your deer herd.
HUNTERS CARE!

Mandatory Deer Reporting
You are required, by law, to submit a report for every type of Deer Hunting Licence you hold (General, Archery/Muzzleloader, Human Wildlife Conflict, Bonus Deer, etc). This is required even if you didn’t harvest a deer and even if you did not hunt.

Reporting “No Harvest” or “Did Not Hunt”

- Submit your Deer Hunting Report online at novascotia.ca/natr/harvests or;
- Complete the Deer Hunting Report Form attached to this booklet and submit to your local DLF office or mail to return address on report card.

When you Harvest a Deer
To ensure compliance with the Wildlife Act and Regulations, follow these steps for each deer harvested.

1. Immediately, upon killing a deer, remove the appropriate Deer Hunting Tag from appropriate Licence Card. The detached Deer Hunting Tag must remain with the deer and;

2. Record the month and date of kill by cutting out the appropriate triangles along outside edge of Licence Card. Separate Day/Month cut-outs are provided for both Deer Hunting (General) and Deer Hunting (Archery and Muzzleloader) licences.

3. Keep the antlered head attached to at least one front quarter of the deer until you have reported your harvest and processed the deer for storage or consumption.
4. The detached TAG must remain with the animal but not necessarily on it. If you remain with the deer carcass, keep the TAG on your person until you have taken it home or to a meat cutter for processing. If you are not with the carcass, the TAG must be attached to the carcass until prepared for consumption.

5. Submit your Deer Hunting Report within 24 hours of killing the deer or within 24 hours after leaving a camp used to hunt the deer. There are two ways to report your harvest. See below.

Reporting a Successful Harvest

Deer Reporting Option #1 Online:

a) Submit your Deer Hunting Report online at: novascotia.ca/natr/harvests and follow the online instructions. If you harvested a deer, you will receive a confirmation number.

b) Record your deer confirmation number in two locations:
   i) in the space provided on the appropriate Deer Hunting Tag and;
   ii) in the appropriate “Online Deer Registration” space on the Licence Card.

OR

Deer Reporting Option #2:

Transport your deer to a deer registration station (see 108). You will be charged a $1.00 plus HST administration fee.

Note: You must be with the deer you harvested when it is being transported and in order to complete your report.

a) Present your Wildlife Resources Card, Licence Card, and detached Deer Hunting Tag to the registration station agent.

b) Confirm that the information the agent entered in the “Weekly Deer Harvest Form” is correct. Sign in the space provided.

c) Ensure the agent records the correct date of registration and registration station name and number on your Licence Card.

NOTE:
- Your detached Deer Hunting Tag becomes a legal transport permit for the deer carcass and must remain with the carcass until it is prepared for consumption.
• Your Deer Hunting Licence becomes your permit to keep the meat of your deer until April 30 only if the deer registration information has been entered in the appropriate spaces of your Licence Card.

• Your Deer Hunting Licence and Deer Hunting Tag, together constitute a legal export permit for your deer.

• A person must not process a deer carcass for consumption unless the confirmation # is recorded on the deer hunting tag. This confirms, in accordance with the Deer Hunting Regulations, that you submitted your deer hunting report for that licence.

Disposal of Deer Hides and Preventing the Spread of Blacklegged Ticks

Blacklegged ticks, *Ixodes scapularis*, are the main transmitters of Lyme disease to people. Blacklegged ticks are now endemic in Nova Scotia, with population hotspots in Yarmouth, Pictou, Lunenburg, Halifax and Shelburne counties. Further work is being done to determine any other areas where Blacklegged ticks may be established. Blacklegged ticks can be carried on migratory birds, therefore, they have been found in many areas of Nova Scotia. For more information on blacklegged ticks and Lyme Disease see [novascotia.ca/dhw/CDPC/lyme.asp](http://novascotia.ca/dhw/CDPC/lyme.asp).

Adults of the blacklegged tick are active during the fall months (late September until snow is permanently on the ground) which overlaps with much of the deer hunting season in Nova Scotia. Adult blacklegged ticks are frequently found feeding on white-tailed deer. Typically blacklegged ticks mate on the host. After being fertilized, female ticks will engorge on blood for 5–7 days at which point they drop from the host to eventually lay eggs. Males remain on the host and await the arrival of other females to fertilize. In areas of Nova Scotia where populations of blacklegged ticks are established, white-tailed deer can be infested with 10s to 100s of adult blacklegged ticks.

When an infested deer is harvested, many of the male ticks and a portion of the female ticks (the ones that have only recently attached or ones nearly full of blood) will abandon or drop off the carcass. Tick drop off can occur over several days so hunters may inadvertently spread blacklegged ticks to new areas of the province by transporting and improperly disposing of the deer heads and hides.
To minimize this potential mechanism of tick dispersal, hunters are advised to take the following precautions:

1. If practical, skin harvested animals in the same general area where the animal was killed (for example, harvested near Lunenburg, skin it and dispose of the hide before leaving Lunenburg area). All of the hide portions of the animal should be placed in a strong plastic bag which should be delivered to the local landfill. Alternatively, these parts can be buried to ensure that any live ticks are killed.

2. If the carcass must be transported intact, wrap it securely in a tarp or rolled in plastic which can be examined for ticks or disposed of with the hide once the animal is skinned. Skin the animal as soon as possible upon arrival at your destination and dispose of hide as described in 1) above.

3. If there is a preference to hang the intact carcass for several days prior to skinning it, hang the animal over a tarp or plastic sheet which can be periodically (daily) examined for detached ticks. Any detached ticks can be killed by burning them or placing them in a container of alcohol (isopropyl alcohol). Once the deer is skinned, dispose of hide as described in 1) above.

4. If the hide is to be tanned, make sure you inform the tanner that the animal was collected from an area where blacklegged ticks are present so they can take appropriate steps to further minimize the spread of blacklegged ticks.

Blacklegged ticks will often cluster on the head and neck area of a deer. If you don’t see any, however, it doesn’t mean they aren’t present. These ticks are very small and difficult to find.

Following the steps above will ensure that you don’t accidentally introduce blacklegged ticks into new areas of Nova Scotia. The area you are protecting from these ticks is likely your own community!

If you have any questions, please contact your local DLF office. For information about Lyme disease please see novascotia.ca/dhw/CDPC/lyme.asp

AS A HUNTER… BE RESPONSIBLE.
Deer Management Zones

Deer Hunting in Nova Scotia

1. Deer management zones 101, 102, 105, 107 and 109 are open for harvest of either sex (antlered or antlerless) in 2021. Persons hunting in zones 101, 102, 105, 107 and/or 109 are not required to have an Antlerless Deer Hunting Stamp. They must, however, have a Wildlife Habitat Stamp and a valid Deer Hunting Stamp.

2. Deer Management Zones 111 and 112 are open to a modest number of antlerless deer hunting stamps in 2021. This will help mitigate the spread of a parasitic brainworm and support moose conservation.

3. A Bonus Deer Hunting Stamp, when available, authorizes the holder to take an additional deer from within the zone specified on the stamp. The Bonus Deer Hunting Stamp is independent of the General Deer Hunting Stamp and the Archery and Muzzleloader Deer Hunting Stamp. The order in which these stamps are used does not matter.

Bonus Deer Hunting Stamps are not available this year.
Antlerless Deer Hunting

The number of “Antlerless Deer Hunting Stamps” available each fall is determined by considering up-to-date information on herd condition, age/sex structure and deer abundance. Antlerless Deer Hunting Stamps are allocated annually through an application/lottery system that generally occurs in August.

The following stamp numbers have been issued for 2021.

2021 Antlerless Deer Draw

Applications will be accepted from August 1st, 2021 to August 31st, 2021 at midnight. To be eligible for the draw applicants must

- have a Wildlife Resources Card with HT, HQ, B, CT or CQ certification
- be 16 years of age or older
- qualify as a resident of Nova Scotia
- not have any current hunting suspensions

Apply online at wrs.novascotia.ca/DeerDraw/ or by calling toll free 1-833-302-0750 on your landline only. There is a non-refundable application fee of $8.04 + HST. Only one application per person will be accepted. Have your Wildlife Resources Card number and choice of zone ready before applying. Mail-in applications are also accepted. They can be found online at novascotia.ca/natr/draws/deerdraw/DeerDrawApplicationForm.pdf or at your local Department of Lands and Forestry office. Send your Wildlife Resources Card number, choice of deer management zone and cheque (or money order) for $11.70 + HST to:

Wildlife Resources Card Application
Citizen Services Division Business Registration Unit
Box 1529, 6N-1505 Barrington Street
Halifax, NS  B3J 2Y4

Note: The cost of mail-in application reflects increased staff time required to process these applications.
A computerized random draw will occur on September 1st, 2021. Winners will receive formal notification and their Antlerless stamp in the mail. Applicants can also check their individual results:

a) Online at novascotia.ca/natr/hunt/ beginning September 4th, 2021 by noon or;

b) By calling the toll free results line; 1-833-302-0750 or 902-493-1412 (HRM local area calls) from September 8th through 15th, 2021.

Holders of an Antlerless Deer Hunting Stamp must:

1. Purchase a Wildlife Habitat Stamp and;

2. Purchase a Resident Deer Hunting Stamp (either General or Archery and Muzzleloader) and;

3. Affix both the Antlerless Deer Hunting and Resident Deer Hunting Stamps in the designated areas of your Licence Card. Holders of an Antlerless Deer Hunting Stamp, attached to a Deer Hunting Licence, may hunt antlerless deer within the Deer Management Zone specified directly on the Antlerless Deer Hunting Stamp. An Antlerless Deer Hunting Stamp does not increase your bag limit. It allows you the opportunity to harvest either an antlerless deer or antlered deer under the Deer Hunting licence you hold.

When you harvest an antlerless deer you must immediately follow these steps:

1. Cut out the Deer Hunting Tag for the Deer Hunting Licence under which you are hunting on Licence Card 2 and affix it to the deer and;

2. Cut out the date and month the deer was harvested and;

3. Cut out the triangle notch at the bottom of the Antlerless Deer Hunting Stamp on Licence Card 1.

4. Your Antlerless Deer Hunting Stamp and Deer Hunting Stamp under which you harvested the deer will now no longer be valid.

5. Submit your deer hunting report online at novascotia.ca/natr/harvests or at a deer registration station.

DEER MANAGEMENT ZONE DESCRIPTIONS

See novascotia.ca/natr/hunt/ for Zone descriptions online.

Deer Management Zone 101 includes certain lands within Nova Scotia, and being more particularly described as follows:
Beginning at a point in the centre of the Mersey River in Queens County where it intersects with the centre line of Highway No. 103; thence northerly along the centre line of the Mersey River through Lake Rossignol and continuing along the centre line of the Mersey River to the southern boundary of Kejimkujik National Park; thence easterly and northerly following the boundaries of Kejimkujik National Park to the western boundary of Highway Trunk No. 8 in Annapolis County; thence continuing to the centre line of Highway Trunk No. 8 in Annapolis County; thence northerly along the centre line of Trunk No. 8 to its intersection with the centre line of Highway No. 101 in Annapolis County; thence southerly along the centre line of Highway No. 101 to the centre of the Bear River; thence downstream along the centre of Bear River to the Annapolis Basin said point also being the Digby–Annapolis county line; thence northerly along the Digby County line, through the Digby Gut to the Bay of Fundy; thence westerly, southerly and easterly along the coastline of Nova Scotia to the mouth of Liverpool Bay; thence northerly along the centre of said Liverpool Bay to the Mersey River; thence northerly up the centre of said Mersey River to its intersection with the centre line of Highway No. 103 being the place of beginning. Together with all inland and offshore islands.

**Deer Management Zone 102** includes certain lands within Lunenburg and Queens Counties, Nova Scotia and are more particularly described as follows:

Beginning at a point on the centre line of the East River, Lunenburg County, where it intersects with the northern most edge of the multi-line power transmission corridor running from Halifax County to Queens County and being approximately 1 km south of Whistler Lake; thence southwesterly along the northern most edge of the said power transmission corridor to an angle point where the power transmission corridor separates into 2 lines; thence, following the north branch of the said transmission corridor southwesterly, passing the Gold River Indian Reserve to the north, continuing on past Lower New Cornwall to an angle point about 1 km west of the LaHave River near Cookville; thence southerly along the western edge of the said corridor, to a juncture point with the transmission line running westerly from Maitland; thence southwesterly along the northern edge of the said transmission corridor, passing to the north of Wiles Lake and Lapland, and extending to the western bank of the Medway River; thence southeasterly downstream following the western bank of the Medway River and the western shoreline of Medway Harbour to a point on the ordinary high water mark east of the navigation light at Medway Head; thence northeasterly in a straight line to a point on the ordinary high water mark of the most southerly part of Toby Island;
thence northeasterly in a straight line to a point on the ordinary high water mark of the most southerly part of Cape LaHave Islands at Cape LaHave Point; thence northeasterly in a straight line to a point on the ordinary high water mark of the most eastern point of West Ironbound Island; thence northeasterly in a straight line to a point on the ordinary high water mark of the most eastern point of Cross Island; thence northeasterly in a straight line to a point on the ordinary high water mark of the most eastern point of Big Duck Island; thence northeasterly in a straight line to a point on the ordinary high water mark of the most eastern point of East Ironbound Island; thence northwesterly in a straight line to a point on the ordinary high water mark of the most northeasterly point of Little Tancook Island; thence northwesterly in a straight line to the midpoint of the mouth of East River Bay northwest from East River Point; thence northeasterly in a straight line to a point at the centre line of the mouth of East River; thence northerly following the centre line of East River to the place of beginning. Together with all inland and offshore islands.

Deer Management Zone 103 includes certain lands within Nova Scotia, and being more particularly described as follows:

Beginning at a point in the centre of the Mersey River in Queens County where it intersects with the centre line of Highway No. 103; thence northerly along the centre line of the Mersey River through Lake Rossignol and continuing along the centre line of the Mersey River to the southern boundary of Kejimkujik National Park; thence easterly and northerly following the boundaries of Kejimkujik National Park to the western boundary of Highway Trunk No. 8 in Annapolis County; thence continuing to the centre line of Highway Trunk No. 8 in Annapolis County; thence southeasterly following the various courses of Highway Trunk No. 8 and crossing the Queens County line to the intersection with the centre line of the Old Westfield Road, Authority No. 499; thence northeasterly following the various courses of the centre line of the Old Westfield Road, Authority No. 499, to its intersection with the centre line of Highway No. 208 at North Brookfield; thence following the various courses of the centre line of Highway No. 208, and crossing the county line into Lunenburg County to its intersection with the centre line of Trunk No. 10 in New Germany; thence following the centre line of Trunk No. 10, and crossing the county line into Annapolis County, continuing through Springfield to the intersection with the centre line of the Falkland Ridge Road, Authority No. 566; thence following the centre line of the Falkland Ridge Road No. 566 to its intersection with the centre line of the East Dalhousie Road, Authority No. 567; thence following the centre line of the East Dalhousie Road to its intersection with the Kings–Annapolis
county line; thence crossing the Kings–Annapolis county line into Kings County and following the centre line of the East Dalhousie Road, Authority No. 735, to the intersection with the Kings–Lunenburg county line; thence crossing the Kings–Lunenburg county line into Lunenburg County where the East Dalhousie Road name changes to the Forties Road; thence following the centre line of the Forties Road, Authority No. 694, to the intersection of the centre line of the Forties Road and the Windsor Road, Authority No. 686; thence following the various courses of the centre line of the Windsor Road No. 686 to the Lunenburg–Hants county line where the name of the Forties Road changes to the New Ross Road; thence following along the centre line of the New Ross Road, Authority No. 709, to the intersection with the centre line of Trunk 14; thence following the centre line of Trunk 14 to its intersection with the centre line of King Street in the Town of Windsor; thence following the centre line of King Street in a general northwesterly direction to its intersection with the centre line of Upper Water Street; thence following the centre line of Upper Water Street to the intersection with the centre line of Highway No. 101; thence following the centre line of Highway No. 101 to its intersection with the centre line of Highway No. 102 in Halifax County; thence northeasterly following the centre line of Highway No. 102 to a point perpendicular to the north end of the ordinary high water mark of Miller Lake; thence easterly and perpendicular to the centre line of Highway No. 102 to the ordinary high water mark of Miller Lake; thence following the ordinary high water mark of Miller Lake to a small brook joining Miller Lake and Soldier Lake; thence following the various courses of said brook to the western ordinary high water mark of Soldier Lake; thence following the various courses of the said ordinary high water mark of Soldier Lake in a general southerly direction to a brook known as Soldier Lake Gullies; thence following Soldier Lake Gullies in a southeasterly direction to the ordinary high water mark of Lake Major; thence following the western ordinary high water mark of Lake Major in a southeasterly direction to Little Salmon River; thence following the various courses of Little Salmon River to its intersection with the centre line of Highway No. 207; thence following the various courses of Highway No. 207 to its intersection with Lawrencetown Lake or the Atlantic Ocean; thence westerly along the Atlantic Coast to the mouth of the East River in Lunenburg County; thence in a northerly direction along the centre of the East River also being the east boundary of Deer Management Zone 102 to the intersection of the centre of the East River and the northern most edge of the multi-line power transmission corridor running from Halifax County to Queens County and being approximately 1 km south of Whistler Lake (said transmission line being the northern boundary of Deer Management Zone 102); thence southwesterly along
the northern most edge of the said power transmission corridor to an angle point where the power transmission corridor separates into 2 lines; thence following the north branch of the said transmission corridor southwesterly, passing the Gold River Indian Reserve to the north, continuing on past Lower New Cornwall to an angle point about 1 km west of the LaHave River near Cookville; thence southerly along the western edge of the said corridor to a juncture point with the transmission line running westerly from Maitland; thence southwesterly along the northern edge of the said transmission corridor, passing to the north of Wiles Lake and Lapland, and extending to the western bank of the Medway River (being the western boundary of Deer Management Zone 102); thence southeasterly downstream following the western bank of the Medway River and the western shoreline of Medway Harbour; thence westerly along the Atlantic coast to the intersection of Liverpool Bay and the centre of the Mersey River; thence northerly upstream along the centre of said Mersey River to its intersection with the centre line of Highway No. 103 being the place of beginning. Together with all inland and offshore islands.

**Deer Management Zone 104** includes certain lands within Nova Scotia, and being more particularly described as follows:

Beginning at a point on the centre line of Trunk No. 8 at Lequille, Annapolis County, said point also being on the centre line of a transmission line at or near the intersection of Trunk No. 8 and the West Dalhousie Road, Authority No. 515; thence in a general northeasterly direction following the various courses of the said transmission line to its intersection with the Annapolis–Kings county line; thence in a general northeasterly direction, crossing into the County of Kings and remaining on the centre line of the transmission line to the intersection of the centre line of the transmission line and the centre line of Highway No. 101; thence following the centre line of said Highway No. 101 in a general southeasterly direction to the intersection with the Kings–Hants county line; thence easterly continuing along the centre line of said Highway No. 101, into the County of Hants and crossing the Avon River to its intersection with the centre line of Upper Water Street in the Town of Windsor; thence southerly following the centre line of Upper Water Street to its intersection with the centre line of King Street; thence southeasterly following the centre line of King Street to its intersection with the centre line of Trunk No. 14 (the Chester Road); thence southwesterly following the centre line of Trunk No. 14 (the Chester Road) to its intersection with the centre line of the New Ross Road, Authority No. 709, near Lower Vaughn; thence following the centre line of the New Ross Road No. 709 in a southwesterly direction to the county line...
between the counties of Hants and Lunenburg; thence crossing the said county line into the County of Lunenburg where the name of the New Ross Road changes to the Windsor Road; thence following the centre line of the Windsor Road, Authority No. 686, across the Gold River to its intersection with the Forties Road, Authority No. 694, at New Ross; thence following the various courses of the centre line of the Forties Road No. 694 to the Lunenburg–Kings county line; thence crossing the county line into Kings County where the name of the Forties Road changes to the East Dalhousie Road; thence following the centre line of the East Dalhousie Road, Authority No. 735, to the Kings–Annapolis county line; thence crossing the county line into Annapolis County and following the centre line of the East Dalhousie Road, Authority No. 567, to its intersection with the centre line of the Falkland Ridge Road, Authority No. 566; thence northwesterly and westerly following the centre line of the Falkland Ridge Road to its intersection with the centre line of Trunk No. 10, 3.3 km northwest of Springfield, Annapolis County; thence following the centre line of Trunk No. 10 in a general southerly direction and crossing the Annapolis–Lunenburg county line, entering into Lunenburg County to the intersection with the centre line of Highway No. 208 at New Germany; thence following the various courses of the centre line of Highway No. 208, Crossing the Lunenburg–Queens county line and entering into Queens County to the intersection of Authority No. 499, the Old Westfield Road, at North Brookfield; thence northwesterly following the various courses of the centre line of the Old Westfield Road No. 499 to the intersection with the centre line of Trunk No. 8; thence in a general northwesterly direction following the various courses of the centre line of Trunk No. 8, crossing the Queens–Annapolis county line, and entering into Annapolis County to Lequille, the place of beginning. Together with all inland and offshore islands.

**Deer Management Zone 105** includes certain lands within Nova Scotia, and being more particularly described as follows:

Beginning at a point on the centre line of Trunk No. 8 at Lequille, Annapolis County, said point also being on the centre line of a transmission line at or near the intersection of Trunk No. 8 and the West Dalhousie Road, Authority No. 515; thence in a general northeasterly direction following the various courses of the said transmission line to its intersection with the Annapolis–Kings county line; thence in a general northeasterly direction, crossing into the County of Kings and remaining on the centre line of the transmission line to the intersection of the centre line of the transmission line and the centre line of Highway No. 101; thence following the centre line of said Highway No. 101 in a general southeasterly direction to the
intersection with the Kings–Hants county line; thence crossing into the County of Hants and following the centre line of said Highway No. 101 to its intersection with the centre line of the Mouth of the Avon River; thence northerly along the western coastline of the Minas Basin to Cape Split; thence westerly along the Bay of Fundy to Digby Gut; thence easterly and westerly by Annapolis Basin to the centre line of Bear River; thence southeasterly by the centre line of Bear River to its intersection with the centre line of Highway No. 101; thence in a general northeasterly direction following the various courses of the centre line of Highway No. 101 to its intersection with the centre line of Trunk No. 8; thence in a general northerly direction following the centre line of Trunk No. 8 to the place of beginning. Together with all inland and offshore islands.

Deer Management Zone 106 includes certain lands in the Counties of Halifax and Guysborough, Nova Scotia, and being more particularly described as follows:

Beginning at the point of intersection of the southeast boundary of Highway No. 102 with the ordinary high water mark of the northern boundary of Miller Lake; thence following the ordinary high water mark of Miller Lake to a small brook joining Miller Lake and Soldier Lake; thence following the various courses of said brook to the western ordinary high water mark of Soldier Lake; thence following the various courses of the said ordinary high water mark of Soldier Lake in a general southerly direction to a brook known as Soldier Lake Gullies; thence following Soldier Lake Gullies in a southeasterly direction to the ordinary high water mark of Lake Major; thence following the western ordinary high water mark of Lake Major in a southeasterly direction to Little Salmon River; thence following the various courses of Little Salmon River to its intersection with the centre line of Highway No. 207; thence following the various courses of Highway No. 207 to its intersection with Lawrencetown Lake or the Atlantic Ocean; thence following the various courses of the Atlantic Coast in a general easterly direction to the mouth of Chedabucto Bay; thence westerly along the southern coastline of said Chedabucto Bay to the mouth of the Salmon River in Guysborough County; thence upstream along the centre of the said Salmon River to the bridge on Highway No. 400, South River Lake Road at Ogden; thence northwesterly along the centre line of said South River Lake Road No. 400 to its intersection with Highway No. 451, the Guysborough-Country Harbour Road at Salmon River Lake; thence southwesterly along the Highway No. 451, the Guysborough Country Harbour Road to Highway No. 480, the Country Harbour to Melrose Road (locally known as the Nine Miles Wood Road) at Country Harbour Crossroads; thence westerly along the centre line
of the Melrose Country Harbour Road locally known as the Nine Mile Woods Road to its intersection with Trunk No. 7 at Melrose; thence westerly along the centre line of Route No. 348 to its intersection with the Cameron Settlement Road at Caledonia; thence westerly along the centre line of said Cameron Settlement Road to its intersection with Route No. 374 at Trafalgar; thence westerly along the centre line of said Route No. 374 to its intersection with the Dean Settlement Road/St. Mary's Road; thence westerly along the centre line of the said Dean Settlement Road/St. Mary's Road through a portion of Colchester County into Halifax County to the Lemon Hill Road at Chaplin; thence southwesterly along the Lemon Hill Road to its intersection with Route No. 336 at Dean; thence southerly along the centre line of Route No. 336 to its intersection with Route No. 224 at Upper Musquodoboit; thence westerly along the centre line of Route No. 224 to its intersection with Highway No. 427 at Elmsvale; thence southerly along Highway No. 427 to the intersection with Highway No. 425 the Higginsville Road at Newcomb Corner; thence westerly along the centre line of the Higginsville Road to Highway No. 624 the South Road at Brookvale; thence westerly along the South Road to the intersection with the centre line of Highway No. 357; thence westerly along the centre line of Highway No. 357 to the centre line of Highway No. 608, Wyses Road; thence in a general northwesterly direction following the centre line of Wyses Road to the centre line of Highway No. 212, the Old Guysborough Road, at Wyses Corner; thence westerly along the centre line of the Old Guysborough Road to its intersection with the centre line of Pratt and Whitney Drive; thence southerly along the centre line of Pratt and Whitney Drive to its intersection with the centre line of Aerotech Drive; thence following the centre line of Aerotech Drive to its intersection with the centre line of Highway No. 102; thence along the centre line of Highway No. 102 to a point being perpendicular to northern shore of Miller Lake; thence southeasterly and perpendicular to the centre line of Highway No. 102 to the northern shore of Miller Lake, the place of beginning. Including all inland and offshore islands.

**Deer Management Zone 107** includes certain lands within Nova Scotia, and being more particularly described as follows:

Beginning at the point where the centre line of Highway No. 101 meets with the centre line of Highway No. 102; thence northwesterly along the centre line of Highway No. 101 to its intersection with the Avon River; thence northerly downstream along the centre of the said Avon River to the Minas Basin; thence easterly and westerly along the coastline of the Minas Basin and the Cobequid Bay to the Portapique River; thence northerly along the centre of the said Portapique River to the centre line of Highway 2; thence easterly along the centre line
of Highway 2 to its intersection with Route 685 at Portapique; thence northerly along the centre line of Route 685 to its intersection with Route 684 near Montrose; thence northerly along the centre line of Route 684 to Lornevale; thence easterly along the centre line of Route 684 to its intersection with Route 744 at Londonderry; thence easterly along the centre line of Route 744 to its intersection with Highway 4 near Folly Mountain; thence southerly along the centre line of Highway 4 to its intersection with Route 662; thence easterly along the centre line of Route 662 to its intersection with Route 648 at Debert; thence northerly along the centre line of Route 648 to its intersection with Route 642; thence southerly, easterly and southerly along the centre line of Route 642 to its intersection with Route 620 at Staples Brook; thence northerly along the centre line of Route 620 to its intersection with Route 624 at Belmont; thence easterly along the centre line of Route 624 to its intersection with Route 627; thence easterly along the centre line of Route 627 to its intersection with Route 621 (Cove Road); thence southerly and easterly along the centre line of Route 621 (Cove Road) to its intersection with Route 814 at Watervale; thence southerly along the centre line of Route 814 to its intersection with Route 803 at West River Station; thence easterly along the centre line of Route 803 to its intersection with Route 859; thence easterly and southeasterly along the centre line of Route 859 to its intersection with Highway 289; thence southerly along the centre line of Highway 289 to its intersection with Dryden Lake Road; thence easterly along the centre line of Dryden Lake Road to its intersection with Route 620; thence easterly along the centre line of Route 620 to its intersection with Highway 374; thence southerly along the centre line of Highway 374 to its intersection with the Dean Settlement Road/St. Mary’s Road; thence westerly along the centre line of the said Dean Settlement Road/St. Mary’s Road to its intersection with Route No. 336 at Dean; thence southerly along the centre line of Route No. 336 to its intersection with Route No. 224 at Upper Musquodoboit; thence westerly along the centre line of Route No. 224 to its intersection with Route 427 at Elmsvale; thence southerly along the centre line of Route 427 to its intersection with Route 425 at Newcomb Corner; thence westerly along the centre line of Route 425 to its intersection with Route 624 at Brookvale; thence westerly along the centre line of Route 624 to its intersection with Highway 357; thence southwesterly along the centre line of Highway 357 to its intersection with Route 608; thence northwesterly along the centre line of Route 608 to its intersection with Highway 212; thence westerly along the centre line of Highway 212 to its intersection with
Pratt and Whitney Drive; thence southerly along the centre line of Pratt and Whitney Drive to Aerotech Drive; thence southerly and westerly along the centre line of Aerotech Drive to its intersection with Highway No. 102; thence southwesterly along the centre line of Highway No. 102 to its intersection with the centre line of Highway No. 101 being the place of beginning. Together with all inland and offshore islands.

**Deer Management Zone 108** includes certain lands within Nova Scotia, and being more particularly described as follows:

Beginning at a point at the mouth of the Parrsboro River, where it meets the Minas Basin; thence westerly following the coastline of the Minas Basin to Cape Chignecto; thence in a general northeasterly direction following the coastline of the Cumberland Basin to centre line of the mouth of the Missaguash River; thence following the various courses of the centre line of the Missaguash River to its intersection with the centre line of Highway No. 104; thence following the various courses of the centre line of Highway No. 104 in a general southeasterly direction to its intersection with the centre line of Trunk Highway No. 2; thence following the centre line of Trunk Highway No. 2 and the centre line of Junction Road to its intersection with the centre line of Highway No. 142; thence following the centre line of Highway No. 142 in a general northeasterly direction to its intersection with the centre line of Highway No. 104; thence following the various courses of the centre line of Highway No. 104 to its intersection with the centre line of Highway No. 4; thence following the various courses of the centre line of Highway No. 4 in a general easterly and southerly direction to its intersection with the centre line of Highway No. 246; thence following the various courses of Highway No. 246, and crossing the county line into Colchester County to the intersection with the centre line of Highway No. 583; thence following the centre line of Highway 583 in a southerly direction to its intersection with the centre line of Highway No. 256; thence following the various courses of the centre line of Highway No. 256 in a general easterly direction to Highway No. 311 at the Falls; thence southerly along the centre line of Highway No. 311 to Highway No. 256; thence easterly along the centre line of Highway No. 256 to Highway No. 326 at McBains Corner; thence southerly along the centre line of Highway No. 326 to Highway No. 256; thence easterly along Highway No. 256 and crossing over the county line into Pictou County, to Highway No. 736, the Loganville Road at West Branch River John; thence following the various courses of the centre line of Highway No. 736 in a general southerly direction to Highway No. 740, the Dalhousie Road; thence southerly along the centre line of Dalhousie Road to the centre line of Highway No. 739, the Glen Road at Diamond; thence following the various courses of the centre line of
said Highway No. 739 in a general southerly direction to its intersection with the centre line of Trunk Highway No. 4; thence following the centre line of Trunk Highway No. 4 in a general northeasterly direction to its intersection with the centre line of Highway No. 818, the Mount Thom Road; thence following the centre line of the said Mount Thom Road in a southwesterly direction to its intersection with the centre line of Highway No. 821 the Cove Road; thence following the centre line of Highway No. 821 to its intersection with Highway No. 104; thence westerly along the centre line of Highway No. 104 to its intersection with the centre line of Route No. 614; thence northerly along the centre line of Route No. 614 to its intersection with the centre line of Route No. 612; thence westerly along the centre line of Route No. 612 to its intersection with the centre line of Route No. 624; thence westerly along the centre line of Route No. 624 to its intersection with the centre line of Route No. 620 at Belmont; thence northerly, westerly and northerly along the centre line of Route No. 620 to its intersection with the centre line of Route No. 627 at Staples Brook; thence westerly along the centre line of Route No. 627 to its intersection with the centre line of Highway No. 4; thence northerly along the centre line of Highway No. 4 to its intersection with the centre line of Route No. 744 near Folly Mountain; thence westerly along the centre line of Route No. 744 to its intersection with the centre line of Route No. 684 at Lornevale; thence southerly along the centre line of Route No. 684 to Lornevale; thence northerly along the centre line of Route No. 684 to its intersection with the centre line of Route No. 685 at Montrose; thence southerly along the centre line of Route No. 685 to its intersection with the centre line of Highway No. 2 at Portapique; thence westerly along the centre line of Highway No. 2 to its intersection with the centre line of the Portapique River; thence southerly following the centre line of the Portapique River to the coastline of the Cobequid Bay; thence following the coastline of Cobequid Bay, and Minas Basin in a general westerly direction to the mouth of the Parrsboro River, the place of beginning. Together with all inland and offshore islands.

**Deer Management Zone 109** includes certain lands within the Counties of Cumberland, Colchester, and Pictou and in Nova Scotia, and being more particularly described as follows:

Beginning at the point where the centre line of Highway No. 104 and the Missaquash River intersect also being on the border between the Province of Nova Scotia and the Province of New Brunswick and being in the County of Cumberland; thence northeasterly along the said
border to Baie Verte; thence southeasterly along the coastline of the Northumberland Strait to the mouth of the Knoydart Brook at Knoydart Point; thence southerly along the centre of Knoydart Brook to the centre of Highway No. 245; thence westerly along Highway No. 245, 60.96 m to Highway No. 452 MacGee Road; thence southerly along the centre of Highway No. 452, MacGee Road to the Ardness to Baileys Brook Road; thence along the centre of the Ardness to Baileys Brook Road to Highway No. 449 the Arbuckle Road; thence along the centre of the Highway No. 449 to Highway No. 444, the Barneys River Road; thence along the centre of Highway No. 444, the Barneys River Road, to Highway No. 4 at Barneys River Station; thence westerly along the centre of Highway No. 4 to Highway No. 502, the French River Road; thence southerly along the centre of Highway No. 502, the French River Road, to Highway No. 347; thence northerly and westerly along Highway No. 347 to the Highway No. 532, the Blanchard Road, at Blue Mountain; thence southerly along the centre of Highway No. 532, the Blanchard Road, to Highway No. 534, the Cummings Mountain Road; thence southerly along the centre of Highway No. 534, the Cummings Mountain Road, to Highway No. 581, the Sunnybrae to Eden Road; thence westerly along the centre of Highway No. 581, the Sunnybrae to Eden Road, to Highway No. 348; thence southerly along the centre line of Highway No. 348 to the East River West Side Road; thence westerly along the centre line of the East River West Side Road to Highway No. 604, the Elgin Road, at Bridgeville; thence westerly along Highway No. 604, the Elgin Road, to Highway No. 605, the Cameron Road, at the village of Elgin; thence westerly along the centre of Highway no. 605, the Cameron Road, to Highway No. 374; thence northerly along the centre of Highway No. 374 to Highway No. 620, the Glengarry Road; thence westerly along the centre of Highway No. 620, the Glengary Road, to the Dryden Lake Road; thence southwesterly along the centre of the Dryden Lake Road to Highway No. 289 at Sheepherders Junction; thence northerly along the centre of Highway No. 289 to the Landsdowne Road at the village of Landsdowne; thence northwesterly along the Landsdowne Road to the West River East Side Road No. 803; thence southwesterly along the centre line of the West River East Side Road to the West River Station Road, No. 814, at West River Station; thence northerly along the West River Station Road to the Cove Road at Watervale; thence westerly along the centre of the Cove road and passing under Trans Canada Highway No. 104 to the Mount Thom Road; thence northerly along the Mount Thom Road to Highway No. 4; thence westerly along Highway No. 4 to the Glen Road; then northerly along the centre of the Glen Road to the Dalhousie Road, No. 740; thence northerly following the centre line of the Dalhousie Road to the Loganville Road; thence northerly along the Loganville Road to
Highway No. 256; thence westerly along Highway No. 256 to Highway No. 326 at McBains Corner in Colchester County; thence northerly following the centre line of Highway No. 326 to Highway No. 256 at East Earlton; thence westerly along the centre line of Highway No. 256 to Highway No. 311 at The Falls; thence northerly along the centre line of Highway No. 311 to Highway No. 256; thence westerly following the centre line of Highway No. 256 to its intersection with Highway No. 578, the Kennedy Hill Road; thence crossing the Kennedy Hill Road, and continuing along the centre line of Highway No. 256 in a westerly direction to its intersection Highway No. 583, the Warwick Mountain Road; thence northerly along the centre line of the Warwick Mountain Road to Highway No. 246 at West New Annan; thence westerly following the centre line of Highway No. 246 to its intersection with Highway No. 4 in Cumberland County; thence northerly along Highway No. 4 to Highway No. 104 at Thomsons Station; thence northwesterly along the centre line of Highway No. 104 to its intersection with Highway No. 142 at Salt Springs Station; thence following the centre line of Highway No. 142 in a southwesterly direction to its intersection with Junction Road at Springhill; thence northerly along the centre line of Junction Road to Highway No. 2 near Springhill; thence northwesterly following the centre line of Highway No. 2 to its intersection with Highway No. 104 at Upper Napan; thence following the centre line of Highway No. 104 in a northwesterly direction to the place of beginning. Together with all inland and offshore islands.

Deer Management Zone 110 includes certain lands within Nova Scotia, and being more particularly described as follows:

Beginning at the mouth of the Knoydart Brook at the Northumberland Strait on the Atlantic Ocean; thence northeasterly along the coastline of the Northumberland Strait to St Georges Bay; thence southeasterly along the western coastline of said St Georges Bay to the Strait of Canso; thence southerly along the centre of the said Strait of Canso to Chedabucto Bay; thence along the western coastline of the said Chedabucto Bay to the mouth of the Salmon River in Guysborough County; thence upstream along the centre of the said Salmon River to the bridge on Giants Lake Road at Ogden; thence northwesterly along the centre line of Giants Lake Road to its intersection with Highway No. 451, the Guysborough-Country Harbour Road, at Salmon River Lake; thence southwesterly along the Highway No. 451, the Guysborough-Country Harbour Road, to Highway No. 480, the Melrose Country Harbour Road (locally known as the Nine Miles Wood Road) at Country Harbour Crossroads; thence westerly along the centre line of the Melrose Country Harbour Road (locally known as the Nine Mile Woods Road) to its intersection with Trunk No. 7 at Melrose; thence
westerly along the centre line of Route No. 348 to its intersection with
the Cameron Settlement Road at Caledonia; thence westerly along
the centre line of said Cameron Settlement Road to its intersection
with Route No. 374 at Trafalgar; thence northerly along the centre line
of Highway No. 374 to Highway No. 605, the Cameron Road, near
Lorne, Pictou County; thence easterly along the centre of the Cameron
Road to Highway No. 604, the Elgin Road at the village Elgin; thence
easterly along the centre of the Elgin Road to the East River West Side
Road at Bridgeville; thence easterly along the East River West Side
road to Highway No. 348; thence northerly along the centre line of
Highway No. 348 to Highway No. 581 the Sunnybrae to Eden Road;
thence easterly along the Sunnybrae to Eden road to Highway No. 534,
the Cummings Mountain Road; thence northerly along the centre of
Highway No. 534, the Cummings Mountain Road, to the Highway
No. 532, the Blanchard Road; thence northerly along the centre of
Highway No. 532, the Blanchard Road, to Highway No. 347 at Blue
Mountain; thence easterly and northerly along the centre of Highway
No. 347 to Highway No. 502, the French River Road; thence northerly
along the centre of the French River Road to Highway No. 4; thence
easterly along the centre of Highway No. 4 to Highway No. 444, the
Barneys River Road, at Barneys River Station; thence along the centre
of Highway No. 444, the Barneys River Road, to Highway No. 449, the
Arbuckle Road; thence northeasterly along the centre of Highway No.
449, the Arbuckle Road, to the Ardness to Baileys Brook Road; thence
northeasterly along the centre of the Ardness to Baileys Brook Road to
Highway No. 452, the Magee Road; thence northerly along the centre
of Highway No. 452, the MacGee Road, to Highway No. 245; thence
easterly along the centre of Highway No. 245, 60.96 m more or less
to intersection of Highway No. 245 and the Knoydart Brook; thence
northerly along the centre of the Knoydart Brook to the Atlantic Ocean
at Knoydart Point on the Northumberland Strait. This point being the
place of beginning. Together with all inland and offshore islands.

Deer Management Zone 111 includes certain lands within Nova
Scotia, and being more particularly described as follows:

Beginning at a point at the centre of the Skye River at its intersection
with the centre line of Highway No. 105; thence northeasterly along the
centre line of Highway No. 105 to the centre line of Highway No. 252
(Mabou Road); thence northerly along the centre line of Highway No.
252 (Mabou Road) to Highway No. 395; thence northerly along the
centre line of Highway No. 395 along the East side of Lake Ainslie to
the intersection with Highway No. 19 at Southwest Margaree; thence
northerly along the centre line of Highway No. 19 to the intersection
with the Cabot Trail at Margaree Forks; thence northerly along the
centre line of said Cabot Trail to where it crosses the Margaree River at the mouth of said river; thence downstream along the centre of said Margaree River to the Gulf of St. Lawrence; thence westerly and southerly along the coastline of the Gulf of St. Lawrence and St. Georges Bay to the Strait of Canso; thence southeasterly along the centre of the Strait of Canso to Chedabucto Bay; thence easterly along the centre of Chedabucto Bay to the Atlantic Ocean; thence easterly, northerly and westerly along the coastline of the Atlantic Ocean to the mouth of Great Bras d’Or Channel; thence southwesterly along the centre of the Great Bras d’Or Channel to its mouth on the Great Bras d’Or; thence in a direct line to the eastern mouth of St. Patricks Channel; thence westerly along the centre of said St. Patricks Channel to the mouth of Whycocomagh Bay; thence northwesterly to the centre of the Skye River; thence northerly along the centre of the Skye River to its intersection with the centre line of Highway No. 105, being the place of beginning. Together with all inland and offshore islands.

**Deer Management Zone 112** includes certain lands within Nova Scotia, and being more particularly described as follows:

Beginning at a point at the centre of the Skye River at its intersection with the centre line of Highway No. 105; thence northeasterly along the centre line of Highway No. 105 to the centre line of Highway No. 252 (Mabou Road); thence northerly along the centre line of Highway No. 252 (Mabou Road) to Highway No. 395; thence northerly along the centre line of Highway No. 395 along the East side of Lake Ainslie to the intersection with Highway No. 19 at Southwest Margaree; thence northerly along the centre line of Highway No. 19 to the intersection with the Cabot Trail at Margaree Forks; thence northerly along the centre line of said Cabot Trail to where it crosses the Margaree River at the mouth of said river; thence downstream along the centre of the Margaree River to the Gulf of St. Lawrence; thence northeasterly along the coastline of the Gulf of St. Lawrence and the Atlantic Ocean to the Atlantic mouth of the Great Bras d’Or Channel; thence southwesterly along the centre of the Great Bras d’Or Channel to its mouth on the Great Bras d’Or; thence in a direct line to the eastern mouth of St. Patricks Channel; thence westerly along the centre of St. Patricks Channel to the mouth of Whycocomagh Bay; thence northwesterly to the centre of the Skye River; thence northerly along the centre of the Skye River to its intersection with the centre line of Highway No. 105, being the place of beginning. Together with all inland and offshore islands.
Hunters Helping the Hungry is a joint initiative of the hunting community and FEED NOVA SCOTIA, whereby hunters can donate a portion of their deer/moose or bear meat to help support Nova Scotians who access food banks.

The Nova Scotia Federation of Anglers & Hunters continues to support the program, and once again they have organized a draw for a chance to win a rifle. Every hunter making a donation will receive a ballot, and one ballot will be drawn at the Federation of Anglers and Hunters annual general meeting in March/April each year. Ballots and details are available at each of the licensed meat cutter locations. Refer to the poster outlining details.

In 2020, hunters donated 1,038 kilograms to the program. That’s an incredible 10,380 servings of much needed protein for Nova Scotians. Over the 15 years since the program began, hunters have generously donated a total of 12,694 kilograms and that translates into 126,940 servings of protein.

A sincere thank you to the hunters for their continued support of the program. This would not be possible without you.
How does the program work?
1. Hunter registers deer/bear/moose
2. Hunter takes deer/bear/moose to a licensed participating meat cutter.
3. Complete your order request and ballot, with name and wildlife resource card number. The winner must be in possession of a valid PAL.
4. FEED NOVA SCOTIA picks up donations and ballots from licensed meat cutters. The draw will take place during the Federation of Anglers & Hunters Annual General Meeting in March/April 2021.

Note: Processing is at hunter’s expense.

How can I get involved?
Contact a participating licensed meat cutter. See list on following page.

How much can I donate?
We will gladly accept any amount.

Are there any guidelines for donating meat?
Yes. Participating meat cutters will ensure the meat has been handled properly to ensure food safety.

Thank you!
Moose hunting in Nova Scotia is restricted to Inverness and Victoria counties of Cape Breton Island. Moose hunting is administered on a Moose Management Zone basis (see map above) and licences are allocated through a lottery/draw process. Applications are accepted annually each Spring both online and by phone. There is a charge to apply. More information, including eligibility requirements and how to apply are available online at novascotia.ca/natr/draws/moosedraw/

For season dates see 12.
Hunting in Moose Management Zone 5
(Polletts Cove-Aspy Fault Wilderness Area)

- Vehicle use is not permitted
- Non-motorized hunt only
- Terrain is rugged and possible extreme conditions. The hunter is responsible for packing in all the gear that will be needed for the hunt and, if successful, s/he will have to pack out the moose in addition to the gear. It is important to have a good knowledge of Zone 5 geography and access limitations.

Persons hunting in Season 7 should additionally consider the following: moose calling season is over; mature bulls may have shed their antlers; few services are available during winter; travel and hunting conditions in northern Cape Breton can be challenging.

Moose Draw

The moose draw occurs annually in June. Winner names are randomly selected from all eligible entries. Moose draw winners will be notified by mail. Applicants can also check their individual results online, using their Wildlife Resources Card and PIN at novascotia.ca/natr/hunt/. Moose hunters can designate up to four companion hunters who each must purchase a Wildlife Habitat Stamp and Companion Moose Hunting Stamp to fully participate in the hunt. While hunting, designated companion hunters must be within hailing distance of the moose licence holder at all times. “Hailing distance” means a distance that permits effective and clear 2-way communication and is not farther than 2 km (radio communication may be used). Companion hunters who are 16 and 17 years of age must be under the immediate supervision of a person over the age of 18 who is certified to hunt big game in Nova Scotia. Additional information is available online at novascotia.ca/natr/hunt.

MOOSE MANAGEMENT ZONES DESCRIPTIONS

Moose Management Zone 1 includes certain lands within Nova Scotia and is more particularly described as follows:

Beginning at a point where the northern boundary of The Cape Breton Highlands National Park meets the ordinary high water mark (OHWM) of the northern shoreline of Neils Harbour; Thence, in a generally westerly direction following the northern boundary of the said Park across the northern peninsula of Cape Breton Island to the OHWM of
the Gulf of St. Lawrence at the mouth of the MacKenzie River; Thence, in a northerly direction along the OHWM of the Gulf of St. Lawrence to Cape St. Lawrence; Thence, in an easterly direction along the OHWM of the Cabot Strait and Bay St. Lawrence to Money Point; Thence, in a southerly direction along the OHWM of Aspy Bay, Cabot Strait and Neils Harbour to the Point of Beginning. Together with all inshore and offshore islands, and including all harbours, bays, coves, rivers and inlets. Saving and excepting all lands located in Moose Management Zone 5.

**Moose Management Zone 2** includes certain lands within Nova Scotia and comprises parcels “A” and “B”, being more particularly described as follows:

**Parcel “A”**
Beginning at a point where the southern boundary of The Cape Breton Highlands National Park meets the ordinary high water mark (OHWM) of the western shoreline of South Bay Ingonish; Thence, in a generally westerly direction along the southern boundary of the said Park across the northern peninsula of Cape Breton Island to the OHWM of the Gulf of St. Lawrence at the mouth of the Cheticamp River; Thence, in a generally southerly direction along the OHWM of the Gulf of St. Lawrence to the mouth of the Margaree River; Thence, in a southeasterly direction along OHWM of the southern shoreline of the Margaree River to the Cabot Trail; Thence, in a southerly and easterly direction along the Cabot Trail to North East Margaree at a point where the road southerly from Kingross meets the Cabot Trail; Thence, in a northerly direction along the said Kingross Road a distance of approximately 4.5 km to Margaree Valley at a point where the Frasers Mountain Road to the Highlands joins the said Kingross Road; Thence, in a generally easterly direction along the said Frasers Mountain Road to the point where it meets the main road in the Highlands running northerly from Hunters Mountain; Thence, in a northerly direction along the main road through the Highlands a distance of approximately 2.5 km to a secondary road just past the Middle Branch North River, the said road leading easterly to the MacDonalds Mountain fire tower; Thence, in an easterly and northerly direction along the said secondary road a distance of approximately 11 km to the point where it crosses the Barachois River; Thence, in a generally southeasterly direction downstream along the said River to the point where the said River meets the OHWM of St. Anns Bay; Thence, in a northeasterly direction along the OHWM of St. Anns Bay and the Atlantic Ocean to Stanley Point at the northerly edge of Cape Smokey; Thence, westerly along the OHWM of the southern and western shorelines of South Bay Ingonish
to the Point of Beginning. Together with all inshore and offshore islands, and including all harbours, bays, coves, rivers and inlets.

Parcel “B”
Beginning at a point where the southern boundary of the Cape Breton Highlands National Park (CBHNP), just to the north of Ingonish, meets the Ordinary High Water Mark (OHWM) of the Atlantic Ocean; Thence, in a westerly, southerly and easterly direction following the said boundary of the CBHNP, and enclosing the communities of Ingonish Centre and Ingonish, and the surrounding area, to a point where the said boundary meets the OHWM of the Clyburn Brook; Thence, in an easterly direction downstream along the OHWM of the Clyburn Brook to the point where the said Brook meets the OHWM of North Bay Ingonish. Thence, in a generally westerly, northerly, easterly and northerly direction following the OHWM of the western shoreline of North Bay Ingonish and the Atlantic Ocean to the Point of Beginning. Together with all inshore and offshore islands, and including all harbours, bays, coves, rivers and inlets.

Moose Management Zone 3 includes certain lands within Nova Scotia and is more particularly described as follows:
Beginning at a point where the Barachois River meets the ordinary high water mark (OHWM) of the western shoreline of St. Anns Bay; Thence, in a southerly and easterly direction following the OHWM of the western, southern and eastern shorelines of St. Anns Bay to Cape Dauphin; Thence, easterly in a straight line across the mouth of The Great Bras d’Or to Table Head; Thence, easterly along the OHWM of the Atlantic Ocean to the county boundary between Victoria and Cape Breton Counties; Thence, in a generally southwesterly direction along the said County boundary across Boularderie Island and the waters of St. Andrews Channel to a point where the waters of the St. Andrews Channel join the waters of the Great Bras d’Or; Thence, northwesterly in a straight line to a point midway between McKay Point to the south and Red Head to the north; Thence, in a westerly direction along the centreline of St. Patricks Channel to the mouth of Nyanza Bay; Thence, northerly and easterly along the centreline of Nyanza Bay to the mouth of the Baddeck River; Thence, upstream along the centre of Baddeck River to its intersection with the centreline of Highway No. 105; Thence, northwesterly along the said Highway to its intersection with the Cabot Trail; Thence, northerly along the Cabot Trail to North East Margaree at a point where the road southerly from Kingross meets the Cabot Trail; Thence, in a northerly direction along the said Kingross Road a distance of approximately 4.5 km to Margaree Valley at a point where the Frasers Mountain Road to the Highlands joins the
said Kingross Road; Thence, in a generally easterly direction along the said Frasers Mountain Road to the point where it meets the main road in the Highlands running northerly from Hunters Mountain; Thence, in a northerly direction along the main road through the Highlands a distance of approximately 2.5 km to a secondary road just past the Middle Branch North River, the said road leading easterly to the MacDonaldis Mountain fire tower; Thence, in an easterly and northerly direction along the said secondary road a distance of approximately 11 km to the point where it crosses the Barachois River; Thence, in a generally southeasterly direction downstream along the said River to the point where the said River meets the OHWM of St. Anns Bay at the Point of Beginning. Together with all inshore and offshore islands, and including all harbours, bays, coves, rivers and inlets.

Moose Management Zone 4 includes certain lands within Nova Scotia and is more particularly described as follows:

Beginning at a point where the centre of Baddeck River intersects with the centerline of Highway No. 105; Thence, northwesterly along the said Highway to its intersection with the Cabot Trail; Thence, in a northerly, westerly and northerly direction along the Cabot Trail to the point where the Cabot Trail intersects the western shoreline of the Margaree River near Margaree Harbour; Thence, northerly along the said western shoreline to the ordinary high water mark (OHWM) of the Gulf of St. Lawrence; Thence, in a generally southerly direction along the OHWM of the Gulf of St. Lawrence to Hefferman Point on the northeastern shoreline of the Strait of Canso; Thence, in a southeasterly direction along the OHWM of the northeastern shoreline of the Strait of Canso to Grant Point near the mouth of Ship Harbour; Thence, in a southeasterly direction along the OHWM of the northeastern shoreline of Ship Harbour to the county boundary between Inverness and Richmond Counties; Thence, northeasterly along the said County boundary to the point where it meets the OHWM of West Bay; Thence, northerly along the said County boundary across the waters of West Bay and The Bras d’Or Lake to the county boundary line between Victoria and Cape Breton Counties; Thence, in a northeasterly direction along the Victoria-Cape Breton County boundary through the Barra Strait to a point where the waters of the St. Andrews Channel join the waters of the Great Bras d’Or; Thence, northwesterly in a straight line to a point midway between McKay Point to the south and Red Head to the north; Thence, in a westerly direction along the centreline of St. Patricks Channel to the mouth of Nyanza Bay; Thence, northerly and easterly along the centreline of Nyanza Bay to the mouth of the Baddeck River; Thence, upstream along the centre of the Baddeck River to its intersection with the centreline of Highway No. 105 at the
Point of Beginning. Together with all inshore and offshore islands, and including all harbours, bays, coves, rivers and inlets.

**Moose Management Zone 5** includes certain lands within Nova Scotia known as the Polletts Cove-Aspy Fault Wilderness Area, and is more particularly described in Schedule B to Chapter 27 of the Acts of 1998, the Wilderness Areas Protection Act.

## Youth Exchange Program

Due to COVID-19 this event may be affected. See COVID-19 page 3. The Atlantic Provinces Youth Exchange Program encourages youth to hunt and fish. All Nova Scotian youth between the ages of 12 and 17 who successfully complete a Hunter Education Course during the year are automatically entered for an opportunity to receive an all-expenses-paid hunting or fishing trip for themselves and a parent or guardian to one of the other Atlantic Provinces.

Due to the generosity of sponsors, both winners receive an unforgettable experience to participate in hunting and fishing in another province led by an experienced guide. Due to unforeseen circumstances the program did not take place in 2019.

The Youth Exchange Program is a non-profit program which relies completely on donations and in-kind contributions. Acknowledgement and thanks to the instructors of Hunter Education and Bowhunter Education in NS who support this program by donating a portion of the registration fee for each student that is taught during the year. Anyone wishing to donate to the Youth Exchange Program can contact the Hunter Education Coordinator at (902) 424-2351, or by email huntersed@novascotia.ca.
Receive a Deer Crest!

Successful deer hunters can receive an embroidered crest if they submit the following information to a local DLF office (excludes DLF Halifax):

a) antler measurements, if applicable (see 52) and;
b) lower jawbone and;
c) county and deer management zone of kill

Offer is only valid until the end of the current year.

The jawbone is used to determine deer age. Aging a sample of deer jawbones each year provides valuable information when making recommendations for seasons and bag limits and is especially important to monitor the effects of the deer hunting regulations.

Your cooperation and involvement is appreciated.

Skunked deer crests are also available each year through the NS Federation of Anglers and Hunters (NSFAH).

Cost is $6.00 per skunked crest with proceeds going directly to NSFAH. No jawbone required and no deadline to apply. To order Skunked Deer Crest, complete the form below and send to: NSFAH, P.O. Box 654, Halifax, NS B3J 2T3

Please send me _______ crests, for my buddies of course.

Habitat Conservation Fund and Wildlife Habitat Stamp

The Habitat Conservation Fund is authorized by the Wildlife Act for the protection and enhancement of wildlife habitat. The $5.15 Wildlife Habitat Stamp is the primary funding mechanism for the fund. Project funding recommendations are made by a Board of Directors, with members from hunting, naturalist and academic organizations.

11 projects approved for funding for 2021 are as follows:

Conserving Habitat for Landbirds at Risk in Forested Landscapes in Nova Scotia
Dalhousie University – Awarded: $20,000.00

Identifying sites of climate-resilient and climate reduced habitat for Piping Plover
Dalhousie University – Awarded: $6,270.00

Invasive Alien Species in Nova Scotia: Update Guide and Habitat Stewardship
Cape Breton University – Awarded: $24,276.00

Lichens of old growth forests in Nova Scotia sampling bias and indicator potential
Saint Mary’s University – Awarded: $14,603.06

Private Woodland Prioritization and Outreach for Land trust in Kespukwitk
Nova Scotia Working Woodlands Trust – Awarded: $21,395.00

Snapping Turtle protection and education in Southwest Nova Scotia
Bluenose Coastal Action Foundation – Awarded: $12,500.00

Space to Roost: Reducing disturbance at vital shorebird habitats in the Minas Basin
Birds Canada – Awarded $9,880.00

Treasured wetlands of Nova Scotia: Engaging
Duck Unlimited Canada – Awarded: $18,500.00
Waterfowl productivity and ecological indicator of wetlands habitat quality at Belleisle Marsh
Acadia University – Awarded: $16,800.00

Wetland restoration and appreciation in the Town of Middleton
Clean Annapolis River Project – Awarded: $14,470.00

Trapper Mentorship Program
Trappers Association of Nova Scotia – Awarded: $18,000.00

More information can be found at novascotia.ca/natr/wildlife/habfund/
Mainland Moose Report Moose Sightings!

Report online at novascotia.ca/natr/wildlife/sustainable/msform.asp or at a local DLF office.

For DLF office listings go to novascotia.ca/natr/staffdir/offices.asp or see 110.

Moose sightings include: pellets, tracks, carcass, hair and bone.

Permit to Keep Meat

Deer
Any person who kills a deer in a hunt and wants to keep the deer meat must:
a) Retain their Deer Hunting Licence and;
b) Submit their Deer Hunting Report (online or at a deer registration station) and;
c) Record their deer report confirmation # (or seal) in the designated location of Deer Hunting Licence.

For the person who killed the deer, this will serve as a valid permit for storing/keeping the meat until July 31 of the following year. If you need to store meat after July 31, you must obtain a Meat Storage Permit from the Department of Lands and Forestry.

Any person who legally harvests a deer may transfer up to 15 pounds of meat to another household, where it may be stored, without a Meat Storage Permit, until July 31 of the year following the kill. After July 31, a Meat Storage Permit is required.

Moose
A moose hunting licence, and the 4 corresponding tags (one affixed to each quarter) serve as a permit to transport a moose from where it was legally killed to the hunter’s home or licenced meat cutting facility. The moose hunting licence and companion moose hunting licences issued to the persons who killed the moose must be retained, and shall serve as valid storage permits authorizing those persons to possess meat from the carcass until July 31 of the year following the kill. After July 31, any person who possesses moose meat must obtain a Meat Storage Permit from Department of Lands and Forestry to store moose meat.

Any person who legally harvests a moose may transfer up to 15 lbs to another household, where it may be stored without a Meat Permit until July 31 of the year following the kill.

If a licence holder or companion licensee wishes to transfer more than 15 lbs. or more of moose meat to the occupants of another household, they must provide the Department of Lands and Forestry with the name and address of the person or persons who are to receive the moose meat and the number of pounds to be transferred to each person, AND the person who is to receive the moose meat must obtain a Meat Storage Permit from the Department.
If a Mi’kmaq person wishes to transfer more than 15lbs. or more of moose meat to the occupants of another household, both the Mi’kmaq person and the recipient must appear at a Department of Lands and Forestry office with proper identification, where the recipient of the moose meat may obtain a Meat Storage Permit. Permits for moose meat will be restricted to 100 pounds per individual or household per calendar year.

Rabbits, Pheasants and Grouse (Partridge)
To keep legally killed rabbits and non-migratory game birds in cold storage after April 30th, you’re required to obtain a Storage Permit from your local DLF Office (see 110 for office locations).

Hunting with Mobility Limitations
A person who possesses a valid “Accessible Parking Identification Permit/Plate” from the Registry of Motor Vehicles may apply to the Department of Lands and Forestry for a Weapon Discharge Permit to hunt wildlife (during the open season for given species) from a parked vehicle.

Persons determined to be permanently disabled may be eligible for a “Disabled” designation on their Wildlife Resources Card so they don’t have to obtain a Weapon Discharge Permit each year. Contact your local DLF office for further information.

Disabled Person means a person whose mobility is limited as a result of severe physical disability caused by paralysis, lower limb amputation, heart or lung disease, or other disability impairment to the extent that:

a) the person is unable to propel themselves without the aid of a wheelchair or walker, or a combination of two of the following: a crutch, cane, leg brace, or leg prosthesis; or

b) the person has significant cardio-pulmonary condition which results in severe shortness of breath with minimal physical activity; or

c) the person has a severe neuro-muscular or skeletal condition, and because of any of the conditions described in (a) or (b) is limited in mobility to 50 metres or less in outdoor weather conditions.

A disabled person authorized to hunt from a parked vehicle under a Weapons Discharge Permit or “Disabled” code on their Wildlife Resources Card must:
a) Be able to satisfy a Conservation Officer that another person is available to retrieve any game taken;

b) Obtain a hunting licence before hunting;

c) Have the Weapon Discharge Permit or Wildlife Resources Card with Disabled designation on or near their person, and produce it to any conservation officer upon demand, when hunting from a vehicle;

d) Comply with all applicable laws and regulations relating to the hunting or taking of wildlife;

Note: A Weapon Discharge Permit does not authorize the holder to shoot from any public highway as defined in the Public Highways Act.

Some General Regulations

1. No person shall have a loaded firearm in a vehicle. Special provisions apply to disabled persons. (see Hunting with Mobility Limitations, 88).

2. You may carry a loaded firearm in a non-motorized vessel during an open season, however, if the vessel is equipped with a motor, the motor of the vessel must not be in operation and movement of the vessel caused by the motor must have ceased;
   - anyone lawfully hunting migratory game birds may carry a shotgun loaded with shot not larger than 0.24 inches (AAA or No. 4 Buckshot) in a vessel with a motor in operation provided the firearm is not discharged until the vessel is beached, resting at anchor, fastened within or tied immediately alongside a fixed hunting blind, or movement of the vessel has ceased.

3. Persons in possession of a valid hunting licence may possess and transport a firearm when hunting during an open season. They may also possess a firearm in wildlife habitat during the period from one hour after sunset to one hour before sunrise provided it is encased (see Sunrise and Sunset Times, 116).

4. No person shall possess a firearm in or on a vehicle at any time at night unless it is encased. (This includes vehicles as defined in the Off-Highway Vehicles Act.) Some exceptions apply to licenced furharvesters.

5. No person shall enter any woods for the purpose of hunting unless that person possesses a compass in working order, a hand axe or hunting knife or jackknife, and a supply of waterproof matches or
matches in a waterproof container or a source of flame. You must be able to demonstrate the ability to operate the compass to the satisfaction of a conservation officer.

6. No person shall at any time discharge any weapon:
   • within or across the travelled portion of any highway, or within 30 m of the boundary of any highway; or
   • between one-half hour after sunset and one-half hour before sunrise the following day (refer to 116).

7. No person shall at any time:
   • hunt, take or kill, or attempt to hunt, take or kill wildlife with a weapon or discharge a weapon within 804 m of a school;
   • discharge a firearm loaded with a rifle cartridge, single ball, or slug within 402 m of a dwelling, playground, golf course, athletic field, woods operation, place of business, agricultural building, or public building other than a school;
   • discharge a shotgun loaded with shot, a crossbow or a bow within 182 m of a dwelling, playground, golf course, athletic field, woods operation, place of business, agricultural building, or public building other than a school;
   • hunt, take or kill, or attempt to hunt, take or kill wildlife that is within 182 m of a dwelling, playground, golf course, athletic field, woods operation, place of business, agricultural building, or public building other than a school.

8. The owner or occupier of a dwelling or person authorized by the owner or occupier who holds a valid licence may discharge a weapon, or hunt, take or kill wildlife within the distances stated if the point of discharge is not within the above prescribed distances of:
   • any other dwelling; or
   • a school, agricultural or public building, playground, golf course, athletic field, woods operation, or place of business.

9. It is an offence to have a firearm loaded in any place where the firearm cannot be legally discharged (criminal code).

10. A person who holds a valid licence to hunt or trap and who has wounded wildlife may discharge a weapon, for the purpose of taking wounded wildlife within the above prescribed distances, provided it is done in a safe manner and the consent of the owner or occupier of the land has been obtained.

11. No person, while hunting migratory game birds, shall possess a shotgun that has a capacity of more than three shells at any time in the magazine and chamber combined.
12. Except as authorized by the Wildlife Act or regulations, you cannot

- hunt wildlife at night with a weapon except by special permit;
- hunt wildlife by means of or with the assistance of any light, except by special permit;
- hunt or carry a weapon in wildlife habitat on Sunday;
- hunt moose or deer with a trap or snare or a setgun;
- shoot a moose or deer while it is swimming;
- kill, take or hunt any moose, deer, or bear with a dog, except nuisance wildlife under permit from the Department of Lands and Forestry. However, a person may use a dog to recover a wounded moose, deer, or bear provided the dog used to track the wounded animal is on leash
- kill, take or hunt with a weapon any wildlife that is within the boundaries of any highway. This does not prohibit the use of legally set traps by a licenced furharvester within highway boundaries. However, within 15 m of the traveled surface of any highway no person shall set any trap unless it is one of the following: (a) a body-gripping trap with a jaw spread of 12 cm or less that is completely submerged in water; (b) a box trap; (c) a snare set completely underwater; (d) a snare made of copper, brass or stainless steel set for snowshoe hare or red squirrel; (e) a submarine trap; (f) a rat trap.

13. Hunting on Sunday is allowed on the two Sundays immediately following the last Friday in October. Hunting is allowed for all species, except moose, for which a season is open at that time.

14. As a driver of a vehicle you cannot refuse or fail to comply with any order or visible signal or direction of any Conservation Officer in uniform.

15. A Conservation Officer has the right to search any vehicle or vessel or box, bag, or container or any other receptacle if the officer has reason to believe a violation of the Wildlife Act or regulations has occurred.

16. It is an offence to use any snare, net or trap to hunt, take or kill or attempt to hunt, take or kill a game bird.

17. No non-resident shall enter any forest for the purpose of hunting without being supervised by a licenced guide or resident who has a Special Permit to Guide.

18. No person shall shine a light having a voltage of more than four and one-half volts in or upon any wildlife habitat not owned by the person at times when hunting is not permitted. It is prima facie
evidence that the light or lights of a vehicle are more than four and one-half volts when the source of energy for such light or lights is the electrical system of the vehicle.

Note: Some exceptions apply to licenced fur harvesters. See Use of Lights 40.

19. Within two (2) days before and two (2) days after an open season for wildlife or on Sunday during the open season, the holder of a valid hunting licence may transport a weapon to and from a camp which that person is to occupy, providing the weapon is encased.

20. It is illegal to sell or buy the meat of deer, moose, grouse, pheasant, or bullfrog. Pen-reared pheasants may be sold.

21. No person may administer, attempt to administer or make available any drug or chemical to any wildlife species, except under a permit from the Director of Wildlife.

The Tobeatic Wilderness Area Management Plan, under authority of the Wilderness Areas Protection Act, prohibits the use of bait for hunting animals in the Tobeatic Wilderness Area (including deer and bear). This does not apply to bait for traps or snares legally set for furbearers.

For a copy of the management plan please contact:
Nova Scotia Environment – Protected Areas Branch
PO Box 442, 5151 Terminal Road
Halifax, Nova Scotia  B3J 2P8

Hunting in Provincial Wildlife Management Areas and Game Sanctuaries

**Chignecto Game Sanctuary**
Bowhunters with a valid licence and who are certified as qualified to hunt with a bow, may enter the Chignecto Game Sanctuary with a bow to hunt and take wildlife for which they hold a licence and for which the season is open, within the period which coincides with an open season for hunting deer. Hunter orange is not mandatory.

**Tobeatic Wildlife Management Area (TWMA)**
During the period from the 3rd Monday in October until the following Saturday, inclusive, a person may hunt in the TWMA with a muzzleloader, bow or crossbow, if they possess a valid Bear Hunting, Deer Hunting or Small Game stamp. Only wildlife for which a licence is held and for which the season is open may be hunted. There are rules specific to hunting in the Tobeatic Wilderness Area.
Note: The hunt in the TWMA is a primitive hunt. It is an offence for anyone entering the TWMA during this hunt to have in their possession any electric motor or internal combustion engine. Hunter orange is not mandatory.

**Liscomb Game Sanctuary**
During the period from the 3rd Monday in October until the following Saturday, inclusive, a person may hunt in the Liscomb Game Sanctuary with a muzzleloader, bow or crossbow if they possess a valid Bear Hunting, Deer Hunting or Small Game stamp. Only wildlife for which a licence is held and for which the season is open may be hunted. Hunter orange is not mandatory.
Survival in the Woods

The unforeseen can take you off the beaten trail. Even experienced woods travelers can easily lose their bearings. However, a “lost” incident that may be disastrous for a panic-struck novice may prove to be no more than a minor delay for someone who is prepared and does not panic.

**Remember! Always tell someone where you plan to hunt.**

**Preparation**

*(See Some General Regulations, 89)*

It is an offence for any person to enter any woods for the purpose of hunting, unless that person possesses:

- a compass in working order and can demonstrate how to use it;
- a hand axe or hunting knife or jack-knife;
- a supply of waterproof matches or matches in a waterproof container or a source that is capable of producing a flame.

**ABC’s of a Night in the Woods**

a) **Do Not Panic:** Sit down. Think over your situation. It is unlikely to be as bad as it first appears. Do not try to walk out unless you are sure that you have recovered your direction and that you have ample time before dark.

b) **Stay Put:** Usually it is best to stay close to where you got lost. Aimless wandering can exhaust, injure and kill. It can also put you out of reach of searchers who will soon be on your track if you left word of your destination. Choose as your campsite the driest and most sheltered place possible, with firewood nearby. Do not move on without leaving a note or sign giving direction.

c) **Make Yourself Comfortable:** Staying overnight in the woods demands warmth and shelter. Shelter is your first concern. Cut several armfuls of green boughs and about a dozen saplings. Select for your bed the driest and most level spot. Over this, erect a slanting frame of interwoven saplings and roof it from the ground upward with overlapping evergreen boughs, tips downward. Under this lean-to, build a thick mattress of evergreen branchlets by placing the coarser ones topside down for a springy base and topping it with finer branchlets (fir if possible) laid topside up. Gather plenty of firewood to last the night. Build your fire safely and keep it burning all night.
Lead Bullet Fragments are Harmful to Your Health

Lead bullet fragments in game meat are a possible health risk to anyone who may consume wild meat that has been harvested with lead bullets. It has recently been learned that modern high velocity lead ammunition often fragments on impact with a large animal, sending very small shards of lead into the meat and organs up to 18” from the visible bullet path. Even in very low quantities, lead is known to be poisonous and can cause physiological problems that often do not even result in noticeable sickness. Lead particles are often extremely small and cannot be detected by sight, touch (when chewing the meat) or taste. The following suggestions are provided to hunters, in the field and when processing big game, as a guide to help reduce the chances of consuming lead fragments.

- **Consider Alternative Ammunition.** Use bullets less likely to fragment and spread throughout the meat. Examples include:
  - Non-lead (Copper) ammunition
  - High-weight retention ammunition (also known as controlled expansion bullets)
  - Heavier and slower velocity ammunition

Lightly constructed bullets are not as durable and are more prone to fragmentation. Bullets traveling at a higher velocity will have a higher kinetic energy, most of which will go into fragmentation upon impact, therefore selecting relatively slower velocity bullets will also reduce fragmentation. Shotgun slugs and muzzleloader bullets also leave less lead and generally travel slower than high-powered soft-point or rapid expanding rifle bullets. Be aware that bullets described as high-weight retention may still scatter lead fragments, so make sure you understand how your bullet will behave when contacting the animal you are hunting.

- **Be Patient and Take Good Aim.** Practicing your marksmanship and shooting at non-running game will greatly improve your accuracy. Aiming for the heart and lung area creates the least amount of fragmentation. Conversely, shots into the hind-quarter (a high bone density area and meatiest part of the animal) will result in the most fragmentation.

- **Practice Good Field Care and Processing of Meat.** Whether you process your own meat or take it to a meat cutter, ensure a generous area around the wound channel is discarded.
(not retained for consumption). Also discard any meat that is bruised/hemorrhaged or discolored and may contain dirt, hair, grass, or bone fragments. Be especially careful with ground meat. The reason for this is that often people will include meat scraps, including portions that are slightly bruised of hemorrhaged, in what gets ground for burger or sausage. Studies have shown that lead levels in ground meat are much higher than that of whole muscle pieces. Make sure that you, or your meat processor, grind your meat separately from that of other hunters to reduce the spread of fragments from contaminated meat to uncontaminated meat. Also regularly check and clean your meat grinder and any other tools you may use to process your meat.

- **Do Not Rinse the Carcass.** Rinsing the carcass has been shown to do more harm than good by spreading lead fragments to parts of the meat that were not previously contaminated. Therefore, keep the area affected by the gunshot localized, trim liberally and discard the scraps, to reduce the risk of spreading lead fragments.

- **Use Proper Cooking Techniques.** Avoid the use of vinegar and other acidic substances when marinating or cooking your meat. These acidic substances make lead more soluble and therefore more easily absorbed by our bodies.

- **Beware of internal organs.** If the animal was shot in the area of the heart and lungs do not eat the heart, liver or kidneys that may be contaminated. If the animal was shot in the neck, then no problems should arise by eating the internal organs, however you may wish to discard the tongue.

Although there is no conclusive evidence linking lead fragmentation in large game animals to lead poisoning in humans, this does not mean there is no risk. Lead is particularly dangerous to children under the age of six and pregnant women, so as a precautionary measure people in these categories might want to avoid game meat that has been shot with lead. Until there is more definitive information on this matter, it is suggested you follow these preventative measures to reduce the risk of lead poisoning.
Mandatory Hunter Orange

All persons hunting or attempting to hunt wildlife and any person accompanying them while hunting shall wear a cap or hat and a shirt, vest or coat of hunter orange or camouflage orange that is plainly visible from all sides. This also applies to all rabbit hunters and person snaring or trapping. It does not apply to persons who are:

- in a tree stand or blind while hunting deer during a season when deer hunting with a center-fire rifle is not permitted. Note: The periods when deer hunting with a center-fire rifle is permitted include both the open season for hunting deer under a General Deer Hunting Licence (last Friday in October to 1st Saturday in December) and the Special Youth Season for Hunting Deer (1st Friday after Oct 10th until the 2nd Saturday following).
- licenced furharvesters who are not on forested land and who possess only a .22 calibre rim fire rifle or smaller;
- authorized to hunt raccoons at night;
- hunting waterfowl;
- hunting crows on cultivated lands;
- authorized to destroy nuisance wildlife;
- hunting with a bow and arrow in an area designated for bowhunting only;
- hunting between February 16th and September 15th for “Other Harvestable Wildlife”;
- hunting bear while standing or sitting in a stationary position at or near a bait site, during a season when deer hunting with a center-fire rifle is prohibited. See note above regarding periods when deer hunting with center-fire rifle is permitted.
- hunting coyotes, except from October 1 to the end of the general open season for hunting deer;
- licenced furharvesters after the close of the general open season for hunting deer;
- attending a dog field trial or training a dog while carrying a firearm except if done on forested land during an open big or small game season; or
- hunting with a muzzleloader, bow or crossbow in the Tobeatic Wildlife Management Area and Liscomb Game Sanctuary.

Possession and Borrowing of Firearms and Ammunition Under the Age of 18 Years

The Criminal Code of Canada requires any person age 12 through 17, to secure a Minor’s Licence from the Provincial Firearms Office in order to possess, carry, or handle a firearm or ammunition.

Borrowing a Rifle or Shotgun

You must have a valid Firearms Licence (Possession Only or Possession and Acquisition) or a Non-resident 60 day Possession Licence. A minor must have a Minor’s Licence. If you do not have one of the above you may still borrow a firearm but must be under direct and immediate supervision of the licenced owner (One firearm between two people who keep approximately arms length apart).

ADDITIONAL INFORMATION CONCERNING GUN CONTROL LAWS, INCLUDING PURCHASE, BORROWING OR IMPORTING FOR THE PURPOSE OF HUNTING, CONTACT THE CHIEF PROVINCIAL FIREARMS OFFICER (1-902-424-6689), OR CALL 1-800-731-4000 OR SEE WWW. RCMP-GRC.GC.CA/CFP-PCAF/INDEX-ENG.HTM.

Prohibited Weapons and Ammunition

No person shall possess at any time in wildlife habitat;

- a swivel or spring gun;
- a shotgun greater than 10 gauge;
- a device designed to deaden the sound of the report of a firearm;
- a magazine for a semi-automatic centre fire firearm which is capable of containing more than 5 rounds of ammunition.

Note: See also section Non-Toxic Shot 16.
Legal Weapons and Ammunition

Big Game
1. During the general seasons for hunting deer, moose, and bear, holders of appropriate licences may use:
   • a rifle and ammunition of .23 calibre or greater;
   • a shotgun of .410, 28, 20, 16, 12, 10 gauge, using a single projectile; or buckshot having a diameter of 6.10 mm (.24 in.) or larger.
   • a muzzle loaded firearm of .45 calibre or greater; or
   • a bow with a draw weight of 50 pounds or greater within the draw length of the archer when hunting moose and 40 pounds or greater within the draw length of the archer when hunting big game other than moose; and any arrow fitted with a broadhead.
   • a crossbow with a draw weight of 150 pounds or 68 kilograms or greater and bolts with heads measuring more than 2.2 centimeters in diameter. See 23 for certification requirements to use a crossbow.

2. During the open season for snaring bears, including Sundays, any person who holds a valid Resident Bear Snaring Licence may carry a .22 calibre or smaller rifle, or any weapon listed in 1. above in a vehicle and to and from that person’s bear snare for the purpose of dispatching animals in snares.

3. No person shall take, carry, possess, or use a rifle or shotgun loaded with a slug or ball unless that person is the holder of a valid hunting licence or a permit to possess or transport the firearm.

Small Game
1. Persons possessing a valid Small Game Licence may, during the open season for hunting small game, have any of the following items:
   • a shotgun loaded with shot; or
   • a bow and arrows with or without broadheads
   • a crossbow and arrows or bolts with or without broadheads

2. a) During the open season for hunting snowshoe hare, a person may possess any weapon listed in 1. as well as a rim fire rifle of .22 calibre or smaller or a muzzle loaded rifle of .40 calibre or less.
b) In addition to the items described in clause (a), a person who holds the appropriate valid Deer, Bear, Furharvesting Licence, Wildlife Habitat Stamp may use weapons legal for use under those licences to hunt snowshoe hare during the period when the open seasons overlap.

3. A person may possess and use a rifle/shotgun over-under combination firearm, in wildlife habitat during times when possession of a rifle is not permitted, provided they do not possess ammunition for the rifle.

4. No person shall use a firearm loaded with a single projectile (bullet or rifled slug) to kill or take game birds.

**Furharvesting**

1. For the purpose of dispatching animals in traps, licenced furharvesters are allowed to carry a .22 calibre rim fire or smaller rifle, including at night and on Sunday, during the season for harvesting furbearing animals.

2. Furharvesters legally hunting raccoon, bobcat, fox, squirrel or weasel during the day may use:
   - a shotgun loaded with shot;
   - a bow and arrows fitted with broadheads;
   - a crossbow and bolts or arrows fitted with broadheads;
   - a rim fire rifle of .22 calibre or smaller or a muzzle loaded rifle of .40 calibre or less;
   - any weapon permitted for hunting deer or bear when a deer or bear hunting season overlaps, provided the person also possesses a valid Deer or Bear Hunting Licence.
   - in addition, following the closure of the general deer hunting season, any rimfire, center fire or muzzle loader rifle or shotgun with slugs or ball.

3. Furharvesters legally hunting raccoons at night may use:
   - a shotgun loaded with shot not larger than #2
   - a .22 calibre rim fire rifle or smaller; or
   - a bow and arrows fitted with broadheads.
   - a crossbow and bolts or arrows fitted with broadheads.

4. A furharvester with a Bear Snaring Licence may use any weapon permitted for hunting big game or a .22 calibre or smaller rifle to dispatch bears in snares. You may only carry the weapon directly to and from your bear snare set.
5. No person is allowed to possess a firearm in or on a vehicle at night unless it is encased. Licenced furharvesters using a rimfire rifle of .22 calibre or smaller to dispatch animals in traps are exempt if they are using an off-highway vehicle as defined in the Off-Highway Vehicle Act.

Other Harvestable Wildlife

1. While hunting “Other Harvestable Wildlife” you may possess:
   • a shotgun loaded with shot
   • a bow and arrows with or without a broadheads;
   • a crossbow and bolts or arrows with or without broadheads; or
   • a rifle of .23 calibre or smaller or a muzzle loaded rifle of .40 calibre or less from October 15 to the last day of March of the year following.

2. After the first Saturday in December, a person may use any center-fire, rimfire or muzzle loaded rifle or shotgun with slugs or ball, while hunting coyote, until March 31 of the following year.

3. Anyone who holds a valid big or small game hunting licence may, during the open season for big or small game, hunt “Other Harvestable Wildlife” with any weapon or ammunition permitted for hunting under those licences.
Automatic Forfeiture of Seized Items

A conviction under any of the following sections will result in the automatic forfeiture of all items seized:

**Wildlife Act**

- **Section 26** Hunting or fishing without valid licence or permit.
- **Section 31(2)** Obtaining or applying for licence or permit after conviction.
- **Section 32(2)** Hunting while disqualified because of a hunting accident.
- **Section 39(2)** Hunting wildlife during a closed season.
- **Section 39(2)** Exceeding seasonal bag limit prescribed for wildlife.
- **Section 50(1)** Hunting, taking or killing protected wildlife.
- **Section 68** Hunting wildlife by means of, or with assistance of, a light or flambeau.
- **Section 69(1)** Shining a light of more than 4 1/2 volts at night on wildlife habitat not owned by that person.
- **Section 73(2)** Hunting wildlife during hours other than those permitted by regulations.
- **Section 73(2)** Discharging a firearm, crossbow or bow during hours other than those permitted by regulations.
- **Section 78(3)** Hunting in an area designated as “no hunting” by the Minister of Lands and Forestry.
- **Section 79** Possessing firearm, crossbow or bow in wildlife habitat contrary to Act or regulations.
- **Section 80(4)** Transporting or possessing uncased firearm, crossbow or bow in wildlife habitat at night during open season.
- **Section 81** Using or possessing prohibited weapon or ammunition.
- **Section 87(1)** Possessing unencased firearm, crossbow or bow in wildlife habitat while impaired by alcohol or drugs.
- **Section 87(2)** Discharging or handling firearm, crossbow or bow without due care and attention.
- **Section 88(a)** Obstructing a conservation officer or person assisting.
- **Section 88(d)** Assaulting a conservation officer or person assisting.
- **Section 109** Applying for licence or permit while disqualified.
Firearm and Bow Regulations
Section 3(a) Possessing a swivel or spring gun in wildlife habitat.
Section 3(b) Possessing a shotgun greater than 10 gauge in wildlife habitat.
Section 3(c) Possessing a device designed to deaden the sound of the report of a firearm in wildlife habitat.

General Wildlife Regulations
Section 11(2) Discharging firearm, crossbow or bow between 1/2 hour after sunset and 1/2 hour before sunrise contrary to the regulations.

Chignecto Game Sanctuary Regulations
Section 3(1)(a) Hunting wildlife in Chignecto Game Sanctuary contrary to the regulations.

Liscomb Game Sanctuary Regulations
Section 3(1)(a) Hunting wildlife in Liscomb Game Sanctuary contrary to the regulations.

Tobeatic Wildlife Management Area Regulations
Section 3(1)(a) Hunting wildlife in Tobeatic Wildlife Management Area contrary to the regulations.

Additional
Any trap, snare, or net illegally used to hunt wildlife may be seized and upon conviction will be automatically forfeited to the Crown.
Automatic Licence Suspension Order

Because this booklet is a summary of Regulations, it is recommended to consult the Wildlife Act and associated Regulations for all purposes of interpreting and applying the law.

A person who is convicted of an offense, listed online at novascotia.ca/just/regulations/regs/wildlifelicence.htm, may not obtain or apply for a hunting license or permit under the Wildlife Act or its Regulations for two (2) years from the date of their conviction.

Anyone convicted between September 1st and December 31st of such offenses will have their privilege of obtaining any hunting licence suspended for two (2) years beginning the following year on January 1st.

Conviction under Section 68 of the Wildlife Act nslegislature.ca/legc/statutes/wildlife.pdf regarding “every person who takes, hunts or kills or pursues with intent to take, hunt or kill wildlife by means of, or with assistance of, a light or flambeau” will result in a five (5) year suspension, beginning on the date of conviction.

Suspensions imposed while the person is currently suspended will run consecutive to the initial suspension.

Conviction of any three wildlife offenses, within a five year period, will result in a five (5) year suspension of hunting privileges being from the date of their third conviction.

Additional information is available online at:

Wildlife Act nslegislature.ca/legc/statutes/wildlife.pdf

REPORT A POACHER

Help protect your natural resources by reporting wildlife crime:

- Online at novascotia.ca/natr/enforcement/reportapoacher.asp
- By calling 1-800-565-2224

Angling and hunting regulations are designed to protect you as well as your fish and wildlife resources. A person who breaks these laws is a thief, stealing your resource. Poaching and other fish and wildlife offences concern the whole community. If you know of someone breaking fish or wildlife laws, report what you know. Often information that seems unimportant can be of the greatest value.

*Help us, help you protect your resource.*

Hunter Reports and Biological Submissions: Essential to Managing Game Species

It is not always practical or even possible to monitor wildlife populations every year via surveys or field studies. It is, however, practical to ask the hunters and trappers of the province to assist by providing information on their harvested species. Such data, collected by means of hunter/trapper report forms and biological samples, is invaluable and is used to evaluate health, condition and abundance of the species involved, and is essential to determine if current levels of harvesting are sustainable. Proper management of game species, therefore, requires the involvement of those who hunt and trap these animals and that is why hunter reporting is so important.

*For your convenience, reporting is available online at novascotia.ca/natr/harvests* and report cards are also available in this summary booklet.

Please do your part to ensure hunting and trapping remain a part of our future.
It is **required, by law**, to submit reports, regardless of whether you hunt/trap or harvest an animal for all of the following licences:

- Deer Hunting (General)
- Deer Hunting (Archery/Muzzleloader)
- Deer Hunting (Human Wildlife Conflict)
- Deer Jaw (required for those who receive notice from DLF)
- Moose Hunting (including submissions of incisor bar with successful harvest)
- Bear Hunting (including submission of lower jaw or full skull with successful harvest)
- Bear Snaring* (including submission of lower jaw or full skull with successful harvest)
- Small Game
- Furharvester (including submission of furbearer specimens See 45).

*Hard copy Bear Snaring Reports are available at your local DLF office.

Bear/Moose Ages - Hunters/trappers who submitted a moose or bear tooth/jaw may call their local DLF office the following year to request the age of their harvested animal. You must provide your Wildlife Resources Card number.

Compliance with the following wildlife management projects is voluntary, however your participation is important to wildlife management.

- Deer antler measurements
- Deer jaw submissions (voluntary unless specifically contacted by DLF)
- Mainland Moose Sightings
- Woodcock Hunting and Wing Survey**
- Waterfowl Hunting and Wing Survey**

**Please participate when contacted.

Remember, reporting online is easy! Submit online at [novascotia.ca/natr/hunt](https://novascotia.ca/natr/hunt)
# Deer Registration Stations

Any changes to this list will be posted online at [novascotia.ca/natr/hunt](http://novascotia.ca/natr/hunt)

For a specific day see the General Wildlife Regulations (novascotia.ca/just/regulations/regs/wigeneral.htm). All times listed are in Atlantic Standard Time where appropriate. You must convert to Daylight Saving time where appropriate by adding one hour.

** Daylight Savings Time ends at 2 am on the first Sunday in November.
Definitions

**Act** means the Wildlife Act, R.S.N.S. 1989, Chapter 504.

**Antlered Deer** means a deer having an antler extending not less than 3 inches (7.6 cm) in length from the head of the deer.

**Antlerless Deer** means a deer having no antlers or antlers extending less than 3 inches (7.6 cm) in length from the head of the deer.

**Antlerless Deer Hunting Stamp** means a stamp issued by the department which, when affixed to a deer hunting licence, confers on the holder the privilege of hunting an antlerless deer in the Deer Management Zone prescribed thereon.

**Apprentice** refers to a resident who is under 19 years of age and wishes to be mentored by a licenced Furharvester who is 19 years of age or older. Once named in writing to the Department, an apprentice is covered under the Furharvester Licence of the person they are an apprentice to and must be under his/her immediate supervision while trapping or snaring.

**Big Game** means bear, moose, deer, and any wildlife that may be designated as big game by the Governor in Council and includes any part of such wildlife.

**Black Bear Gallbladder Seal** is an individually identifiable permanent locking device issued by the Department of Lands and Forestry. It is required for the export or sale of black bear gallbladders.

**Bonus Deer Stamp** means a stamp issued by the Department that, when affixed to a Deer Hunting Licence, confers on the holder the privilege of hunting an additional deer in the specified Deer Management Zone.

**Box Trap** means any box shaped trap designed to capture an animal alive by being constrained only by the confines of the walls of the trap which may be made in any shape or size and of wood, metal, wire, netting or other material.

**Crossbow** means a tool for projecting arrows or bolts that consists of a bow fixed across a stock with a groove for an arrow or bolt and a mechanism for holding and releasing the bowstring.
Deer Management Zones are areas of the province established to effectively manage Nova Scotia’s white-tailed deer. Refer to map 57 and page 59–73 for zone descriptions.

Dogs at large in wildlife habitat: “At large” means unaccompanied by the owner or handler. Unaccompanied is further defined as “not under the immediate control of the owner or handler; and not within sight of the owner or handler”. A dog is not considered to be illegally at large in wildlife habitat when the dog is being trained or used to hunt wildlife as permitted by the Act and the regulations made under the Act.

Dog Proof Enclosure means a special trap-holding enclosure designed to keep a dog away from a trap by creating a barrier to the trap allowing entry only through designated openings and

1. for any body-gripping trap (e.g. conibear type 160, 220 or 330), may be an enclosure placed so that no part of the opening of the enclosure is more than 12.7 cm (5 in.) off the ground; and

2. for body-gripping trap of not more than 17.78 cm x 17.78 cm (7 in. x 7 in.) dimensions (e.g. conibear 220 type or smaller), may be
   a) for baited/scented trap sets, an enclosure with openings no higher than 17.78 cm above the ground or having a total area of no greater than 322.6 cm² (50 in.²) with the trap trigger set back at least 17.78 cm (7 in.) from any enclosure opening, or an enclosure with a 20.32 cm (8 in.) height by 25.4 cm (10 in.) width opening with the trap trigger set back at least 25.4 cm (10 in.) from any enclosure opening; or
   b) for unbaited or unscented trap sets, an enclosure with openings no greater than 25.4 cm in height and 25.4 cm in width with the trap trigger set back at least 38.1 cm from any enclosure opening.

Encased means a firearm, bow or crossbow that is:

• in a case which is properly fastened; or
• completely wrapped in a material which is securely tied around the firearm or bow; or
• in the locked compartment of a vehicle and the contents of the compartment are not accessible to the occupant of the vehicle from inside the vehicle; or
• rendered inoperable by the attachment of a triggerlock to the firearm; or
• a bow rendered inoperable through disassembly or attachment of a lock to the bow.
Firearm means any barreled weapon from which any shot, bullet or other missile can be discharged and that is capable of causing serious bodily injury or death to a person, and includes any frame or receiver of such a barreled weapon and anything that can be adapted for use as a firearm.

Hailing Distance means a distance that permits effective and clear two-way communication (includes two-way radio) and is not farther than 2 km. Clear and effective two-way communication must be demonstrated when requested by a Conservation Officer.

Human Wildlife Conflict Stamp means a stamp issued to allow the hunting of nuisance deer or bear when it is necessary to remove overabundant problem deer and bears from agricultural and other situations approved by DLF.

Hunting means chasing, driving, flushing, attracting, pursuing, worrying, following after or on the trail of, searching for, trapping, attempting to trap, snaring or attempting to snare, shooting at, stalking, or lying in wait for any wildlife whether or not the wildlife is then or subsequently captured, killed, taken, or wounded. It does not mean stalking, attracting, searching for, or lying in wait for any wildlife by an unarmed person solely for the purpose of watching or taking pictures of it.

Immediate Supervision means that if you are hunting and under the age of 18 years you must be under the supervision and within sight of the supervising adult 18 years or older.

Muzzleloader means a firearm in which the charge and propellant can be loaded only from the muzzle of the barrel.

Non-Resident means any person who does not qualify as a resident of Nova Scotia.

Non-Toxic Shot - Approved non-toxic shot is steel shot, tungsten-polymer shot, tungsten-matrix shot, tungsten-iron shot, tin shot, or bismuth shot.

Partner - A person who wishes to set and tend traps of a licensed Furharvester must notify the Department, in writing, of their partnership and must also hold their own valid Furharvester Licence.

To snare bear in partnership with another person, both individuals must possess a valid Resident Bear Snaring Licence and the partnership must be documented, in writing, with the Department. A named partner may tend bear snares set by their partner if they
carry their partner’s Resident Bear Snaring Licence with them. If successful, the partner must also complete the necessary tagging requirements on behalf of their partner in accordance with the Bear Harvesting Regulations.

**Protected**, as applied to wildlife, means protected through the year or for any open or closed season, pursuant to the Wildlife Act or the regulations.

**Rat Trap** means a trap originally designed to kill house rats (*Rattus norvegicus*).

**Resident** at any time means a person permanently or ordinarily a resident in the province for the two (2) months immediately preceding that time and includes:

- an officer of the diplomatic or consular service of a foreign country stationed within the province;
- a member of the Royal Canadian Mounted Police or the Canadian Armed Forces stationed or born in the province;
- a person born in the province and the owner of real property in the province.

**Senior Citizen** means a resident who has reached the age of 65.

**Vendor** means a person or company who has been appointed a vendor of licences or permits by the Minister of Lands and Forestry.

**Weapon** means a firearm, a crossbow or a bow.

**Wildlife** means vertebrates that, in their natural habitat, are usually wild by nature and includes

- domestic organisms that are physically similar to their wild counterparts,
- exotic wildlife,
- hybrid descendants of wildlife or of wildlife and a domestic organism,
- the eggs, sperm or embryos of wildlife, and
- any other organism designated as wildlife by the Governor in Council in accordance with this Act and the regulations;

**Wildlife Habitat** means any water or land where wildlife may be found and the roads and highways thereon.

**Wildlife Habitat Stamp** constitutes the base licence which is required to hunt or trap/snare all wildlife species including snowshoe hare (rabbits) and “other harvestable wildlife.”
**Woods Operation** means any of the following sites when workers are present on the site: (i) a tree plantation, (ii) a Christmas tree management area, (iii) a special forestry study area, (iv) an area where activity is taking place on woodlands for the purpose of harvesting forest products or for silviculture.

Notice to Nova Scotia Deer Hunters Regarding Chronic Wasting Disease

Dear Hunter:

Your help is needed to protect the deer herd from Chronic Wasting Disease (CWD). This disease is spread from deer to deer, and eventually kills every infected animal by fatally impacting the animal’s nervous system. Symptoms can take 16 to 36 months to appear after infection of the animal. Areas where deer are in higher density, such as at feeding stations or in wintering areas, can accelerate the movement of CWD once it is present. It affects all members of the deer family, including moose and caribou. Currently, there is no known treatment, and no vaccine.

This disease has already been discovered in other jurisdictions in the North East (Pennsylvania, New York, Virginia, West Virginia, and most recently, in Quebec). Deer biologists agree that it is only a matter of time before this disease moves towards our province and affects our deer and moose as well. CWD could massively impact and reduce the deer herd in Nova Scotia, threatening the traditions we have valued and fostered over many generations.

The time to act is NOW—before CWD enters our province. State and provincial wildlife agencies are taking all appropriate measures to reduce the spread of CWD, but we need your help too. Here is what you can do:

1. Under Nova Scotia law, it is prohibited to use real deer urine-based products for scents or lures. These products typically came from CAPTIVE, not wild deer, and it is from captive deer that the risk of CWD is greatest. Studies have shown that CWD can be spread through urine.

2. CWD is carried in the brain and spinal cord of infected deer. It is vitally important that these parts of a deer are not transported across state and provincial boundaries. In some cases, it is unlawful for you to do so. In all cases, ending the transfer of these parts across state and provincial boundaries is another important step in reducing the spread of CWD. This means you should have your deer processed commercially before you move it across a state or provincial boundary, or you should bone out a deer (removing the head and back bone) after you have complied with state and provincial regulations for bringing your deer to a check station.
3. Report deer that appear weakened and starved to your state or provincial fish and wildlife agency. One of the most important ways of stopping the spread of CWD is early detection. Your reports of potentially sick deer are important!

And, be sure to check all the legal requirements of the provinces and states where you hunt or transport your deer. As a hunter, you are personally responsible for following all applicable laws and regulations.

Finally, enjoy our rich deer hunting tradition this fall with safety, enjoyment, and responsibility. But we need your help to enable the continuation of these traditions going forward.

Thank you.
Accidental Harvest Form

When a trapper catches an animal to which he/she is not entitled (i.e. animals over your legal bag limit or those which are completely protected or for which the season is closed) the trapper is left with three options.

1. The first is to release the animal alive back into the wild.

2. The second would be to leave the animal at the trap site until such time that the Department of Lands and Forestry has been notified and direction received from DLF staff as to how to handle the animal in question (outside of normal DLF office hours, you may contact 1-800-565-2224).

3. The third alternative available to trappers is to complete a copy of the Accidental Harvest Form which is at the back of this book. This form must be completed at the trap site, prior to taking possession of and transporting any animal taken to which you are not entitled. If you catch more than one such animal (even on the same day), each animal must be recorded as a separate entry. Upon arriving at your place of residence, you must report your catch to a DLF office, either the local Area office or, if outside normal office hours, the toll free number (1-800-565-2224). When calling you should report what you have in your possession, time of day, date and location of capture.

Once a trapper uses the form and has notified a DLF office that an animal has been taken and the form completed, arrangements need to be made to deliver the animal to a local DLF Area office. At the time of delivery, a DLF staff person will sign in the space provided under the column marked ‘Received by’ to acknowledge having taken possession of the animal/s. Department staff will ensure that all regular carcass information is obtained and the appropriate metal tag is attached.

Any species which are inadvertently caught and recorded on this form must still be reported in the appropriate column on the Furharvester Report Form (found in the Nova Scotia Hunting and Furharvesting Summary of Regulations booklet and/or on the DLF website), which all furharvesters must submit following the end of the furharvesting season.

It is recommended that you keep this form in a waterproof container, such as a resealable plastic bag, along with your licences, to keep it clean and dry. **See 124 for more information.** Complete and return to the Department of Lands and Forestry Office where your Furharvester Licence was purchased.
DON’T MOVE FIREWOOD

Help protect our trees from invasive insects and diseases

novascotia.ca/dontmovefirewood
DON’T GIVE INVASIVE PESTS A FREE RIDE

- Buy it where you burn it — Excellent
- Move it less than 10 km — Great
- Move it less than 80 km — Okay
- Move it more than 80 km — STOP!

Invasive insects and diseases kill thousands of trees every day.
Don’t move firewood.
Moving firewood more than 80 km puts our trees at risk.

INVASIVE INSECTS

Emerald ash borer
- Native to Asia
- Found in Canada in 2002
- Destroys ash trees

Asian longhorned beetle
- Native to Asia
- Found in Canada in 2003
- Eats birch, elm, maple, poplar

European gypsy moth
- Native to Europe
- Found in NS in 1980
- Eats both hardwood and softwood

**Wildlife Resources Card #: __ __ __/ __ __ __/ __ __ __/

---

"# Set" means the number of traps/snares set. If you don't have exact numbers, give closest approximation.

"# Nights Trapped." If you don't have exact numbers, give closest approximation.

Notes:

This data is important to help manage furbearers in Nova Scotia. It will help Biologists to calculate trap nights and catch effort.

1 "Kept" means: furbearers/pelts you wish to retain in your possession after April 15

2 "Turned In" means: pelts, over the bag limit or accidently caught and turned into DLF office.

3 Lynx and marten are completely protected in Nova Scotia. Any lynx or marten accidently harvested (or other species captured in excess of bag limits) and which could not be released must be reported on the Accidental Harvest Form and turned to a local DLF office.

4 Bobcat and fisher are mandatory carcass submissions this year.

If you held a license but did not trap or snare, check this box.

Please indicate number of sets, trap nights and animals harvested by County.

On the basis of your observations, how plentiful do you feel the following animals are in the county you spent the most time trapping/snaring?

- **N** = No opinion
- **0** = None
- **1** = Low
- **2** = Medium
- **3** = High
- **4** = Very High
Deer Hunting Report Form 2021

Reporting ONLINE is easy! novascotia.ca/natr/harvests. You MUST report online or at a deer registration station if you harvested a deer.

If you did not hunt or did not harvest a deer, complete this paper form OR report online.

You are required by law to submit a report for every Deer Hunting Licence you hold by December 15, 2021.

Observations - Provide your observations of the number of: Does _____  Fawns _____  Bucks _____
# 2021 Bear Hunting Report Form

All holders of a Bear Hunting Licence are required by law to report even if you did not hunt. Reporting online is easy! novascotia.ca/natr/harvests

## Observations - Based on your observations

How plentiful do you feel bear are in your area?
- No Opinion
- Low
- High
- None
- Medium
- Very High

Indicate the minimum # you observed:
- Cubs
- Yearlings
- Adults
- Cubs with sows
- Sows with cubs
- Yearlings with sows
- Sows with yearlings

## Biological Information:

If you harvest a bear, you are required to submit the lower jaw (or skull) to DLF by December 15, 2021. Your bear age will be available the following October.
