EXPLANATORY NOTES
1. Numbers are plotted in the geographic centre of the study area, except where proximal study areas are too clustered.
2. Theses restricted to one stratigraphic group (e.g. Windsor Group), but consisting of multiple study areas, are plotted on the stratigraphic legend that accompanies this map.
3. Study areas located offshore are not plotted on this map, but are listed under the heading:
'Nova Scotia Offshore Theses'.
4. A separate list of theses too extensive in scope to be plotted on this map can be found under the heading:
'Miscellaneous Theses'.
