

Legend

- Drillhole
- Abandoned mine opening (new resource symbol)
- Quarry or mine (existing/ former)
- Large aggregate quarry
- Mineral rights staking for 1940 - 2009 (number of times staked 1, 2, 3, 4, 5, 6 to 15, 16, 17, 18, 19, 20)
- Mineral lease, special lease, nonmineral registration and mining permit (1940 - 2009)
- Areas currently closed to mineral exploration and development activity (renewal, provincial)
- Ecodistrict
- Trans-Canada Highway
- Arterial highway
- Trunk highway
- Collector highway
- Hard surface road
- Loose surface road
- Boundaries (province, county)
- River/Coastline
- Lake

Map Notes

This is 1 map in a series of 4 exploration and mining activity maps of Open File Map ME 2010-1 at a scale of 1:250 000.

GIS databases, cartography and reproduction by Angie Ether and Brian Fisher of the Nova Scotia Department of Natural Resources, Geoscience Information Services Section with contribution from the Graphic and Mapping Services Section, 2010. The GIS databases and maps were developed using ArcGIS 9.3.

Base and digital data derived from the Nova Scotia Topographic Database (NSTDB). Copyright Her Majesty the Queen in Right of the Province of Nova Scotia. The NSTDB is available from Service Nova Scotia and Municipal Relations (SNSMR), Land Information Services Division (LIS), Nova Scotia Geomatics Centre (NSGC), Antigonish, Nova Scotia.

Additional information derived from Nova Scotia Department of Natural Resources, Mineral Resources Branch, Geographic Information Systems (GIS) databases and the Restricted and Limited Use Lands (RLUL) database.

For additional information, please refer to the accompanying report Open File Report (OFR) ME 2010-2, Guide to Accompany the Geological Resource Atlas of Nova Scotia (Open File Map ME 2010-1 - 2, -3 and -4) by R. J. Ryan, B. E. Fisher, T. G. MacIntyre, G. Prime, G. A. O'Reilly and J. H. Calder.

Disclaimer

This map presents current and historical data, as well as geological interpretations from a continuing project by staff of the Mineral Resources Branch to evaluate the geological resources of Nova Scotia. This map may be revised as additional geoscience information is incorporated. The data and interpretation on this map originate from a variety of government and nongovernment sources. The Nova Scotia Department of Natural Resources accepts no liability for any errors or omissions on this map. This map is intended for use at the published scale of 1:250 000.
