

LEGEND*

Code	Unit label	Unit name	Unit Terrane or Assemblage Code
DC	ECWcc	Carrolls Corner Formation	DC - Late Devonian, Carboniferous & Mesozoic
AT	Aspy	Aspy Terrane	AT - Aspy Terrane
ST	Stas d'Or	Stas d'Or Terrane	ST - Stas d'Or Terrane
MT	Mars	Mars Terrane	MT - Mars Terrane
BR	Blair River	Blair River Inlier	BR - Blair River Inlier
CP	Cape	Cape Porcupine Complex	CP - Cape Porcupine Complex

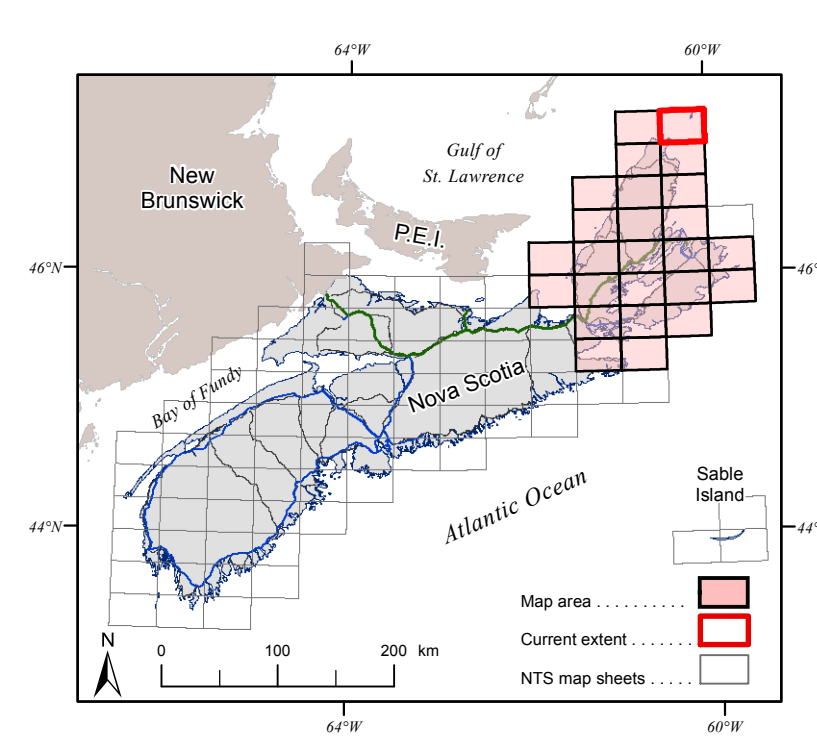

- DC - MCMu - Mabou Group (undivided)
- DC - ECWu - Windsor Group (undivided)
- DC - EChA - Ainslie Formation
- DC - EChS - Strathlorne Formation
- AT - LDws - Wilkie Sugarloaf Granite
- AT - SDgbg - Gulch Brook Granite
- AT - Scn - Cape North Pluton
- AT - OSMPgb - Gulch Brook Formation
- AT - OSMPsr - Shag Roost Formation - metavolcanic rocks
- AT - OSMPsr - Shag Roost Formation - metarhyolite
- AT - nPSCnf - Sparlings Formation
- AT - nPSCnmb - MacGregor Brook Formation - marble
- AT - nPSCnmb - MacGregor Brook Formation - quartzite
- BR - mPpc - Polletts Cove River Gneiss

* Note: For full unit description and terrane information, please refer to the detailed legend for the Cape Breton Compilation Project - Open File Illustration ME 2017-001

Symbols**

Outcrop, float	Rock in water
Drillhole (after O'Neill et al., 2016)	Trans Canada highway
Mineral occurrence (modified after O'Neill et al., 2016)	Highway
Arterial highway (CT = Cabot Trail Hwy 30)	Collector highway
Local road	Seasonal, restricted or private road
Trail, track	Railway (active, inactive)
River, stream	Boundary (county, inter-provincial)
Transmission line	Wetlands
Cape Breton Highlands National Park	Dam
Lake, ocean	

** Note: Compiled symbols list for Open File Maps ME 2017-007 to 2017-031. All symbols may not appear on each map.

Map Notes

GIS databases, cartography and reproduction by Angie Barras, David Haggood and Jeff McKinnon of the Nova Scotia Department of Natural Resources, Geoscience Information Services Section, 2012-2017. The GIS databases and map were developed using ArcGIS® 10.2.2.

Universal Transverse Mercator Projection (UTM), Zone 20, Central Meridian 63°00' West, North American Datum (NAD) 1983 Canadian Spatial Reference System (CSRS) 98.

Base and digital data derived from the Nova Scotia Topographic Database (NSTDB). Copyright Her Majesty the Queen in Right of the Province of Nova Scotia. The NSTDB is available from the Department of Internal Services, Nova Scotia Geomatics Centre (NSGC), Amherst, Nova Scotia.

Shaded relief image derived from a 25 m Digital Elevation Model of the Province of Nova Scotia, DP ME 36, version 2, 2006. Azimuth of 315°, sun angle of 45° and a vertical exaggeration of 5.

In compiling the maps and legend, unit names and ages were taken mainly from the source references, with no attempt to reconcile that information across Cape Breton Island, to remove duplicate names, or to re-interpret areas of geological inconsistencies that are not the work of the compilers.

Acknowledgments

Most of the geological information on this map sheet was compiled from work by Barr et al. (1992), Bradley (1984), Lin (1994), Macdonald and Smith (1981) and Miller (1997). Full reference information for those publications, as well as others used in map compilation, is available in the accompanying open file report. Karen Johnston, Dallas MacIsaac and Christa Pufahl did much of the digitizing of original field locations from 1:10 000 scale orthophoto base maps. We thank Angie Barras, David Haggood and Jeff McKinnon for their help in producing these maps and the associated database. Sandra Barr acknowledges the long-term support of the Natural Sciences and Engineering Research Council of Canada and her employer, Acadia University. We thank Rob Rassias for reviewing the maps and providing many helpful comments.
