

2020-21 Nova Scotia Mineral Resources Development Fund (MRDF)

Application for Prospecting and Exploration Grant

Please study the [Terms and Conditions for a Prospecting and Exploration Grant](#) carefully before you submit this application. Omission of critical information may lead to an application being unsuccessful.

Enter data into the fields below (tables and text boxes are expandable if more space is required):

1. Personal Information (if there are multiple applicants applying for a single grant, each applicant should fill out Section 1)

Contact Information			
Applicant Name		NovaROC ID	
Mailing Address			
License Holder		If no, select one	
Phone (Primary)		Phone (Secondary)	
Email			
Would you like to be added to the MRDF email distribution list?			
Is the applicant eligible for federal government re-imbusement of the Harmonized Sales Tax (HST)?			

Project Information			
Contact Person			
Phone		Email	
Project Name			
Location of Property (community, county)			
Main Project Activity			

Provide a summary of your prospecting experience, including total years, if you have taken the Nova Scotia Prospecting Course, any other prospecting courses including where and what year the course was taken:

3. Description of Project

Estimated starting date of project	Estimated completion date of project
------------------------------------	--------------------------------------

A) Location of the work program(s) and status of private landowner access negotiations and/or documentation showing submission of Crown land access application (*attach map(s)*)

B) Property history: provide a comprehensive summary of previous work completed on the property by the applicant or others (Do not list historical assessment report titles as a summary)

E) Exploration Plan

The exploration plan must be well researched, achievable and based on an idea or an approach that is worth testing. Proposals must explain how the approach will build on any previous work. Extra credit will be given to projects that have higher potential to successfully discover new mineral exploration targets or to use innovative techniques to enhance the economic potential of existing mineral occurrences.

F) Description of the planned work

Provide a detailed description of the proposed exploration activities. Maps must be included, showing proposed exploration grids (sampling, geophysics, etc.), trench locations, drill collar locations including dip, azimuth and proposed depth and showing all historic drillhole collar locations. Justification for the proposed locations must be provided on this or accompanying maps. No proposed work may be conditional on the results of work described on this application. Follow-up activities can be considered under future applications. Extra credit will be given for proposals that include new and/or innovative exploration ideas or approaches.

Include references of relevant case studies for any unconventional work being proposed.
