

## **KWH Pipe Canada Ltd**

Manufacturer of high density polyethylene pipes.

We started manufacturing in Canada in 1968.

This year represent 40 years of innovating and servicing the mining industry.

In applications like slurry lines, dewatering, water intakes and retention tanks.

We manufacture mainly 2 types of pipes and fittings that are use extensively in the industry.

- Sclairpipe solid wall PE pipe in outside diameter from 3" (75 mm) to 63 " (1600 mm)
- Weholite profile wall PE pipe in inside diameter from 15" (380 mm) to 132" (3355 mm)

Come to our booth and see what's new.
