

# SLR Consulting (Canada) Ltd.

*Jamie Burns*

## Introduction

SLR Consulting (Canada) Ltd. (formerly SEACOR Environmental Inc.) is a leading international environmental consulting company with 43 offices across Canada, the USA and the UK. SLR helps clients manage and mitigate their environmental risks and liabilities by providing adaptive solutions, responsive service, and technical excellence, and has been doing so for over 17 years.

## Mining and Minerals Services

SLR advises a comprehensive range of mining companies and funding projects throughout the world and provides a unique package of services to the mining and minerals sector. The SLR Mining Group provides complete professional and innovative technical, environmental and engineering services to help meet the economic and regulatory demands in the mining industry. We work with our partners to provide “Cradle to Grave” services from preliminary planning through to mine closure.

Our experience in the mining industry helps our clients meet both federal and provincial regulatory requirements. SLR works with clients to understand their unique needs and provides a team of technical experts to meet their challenges. SLR’s global presence allows us to draw upon technical resources in the following fields to provide cost effective solutions to our clients:

- |  |   |
