

6.0 CLOSURE

This as-built report details the design and field construction and installation of closure caps over four abandoned mine openings on the former Stirling Mine site in Richmond County, Cape Breton, Nova Scotia. Concrete specifications for the four closure methods were provided by Mr. W. Langley (W.S. Langley and Associates Ltd.). Field construction was carried out by Terra Marine Environmental Ltd. Field inspection and construction supervision was provided by Mr. Brian Herteis, P.Eng., (JWA). The as-built report was prepared by Brian Herteis, P.Eng., and submitted to the Nova Scotia Department of Natural Resources as per contract requirements.

Respectfully submitted,

JACQUES WHITFORD AND ASSOCIATES LIMITED
