

PARK ZONING

Dominion Beach

A landuse management tool that allocates park resources based on the importance attached to their protection as heritage resources, and to their capability / suitability for recreational use.

Environment Protection Zone

Park resources that are highly sensitive or contains significant natural or historic resources that require protection. Only interpretative, educational and scientific activities are permitted where they do not conflict with the underlying protection objectives.

Resource Conservation Zone

Contains significant natural, cultural and recreational features and landscapes that require a high standard of conservation. This zone permits activities which do not conflict / or comprise with the inherent natural character and aesthetic qualities of the park.

Outdoor Recreation Zone

Capable of supporting the development of facilities and services associated with a wide range of outdoor recreational activities and more intensive visitor use.
