

Upper Clements Game Sanctuary

This area became a sanctuary in 1977. It is owned by the Province and is also a provincial park reserve. The sanctuary was created to control the use of motor vehicles and to prevent hunting in the vicinity of the Upper Clements Wildlife Park. There have been some changes to the boundaries over the years and the boundaries shown above are approximate. The wildlife park is no longer part of the sanctuary. Hunting and trapping are prohibited, there are restrictions on the use of motor vehicles, and fires are permitted only in areas provided. The land is leased to the Upper Clements Wildlife Park Society.
