

NOTICE

Registration of Undertaking for Environmental Assessment ENVIRONMENT ACT

This is to advise that on August 11, 2015, Envirosoil Ltd. registered a supplemental information report (Addendum) to the Envirosoil Facility: Addition of Stabilization and Solidification Technology Project for environmental assessment, in accordance with Part IV of the *Environment Act*.

Envirosoil is located at 48 Quarrystone Drive (off 927 Rocky Lake Drive) in Bedford, Nova Scotia and has been in operation since 1992. The purpose of the proposed undertaking is to add new stabilization/solidification technology to the Envirosoil facility site to allow treatment of soils impacted with metals and salts. Pending approval, the amendments to the existing facility will allow Envirosoil to enhance treatment capabilities and extend the current operations at their facility. Truck traffic on the site associated with the proposed activities will be generally consistent with current operations.

The purpose of the Addendum is to address the following: the geology under the proposed treated soil fill area; design and treatment safeguard and contingency measures; additional evidence demonstrating that stabilization/solidification technology can manage salt impacted materials; performance testing method for the treated materials; and the proposed water resources monitoring plan has been expanded to address the endangered Atlantic Whitefish (*Coregonus huntsman*).

Copies of the supplemental information report may be examined at the following locations:

- Rocky Lake Pizza, 252 Rocky Lake Drive, Bedford, NS
- Bedford Public Library, 15 Dartmouth Road (Wardour Centre), Bedford, NS
