

## FAST ACTING NATURAL GAS POWER GENERATION ENVIRONMENTAL ASSESSMENT REGISTRATION

This is to advise that on **December 22, 2025**, IESO Nova Scotia (the Proponent) registered the Fast Acting Natural Gas Power Generation Facility – Marshdale (the Project) with Nova Scotia Environment and Climate Change (NSECC) for environmental assessment, in accordance with Part IV of the *Environment Act*. Concurrently, the Proponent registered the Project with the Impact Assessment Agency of Canada (IAAC) for a federal impact assessment screening in accordance with the *Impact Assessment Act*.

The purpose of the proposed undertaking is to construct and operate a fast acting natural gas facility with capacity of up to 300 megawatts with combustion turbines and associated infrastructure (i.e., access roads, substation, buildings, etc.) that will provide electricity to the Nova Scotia electrical grid. The Project is located on property identification number (PID) 00910307, near the communities of Lorne, Hopewell, and Eureka in the Municipality of Pictou County, Nova Scotia. The Project is scheduled to begin construction in 2027 and is expected to be operational for at least 30 years.
