Re: Hwy 101 Cambridge Interchange & Connector Roads – EA Registration

Nova Scotia Department of Public Works (DPW) is pleased to submit the following Highway 101 Cambridge Interchange and Connector Roads Project, Environmental Assessment Registration Document for review by your department. DPW would like to provide clarification on two items:

1. The project is completely Provincially Funded except for Federal contributions through the National Trade Corridor Fund.
2. DPW has not received any environmental concerns from the Mi'kmaq at the time of this submission.

We look forward to hearing your decision on this project.

Yours truly,

Jason Rae, P. Eng.
Manager, Environmental Services
