## Registration of Undertaking for Environmental Assessment ENVIRONMENT ACT

This is to advise that on October 22, 2013, Lafarge Canada Inc. registered the Lafarge Hardscratch Quarry Extension Project for environmental assessment, in accordance with Part IV of the Environment Act.

The purpose of the proposed undertaking is to extend the existing approved Lafarge quarry site along Hardscratch Road in Brooklyn, Yarmouth County, Nova Scotia. The extended quarry will occupy an additional 65 ha of land, of which approximately 42 ha will support quarrying activities, thereby allowing for continued aggregate production for use in local construction projects and asphalt production. Proposed quarrying activities (i.e., blasting, crushing, stockpiling, and hauling), and associated levels of production and truck traffic, will be generally consistent with current quarry operations.

Copies of the environmental assessment registration information may be examined at the following locations:
