A

INDIGENOUS ENGAGEMENT

2022-06-24

Attn.: Shirley Francis
Sipenkne'katik, Assistant to the Chief
522 Church Street
Indian Brook, NS B0N 2H0

Subject: Engagement Opportunity

Dear Chief Michael Sack,

My name is Meghan Marriott, I am a Biologist for WSP Canada Inc. I am writing to you in respect to a proposed quarry expansion in Mt. Uniacke, East Hants, NS. Northumberland Capital Corporation Inc. (NCCI) would like to expand the footprint of its existing quarry, which currently has a footprint of ~4 ha and produces an average of 30-50,000 tons of aggregate annually, to ~40.5 ha over the next 30 to 50 years. The expansion would allow for the continued production and supply of aggregate to the local market.

WSP has been engaged by NCCI to complete the environment assessment for the project. As we acknowledge that the project is on traditional Mi'kmaq territory, we would like to invite members of Sipekne'katik to discuss any questions or concerns they might have about the quarry expansion. We would be happy to meet, either virtually or in person, and we look forward to hearing from you on your preferred approach to engagement should you wish to participate in this process.

Yours sincerely,

A handwritten signature in cursive script that reads 'Meghan Marriott'.

PO Box 1320
Truro, NS B2N 5N2

Subject: Engagement Opportunity

Dear Lorraine Augustine,

My name is Meghan Marriott, I am a Biologist for WSP Canada Inc. I am writing to you in respect to a proposed quarry expansion in Mt. Uniacke, East Hants, NS. Northumberland Capital Corporation Inc. (NCCI) would like to expand the footprint of its existing quarry, which currently has a footprint of ~4 ha and produces an average of 30-50,000 tons of aggregate annually, to ~40.5 ha over the next 30 to 50 years. The expansion would allow for the continued production and supply of aggregate to the local market.

WSP has been engaged by NCCI to complete the environment assessment for the project. As we acknowledge that the project is on traditional Mi'kmaq territory, we would like to invite members and/or representatives of the off-reserve community to discuss any questions or concerns they might have about the quarry expansion. We would be happy to meet, either virtually or in person, and we look forward to hearing from you on your preferred approach to engagement should you wish to participate in this process.

Yours sincerely,

A handwritten signature in black ink that reads "Meghan Marriott".
