

APPENDIX A

ENGAGEMENT

PUBLIC & STAKEHOLDERS

THE SAC

EDITORS CORNER:

Happy Mother's Day to all the mothers out there. One of the hardest but most rewarding jobs that a woman can be bestowed upon. Canada's Mother's Day goes back to **1907** when American school teacher Anna Jarvis organized the first Mother's Day in honour of her own late mother. In 1915, this day also became an official holiday in Canada and Canadians had since then celebrated this special day. By 1914, the day was made official when US President Woodrow Wilson signed a measure declaring Mother's Day to be celebrated on the second Sunday in the month of May. The day has gained popularity throughout North America as well as other parts of the world, although it is not always celebrated in the month of May.

Those of you that still have your mothers, cherish the moments; and those who don't cherish the memories!

Next month, we will be through half of the year, time is sure flying; if I see next month, another

year older. I thank God for my blessings and look forward to what's ahead.

Submitted by: **Mary Desmond, Editor**

CHAPLAIN CORNER:

The Spiritual Food

"We will never be free of the temptations in our lives, but we have been given the power to overcome them – the Holy Spirit" **Matthew 4:14**

This reading is very familiar to us. Jesus has just been baptized by John and now goes into the wilderness to prepare himself by prayer and fasting for his public ministry. Enter the devil! Today, Jesus is being offered pleasure, power, and wealth by the devil. He responds by looking to the Scriptures for his answers. We all can be tempted by some good because no one thinks they are purposely choosing evil. This is a model we can follow as we navigate our way

through life. There will always be the “road not taken” or missed opportunity, but we can always find help along the way as we make decisions. Now, giving in to a candy bar may not be a big deal for most, but continuing to make poor food choices can be. Playing a computer game isn’t a big deal either, unless you are so “hooked” that you are spending money that could be used for food or bills on something that is advertised as “free.” We will never be free of the temptations in our lives, but we have been given the power to overcome them – the Holy Spirit. We only need to ask, and the Spirit will give us the wisdom and strength we need to do the right thing. And if we fail? Well, then Jesus has given us a way back – ask for forgiveness. We pray in the Our Father, “Lead us not into temptation,” but God is there both to help us overcome it as well as to bring us forgiveness when we fail.

Loving God, you have sent your Son as a model for us to follow. Help us to be aware of the things in our life that can lead us away from you. Amen

Submitted by: **Mary Desmond, Chaplain, RCL**

DEACON CORNER:

Someone has asked me; how can you have a relationship with Jesus?

My answer was each person’s relationship with Jesus is a journey all by themselves. Remember in order to establish a relationship with Jesus you will find easy.

Jesus Himself came “to seek and save the lost” (Luke 19:10); He has given the invitation, “come to me, all you who are weary and burdened, and I will give you rest” (Matthew 11:28). He has called for our trust (John 14:1); He has spoken to us as “friends” (John 15:14-15) We see here Jesus is willing to have that relationship with each of us.

When we have a relationship with Jesus it is based on God’s grace that come through faith.

In order to understand let’s look at scriptures, that will give the results we are looking for in having that relationship with Jesus. Ephesians 2:4-5 But God, who is rich in mercy, because of His great love with which He loved us, even when we were dead in trespasses, made alive together with Christ (by grace you have been saved)

(Romans 3:23), (6:23), (John 19:30)

Having a relationship with Jesus is very important and this relationship will result in new life.

I pray that each person who takes the time to read the Deacons Corner will take the time to work at their relationship with Jesus. God Bless.

Submitted by: **Deacon Catherine Hartling**

AFRICAN PROVERBS:

1. A Chattering Bird Builds No Nest
2. Hands Wash Each Other
3. A Person Is a Person Because of Other People
4. You Strike a Woman, You Strike a Rock
5. The Child Who Is Not Embraced by the Village Will Burn It Down to Feel Its Warmth
6. The strength of the crocodile is in the water – people can be very strong in their right environment.
7. He that beats the drum for the mad man to dance is no better than the mad man himself.
8. Knowledge is a garden. If it isn’t cultivated, you can’t harvest it.
9. If you want to know the end, look at the beginning.
10. Trouble does not discriminate. It comes to everyone at some point.

HOUSEHOLD HINTS:

Remove carpet stains with vodka. Rubbing alcohol, clear vodka (which has a lot of cleaning benefits!) and even white wine can be used for this cleaning hack. First blot the stain. Second, pour any type of clear alcohol (rubbing alcohol,

vodka, white wine) onto the stain. This is better than any over-the-counter product.

Eliminate water stains with shaving cream.

Who'd have thought that shaving cream could be used to clean? It is a great way to remove water stains from shower glass. Apply the shaving cream and let it sit for 15 minutes, then wipe off.

Baking soda and vinegar will basically clean the tub for you. [Mix] one cup vinegar, half a cup of baking soda with hot water and pour into [an empty] tub and allow to sit for five minutes. Start filling the tub with hot water until it is approximately one-quarter filled, and let it sit for an additional five minutes. Then drain and rinse thoroughly.

A DIY aromatherapy cleaning solution for shining sinks and tubs. Getting your sink or tub to shine by mixing baking soda, drops of lemon and basil essential oils and dish soap. Sponge the mixture on the surface of your bathtub and bathroom sink for 10 minutes. After rinsing off with water, [they] will be glistening.

Steam the microwave with lemon oil.

You can also use essential oils to clean the microwave.

"Add 15 drops of lemon essential oil into one and a half cups water to a microwave-safe bowl, and microwave on high for five to 10 minutes, allowing the steam to condense on inside walls/ceilings of your machine. Once complete, simply wipe away the softened food with a sponge.

DIY Glass Cleaner

If you don't feel like running to the store for more glass cleaner, making your own is easy. Mix white vinegar, distilled water, drops of essential oil and shake. This is an affordable and easy way to clean your windows, mirrors or even shower doors if you're in a pinch.

Baking soda for a hands-off stovetop scrub

Hails baking soda as a favorite stove-top cleaner.

Just pour it on, sprinkle with water, let sit one hour and wipe.

Remove pet hair with rubber gloves

When your standard vacuum doesn't seem to get all your pet's hair, rubber gloves will get the job done. Just slide them on and rub down any areas that need extra cleaning. When rubber is pushed against fabric, it can generate elasticity to gather remaining pet hair. Rinse the gloves under running water when you're done and the hair will unstick.

Eliminate foul odors from upholstery

Wiping out pet smells and other odors from the upholstery by combining vinegar, water, and your favorite essential oil (he vouches for lavender). Furniture is often the culprit behind persistent unpleasant smells in the home, as upholstery often retains odors. Pre-test the solution on an inconspicuous location and allow to dry to test for colorfastness before using on the rest of the upholstery. If all is good, then spray the mixture on the rest of the upholstery, and once dry, vacuum the area.

Spruce up the mattress with baking soda & vinegar

It's important to clean your mattress often to avoid dust mites, dead skin cells. For stain removal especially, try spraying the mattress with vinegar and sprinkle baking soda over the top. You can place a towel over the area and let it sit for one to two hours. Then take your vacuum and go over the mattress for a final clean.

HEALTH CORNER:

CMHA – Mental Health Week

May 1 – 7, 2023

THEME: MY STORY

Collectively and individually, we have multiple layers and stories that make us who we are and

while each year 1 in 5 Canadians experience a mental illness or mental health issue, 5 in 5 of us – that’s all people – have mental health. We all have different, yet equally valuable stories which can be used to share one key message: universal mental health care is important and needed now!

CMHA National will shine a spotlight on community-based mental health care champions, programs and communities while showcasing the importance of securing universal mental health care, what it can look like and how mental health care can be expressed and nurtured (i.e., art, photos, music, sounds, dance, movement, nature etc.). We encourage you to share your story by using hashtag #MyStory & #MentalHealthWeek to shine a light on your personal journey, a program you offer, how your community supports the mental health of others etc. Branded assets, and a CMHA toolkit, will be available to support your storytelling.

National Nursing Week 2023

May 8-14, 2023: The National Nursing Week annual celebrations take place from the Monday to the Sunday of the same week as Florence Nightingale’s birthday, May 12.

The theme this year is **Our Nurses. Our Future.** This theme showcases the many roles that nurses play in a patient’s health-care journey. The pandemic brought to light the courage and commitment that nurses work under every day and showed the important role that nurses play in the community.

The week draws attention to nurses, increasing the awareness

of the public, policy-makers and governments of the many contributions of nursing to the well-being of Canadians.

In 1971, [ICN](#) designated May 12, the birthday of nursing pioneer Florence Nightingale, as International Nurses Day. In 1985, CNA members passed a resolution to begin negotiations with the federal government to have the week containing May 12 proclaimed as National Nurses Week annually. Soon after, the federal minister of health proclaimed the second week of May as National Nurses Week. In 1993, the name was changed to National Nursing Week to emphasize the profession's accomplishments as a discipline.

Use #IKnowANurse to share stories of exceptional nurses because everyone knows a nurse who has left a lasting impression!

Happy Nurses' Week!

BIBLE TRIVIA:

1. How many poems are included in the Book of Psalms?
2. What was stored inside the Ark of the Covenant?
3. How many of the apostles were fishermen?
4. Who is known as 'The Weeping Prophet'?
5. Which book introduces the Four Horsemen of the Apocalypse?
6. Where did Noah's Ark land?

7. What was the name of Jacob's only daughter named in the book of Genesis?
8. What did John the Baptist's father want to name him instead of John?
9. What was the name of the prophetess that the Holy Family met when presenting Jesus at the temple?
10. In what town was Jesus baptized?

THOUGHT OF THE DAY:

"Courage is not having the strength to go on; it's going on when you don't have the strength."

*Always remember
You Are
Braver *than you believe*
Stronger *than you seem*
Smarter *than you think*
& Loved *more than you know*
Never Never Give Up*

CHILDREN'S JOKES/RIDDLES:

1. Why was the math book sad? It had a lot of problems.
2. What did the paper say to the pencil? Write on.
3. Why did the student eat his homework? Because his teacher said it was a piece of cake.
4. Where do pencils come from? Pennsylvania.
5. What do kids do during recess on rainy days? Play bored games.

6. Why don't science teachers trust atoms? Because they make up everything.
7. How did the student feel when he learned about electricity? Totally shocked.
8. Why did the bikes get detention at school? They spoke too much.
9. Why couldn't the music teacher start her car? Her keys were on the piano.
10. Why didn't anyone want to eat next to the basketball team? Because they dribble too much.

TONGUE TWISTER:

"Black background, brown background." Say x5 " times
"Which witch switched the Swiss wristwatches?"

SICK AND PRAYER LIST:

We reach out with our prayers and thought to our sick and shut-ins that are in the hospitals, nursing homes, and those who remain at home. May the Good Lord bless and keep you. Let Him wrap His healing arms around you that you may know that you are not alone. Let us not forget, there is nothing He cannot and nothing He cannot heal. He had raised the dead and healed all sicknesses, and He can bless you too. Just believe! God Bless! God is still in the healing business. May the peace, comfort and healing be with you and your family. If we missed anyone let us know and we will gladly add them to next month's prayer list.

CONDOLENCES:

On behalf of all our readers, we wish to extend our deepest condolences to the families and friends of the late Steve Pelly, the late James Desmond and the late Lloyd Houston. Our prayers and thoughts are with you during such difficult times. Look to the Lord, He will provide you the Comforter and peace shall come. God Bless.

NEWS FROM YOUR COUNCILLOR:

The prize bingo fundraiser went very well; and we raised \$259.00 for Christian Gerro to go to the Special Olympics in Berlin Germany. I was so glad

to be a part of the team to assist in the community fundraiser. We wish Christian all the best and we know that he is a winner even before he leaves.

The Upper Big Tracadie Seniors Action Club held their regular monthly meeting and prior to their nutritious meal, members completed the follow-up feed back of the prototype ideas that were generated during their community consultations. The Club received notification that funding will be made available for Canada Day Celebration for 2023. The Upper Big Tracadie would like to acknowledge the Minister of Canadian Heritage.

I was privilege to attend the Circle of Support and Change on April 21st and perform an ancestral African Libation for the participates. It is great to share our culture with others and

for them to participate in one of the different forms of libations, for many it was a first-time experience.

Also, held our quarterly Senior's Council #63 meeting at the St. Andrew's which was hosted by the St. Andrews Oak and Owl Seniors Club. There were 72 seniors in attendance which was so nice to see after a year of absence due to Fiona and the ice storm. We want to give a tremendous thank you to our Out-going Treasurer Shirley Davidson for her hard work and dedication to the Council and wish her all the best. We, congratulate our new treasurer, David Johnson and we know that he will a great asset and will rise to the challenge. As president of the Antigonish/ Guysborough Seniors Citizen's Council #63, it was truly nice to see all our seniors back in the swing of things, out with our clubs enjoy fellowship and laughs with each other. Next meeting in September at the Canso Shamrock Senior Citizens Club.

Event: Community Information Session:

EverWind Fuels MODG Wind Project

Monday May 15, 2023, 2-5pm at Lincolnville Community Hall

Please join us for a Community Information Session!

EverWind is seeking input from residents of MODG about a proposed wind farm development which will power a green hydrogen and green ammonia facility at Point Tupper. A best-in-class green energy project, the Point Tupper facility is on track to become Atlantic Canada's first green ammonia

production facility in 2025, unlocking the potential of Nova Scotia's green economy.

We will have project team members on site to listen to your feedback and answer any questions you may have about the project or the environmental studies that will take place in the coming months. Please email info@everwindfuels.ca with any questions about the event or project.

The event is free and open to everyone, and light refreshments will be available.

POP-UP OFFICE:

The Honorable Greg Morrow will be holding a pop-up office in the African Nova Scotian community hall in Monastery on May 15th from 9 – 1 pm. If you have any questions or concerns, drop-in and say hello at the Tracadie United Baptist Community Center.

Greg Morrow MLA Guysborough-Tracadie

UBT SAC:

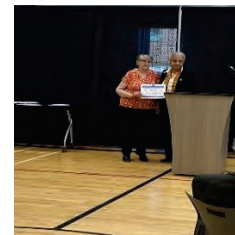

The Upper Big Tracadie Seniors Action Club has been recognized by the Municipality of the District of Guysborough during the Volunteer Recognition Ceremony on April 29, 2023, at the Chedabucto Lifestyle Complex. The organization had taken on the challenge of food insecurity and has made a huge difference within the communities of Guysborough. The club also installed two roadside libraries during COVID when closures of schools and libraries occurred, to combat literacy, to assist students and seniors. The organization continued distribution of hot meals to seniors, activity

bags and emergency bags during Fiona. The organization keep seniors active physically, mentally, and emotionally throughout the year. The UBT Seniors Action Club submitted the application on behalf of the organization because ALL the members are volunteers and do a wonderful job in different capacities and deserve equal recognition. Terri Fraser received the certificate on behalf of the organization. Also, Edna Desmond received the Volunteer Recognition Certificate on behalf of the Tracadie United Baptist Church Ladies Auxiliary for her volunteer as secretary and card conveyer.

Congratulations to the Upper Big Tracadie Seniors Action Club and Edna Desmond for their hard work and dedication as volunteers.

Mary Desmond & Terri Fraser

Guysborough District RCMP – May 2023

Spring is finally in the air and temperatures are slowly getting warmer! We hope everyone had a safe winter and is enjoying the beginning of spring. We also wanted to make everyone aware of a guide for senior safety that is available on the RCMP website.

Senior Safety

Canada's senior population is ever increasing, and the abuse of elderly persons is a growing concern throughout Canadian society. Elderly persons are often reluctant to report their victimization for a variety of reasons. RCMP National Crime Prevention Services work in partnership with many other agencies to increase public awareness of elder abuse and to educate our front-line officers on this very important issue.

The RCMP's [Seniors Guidebook to Safety and Security](#) provides information for seniors, their

- Forms, types and definitions of abuse
- Safety and security concerns
- Prevention tips
- Additional contacts

Anyone can download the guidebook from the website [Seniors Guidebook to Safety and Security | Royal Canadian Mounted Police \(rcmp-grc.gc.ca\)](#).

If you don't have a computer or internet connection, just give the Guysborough Detachment a call and we would be more than happy to have one of the local officers drop by with a printed copy for you.

ARTS & CULTURE

Festival Antigonish Summer Theatre Brings Exciting 2023 Season Back to the Bauer

ANTIGONISH – Festival Antigonish Summer Theatre has announced its 2023 season, featuring a diverse lineup of productions that are sure to entertain and inspire audiences of all ages and tastes.

Between July 5 and Aug. 26, 2023, Festival Antigonish Summer Theatre will present a wide range of shows, including comedies, youth theatre and an innovative musical. The season kicks off with the hilarious comedy *The New Canadian Curling Club* by Canadian playwright Mark Crawford, followed by our Theatre for Young Audience's world premiere of Canadian Black playwright

Kalale Dalton-Lutale's *The Adventures of the Little Girl and the Wind*. The season will wrap up with the immensely popular whodunnit *Murder for Two* written by Kellen Blair and Joe Kinosian.

THE NEW CANADIAN CURLING CLUB BY MARK CRAWFORD
July 5 – 21:

A Chinese medical student, a Jamaican Tim Horton's manager, an Indian father of three and a 17-year-old Syrian refugee walk into a curling club. It is Monday night at a small-town rink, and it is the first-ever learn to curl class for new Canadians. The club's icemaker, Stuart

MacPhail — reluctantly steps in as head coach, but the trouble is, Stuart has plenty of opinions about immigrants. What follows is the hilarious and inspiring story of a group of unlikely athletes who face off against local prejudice and become a true team.

THE ADVENTURES OF THE LITTLE GIRL AND THE WIND BY KALALE DALTON-LUTALE
July 27 – Aug. 4:

It's bedtime — the time when monsters show up under the bed. The Little Girl's Mom used to tell stories to keep The Shivers away, but now she must find her story. When she learns that the Wind can make her brave, she sets out on an adventure to find it, encountering an odd assortment of creatures — including curious beetles and a lazy unicorn — along the way. Will she find the wind, and her courage? A wonderful world premiere on our stage this summer.

MURDER FOR TWO BY KELLEN BLAIR AND JOE KINOSIAN
Aug. 11- 26:

Officer Marcus Moskowicz is a small-town police officer with dreams of making it to detective. One fateful night, shots ring out at a surprise birthday party and the Great American Novelist Arthur Whitney is killed... fatally. Marcus jumps at the chance to prove his sleuthing skills. But whodunnit? Dahlia Whitney, Arthur's scene-stealing wife? Barrette Lewis, the prima ballerina? Dr. Griff, the overly friendly psychiatrist? Some other peculiar party guest? Two performers play 13 roles — and the piano — in a witty homage to old-fashioned murder mysteries.

Other highlights of the 2023 season include two special concerts. The Festival Antigonish Kitchen Party kicks things off on July 29 at 7:30pm. Then, on Aug. 4 at 7:30pm, welcome Antigonish's own

Cassie and Maggie. From the deepest roots of Canada, and its very earliest musical traditions, come Nova Scotian sisters Cassie and Maggie, putting their stamp on the Celtic soundtrack of our nation. Exciting and innovative, their talent is surpassed only by the sheer joy they exude in performance. Alternating between Gaelic and English, traditional and contemporary, haunting, and electrifying, the duo is nothing short of mesmerizing.

"The last few years have been interesting, to say the least," said Andrea Boyd, artistic director of Festival Antigonish Summer Theatre. "At long last we are coming home to the Bauer for our entire summer season. These plays are funny, diverse, meaningful, and musical. We can't wait to share them with you, in the comfort of our theatre home."

Festival Antigonish Summer Theatre has been entertaining audi-

ences for more than three decades and is renowned for its high-quality productions, engaging storytelling, and talented performers. This year promises to be no exception, and audiences can look forward to a summer filled with laughter, music and unforgettable theatre experiences.

SPORTS & LEISURE

Volunteer efforts ensure beauty of Chapel Gully Trail continues to be enjoyed by all

Trail bridge named for tireless volunteer Wayne Sullivan

By Corey LeBlanc

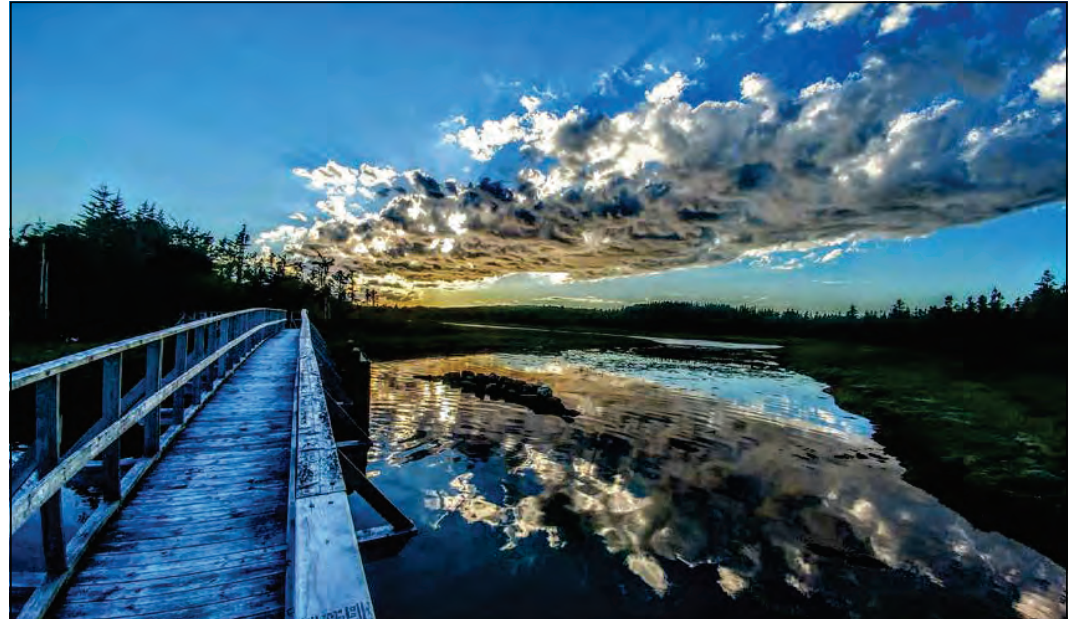

CANSO — What's in a name? That which we call a rose by any other name would smell just as sweet. Those lines from William Shakespeare's *Romeo and Juliet* are interpreted as conveying the message that naming things is irrelevant.

That may be true in some cases, but not when it comes to a popular — and essential — part of an attraction that draws people from near and far to this seaside community.

Sullivan's Bridge spans the water along the Chapel Gully Trail, which is developed and maintained by the Eastern Tips Trails Association (ETTA) — an organization made up of dedicated volunteers. One of the shining stars in that galaxy of contributors over the years — Wayne Sullivan — is the person honoured by that moniker.

"He is like a machine," Susan O'Handley — ETTA secretary — told *The Journal*.

Noting that Sullivan's hands-on contribution to building and maintaining the trail has saved the organization countless dollars, she said it is not an exaggeration to credit the local senior for doing 99 per cent of the "physical work" on the trails, such as spreading gravel and maintain the walkways, along with mowing, clearing, repairs and new builds.

There are plenty of breathtaking views along the Chapel Gully Trail, including as users cross Sullivan's Bridge, a span named in honour of long-time and tireless Eastern Tip Trails Association (ETTA) volunteer Wayne Sullivan. Burns Anderson

She added, "And, Wayne rarely asks for help," other than when something is too heavy or awkward for one person to move.

O'Handley noted that ETTA and the community are "eternally grateful" for his contributions.

"This would not be the #1 thing to do in Canso without Wayne's commitment and dedication," she said.

A sign emblazoned with 'Sullivan's Bridge' is the creation of a woodworker, part of a couple

that frequently travels the trail.

"It couldn't have been more fitting," she said of having the bridge bear the diligent volunteer's name.

IN THE BEGINNING

Since it welcomed its first visitors to Wilmot St. in Canso in 1996, the ETTA has been "blessed with a core group" of volunteers that have been dedicated to fundraising,

One of the picturesque spots where people can take a break and enjoy the view along the Chapel Gully Trail. Burns Anderson

You're Invited!

Guysborough Wind Farm Open Houses

EverWind Fuels would like to invite you to our upcoming Open Houses to learn more about the proposed renewable energy initiatives, environmental considerations, and benefits for communities.

To learn more about our projects, we invite you to stop in to one of our open house information sessions this May.

May 28, 2024	10-1pm	Boylston Community Center 11728 Hwy 16, Boylston
May 28, 2024	3-7pm	Lincolnville Community Hall 88 Lincolnville Loop
May 29, 2025	3-7pm	Chedabucto Lifestyle Complex Community Room 60 Green St, Guysborough
May 30, 2024	3-7pm	St. Francis Harbour Hall 4830 Hwy 344, St. Francis Harbour

Questions on your mind? Feel free to email us at:
guysboroughwind@everwind.ca

We're eager to connect and provide you with the information you need.

Student rides academic wave

Continued from 8

of time "shadowing" officers and working with deckhands.

As summarized at nsc.ca/programs, mandatory sea time "provides students with the opportunity to put their skills and knowledge into practice," with the TC-required 360 sea days completed from April to August during their diploma studies.

Also, during those three years, students study the major principles of marine navigation, seamanship, meteorology, ship construction and stability, while preparing for a career as a ship's navigation officer.

To receive their NSCC diploma, cadets must maintain a 90 per cent attendance standard, while also achieving a pass mark of 70 in marine subjects and 60 in academic ones.

The marine navigation program prepares students for careers as ship navigation officers in the commercial marine industry, providing training in areas such as watch keeping practices, seamanship, safety and communications.

It also provides the necessary academic and applied skills training to become an entry-level deck officer under International Maritime Organization standards.

RETURNING THE FAVOUR

Although he will continue a busy schedule fishing with his grandfather this summer, he told *The Journal* that has was taking some time to help host their German counterparts that were scheduled for arrive on May 27.

While here, Myatt will be one of the guides for

a tour of the Northumberland Ferries ship that travels the Northumberland Strait between Caribou, Nova Scotia and Wood Islands, P.E.I.

"I am really familiar with it," he said, noting he served as a cadet on the vessel last summer.

As for his time on the ship that connects the two Maritime Provinces, he described it as "extremely busy."

He added, "But, I really enjoyed it."

As a cadet, working with the deckhands, there were plenty of "odd jobs," such as painting, along with tasks, such as directing traffic and tying up the ship. While with the mates, he carried out navigational duties; not to mention operating the ship, once the captain got it in and out of port. Keeping watch – when it came to collision avoidance – along with loading the ship were also mate-related tasks.

Myatt agreed that teamwork is a key component of the field.

"And, you have to learn how to lead a team," he noted.

Baxter noted that the German visitors will be treated to "big ship stuff" during their time at the Strait Area Campus, including time with the engine room simulators housed at the NSCC's marine institute. There will also be time spent in the fire school and at the wade pool.

There are also plenty of off-campus adventures planned.

'VERY BRIGHT FUTURE'

As for the future, Myatt – who has targeted the offshore as a place to launch his career – has high aspirations, including becoming a captain.

Nothing his student's

passion, Baxter said he has a "very bright future."

He added, "Brent can have the best of both worlds," of having the opportunity not only to work in the industry but also continue his beloved fishing with his grandfather.

Describing him as "incredibly mature and well-spoken," Baxter noted that Myatt represented himself, his program and school "extremely well."

As for how his NSCC experience has been a key to helping reach his career goals, Myatt said, "I would recommend it to anybody."

He added, "It has been everything that I wanted."

Brent Myatt (seated) controls the steering for one of the harbor tour boats during his recent visit to Hamburg, Germany. The Canso native was part of a contingent from the marine navigation technology program at the Nova Scotia Community College Strait Area Campus in Port Hastings. The group that hosted Myatt and his colleagues are in the region on a return visit. Contributed

Community Information Session

Recognition of the Mi'kmaq & their Ancestral Territory

EverWind Fuels understands there is no project without the support, involvement, and expertise of Mi'kmaw communities. Their voice is critical to the project's success. We have and will continue to consult and engage with Mi'kmaw communities and organizations. We acknowledge the ancestral and unceded territory of the Mi'kmaw people, and we acknowledge them as the past, present, and future caretakers of this land, Mi'kma'ki.

EVERWIND
F U E L S

EVERWIND

F U E L S

EverWind Fuels LLC is a developer of green hydrogen and ammonia production, storage facilities, and associated transportation assets.

The EverWind Fuels team is comprised of over 70 employees, mostly from the local community, who are further supported by full time contractors and consultants.

We are developers, owners, and managers with experience in almost every infrastructure sub-category in North America, and a track record of success and delivering socially and environmentally responsible developments for all of our stakeholders.

How Hydrogen is Made

Hydrogen is the most common element found in nature, but it is only ever found combined with other elements. To produce pure hydrogen, you simply need to extract it from other compounds. Hydrogen can be extracted from hydrocarbons like coal or natural gas ("hydro" stands for hydrogen), but in doing so, carbon is released into the atmosphere (Grey Hydrogen).

HOW HYDROGEN IS PRODUCED TODAY

Grey Hydrogen

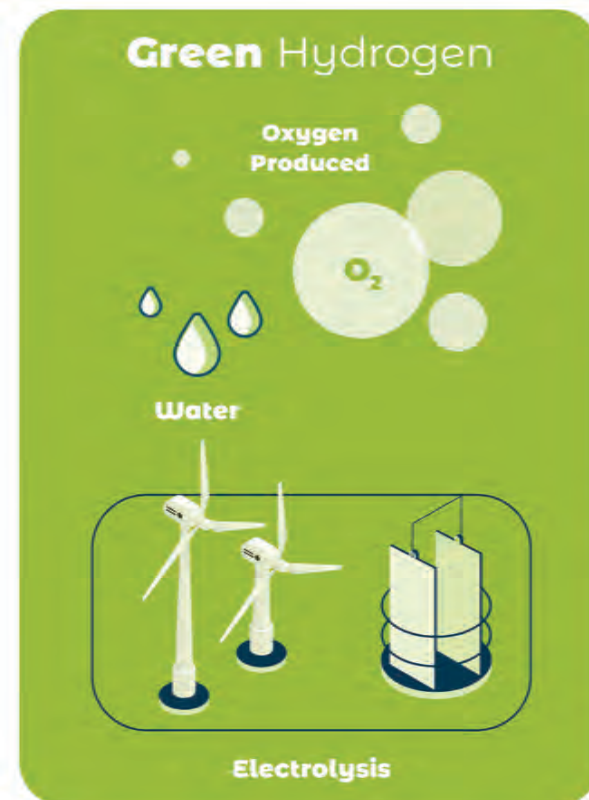

HOW HYDROGEN WILL BE PRODUCED IN THE NEAR FUTURE

Blue Hydrogen

80% - 90%
Capture

Green Hydrogen

However, it is now possible to capture most of the carbon before going into the atmosphere and store it underground (Blue Hydrogen). Hydrogen can also be extracted from water (the "H" in "H₂O" stands for hydrogen), using electricity (electrolysis). Once the hydrogen is extracted, the O₂ (oxygen) is returned to the air. If the electricity used is from renewable sources (e.g. wind), you have green hydrogen.

Green Hydrogen & Ammonia Uses

Green Hydrogen / Ammonia are keys to transitioning to a net zero world and have a number of uses

Hydrogen

• Transportation

- Passenger cars
- Transport trucks
- Trains
- Shipping Vessels
- Planes

• Electricity generation [fuel for power plants]

• Chemical for Industrial Processes

Ammonia

• Agricultural Fertilizer

• Industrial Refrigerant [i.e. cold storage facilities, ice rinks, etc.]

• Shipping Vessels [requires significant venting – so not suitable for other transportation applications]

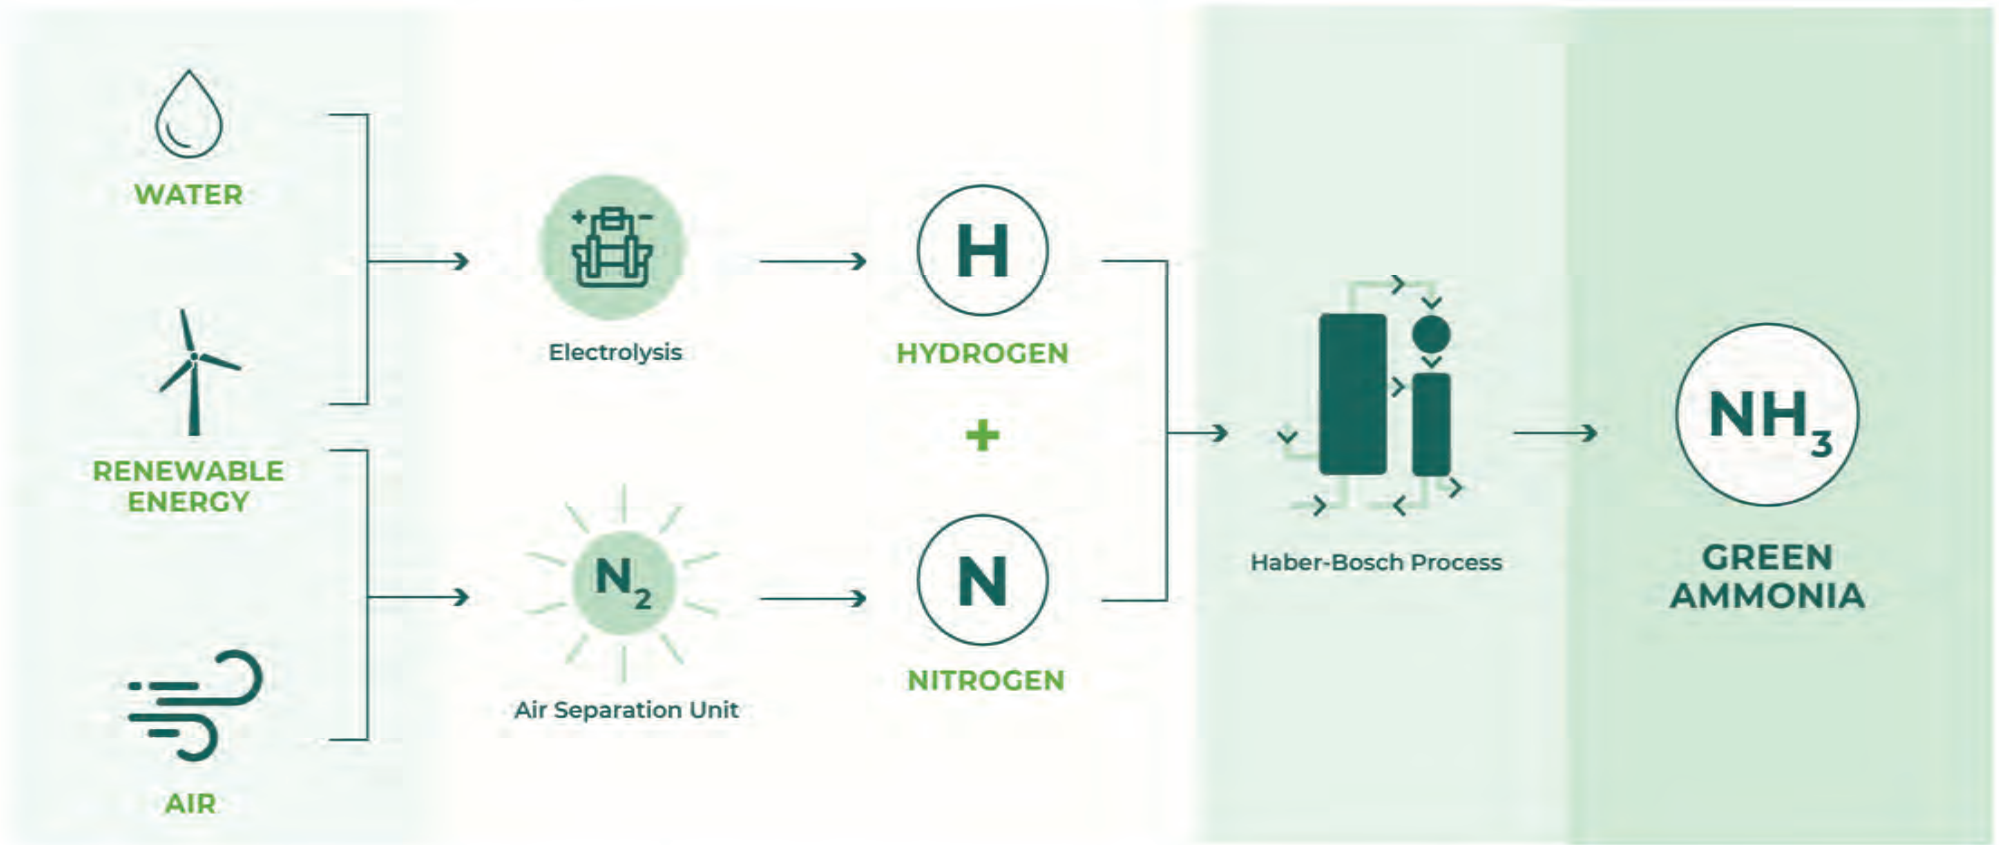

• Electricity generation [fuel for power plants]

• Chemical for Industrial Processes

Creation of Green Hydrogen / Green Ammonia

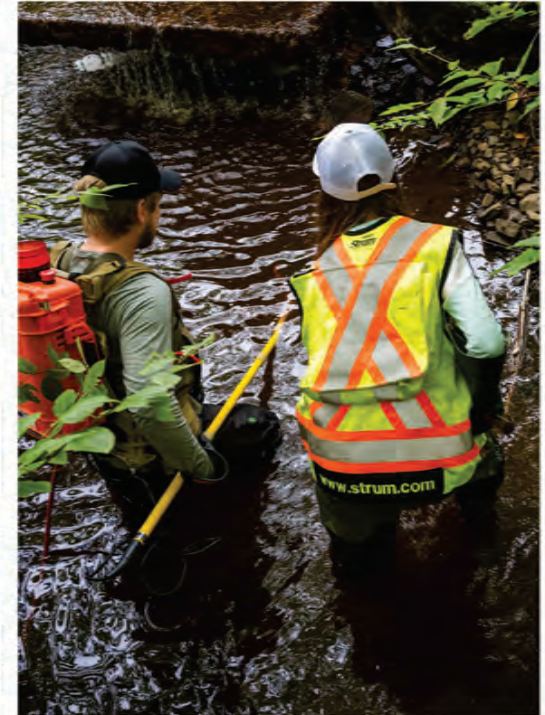

- Electricity from renewable wind energy used to produce hydrogen from water through electrolysis
- Nitrogen is collected from the air
- Hydrogen is combined with nitrogen to produce ammonia (Haber-Bosch process)
- Green process which generates no CO₂

Environmental Assessment

The project is submitting to the province's rigorous **Environmental Assessment and Approval process (EA)**, which includes a comprehensive analysis of the potential environmental impacts of the project.

Strum Consulting is successfully guiding the process and conducting a series of detailed studies including:

- Wetlands and Watercourses Surveys
- Vegetation and Habitat Surveys
- Bird and Bat Surveys
- Moose Surveys
- Sound and Visual Assessments
- Electromagnetic Assessments
- Archaeological Assessments
- Telecommunication Assessments

Environmental Monitoring

As part of the survey process, specialized equipment is used to help ensure we have comprehensive environmental information.

Avian Radar

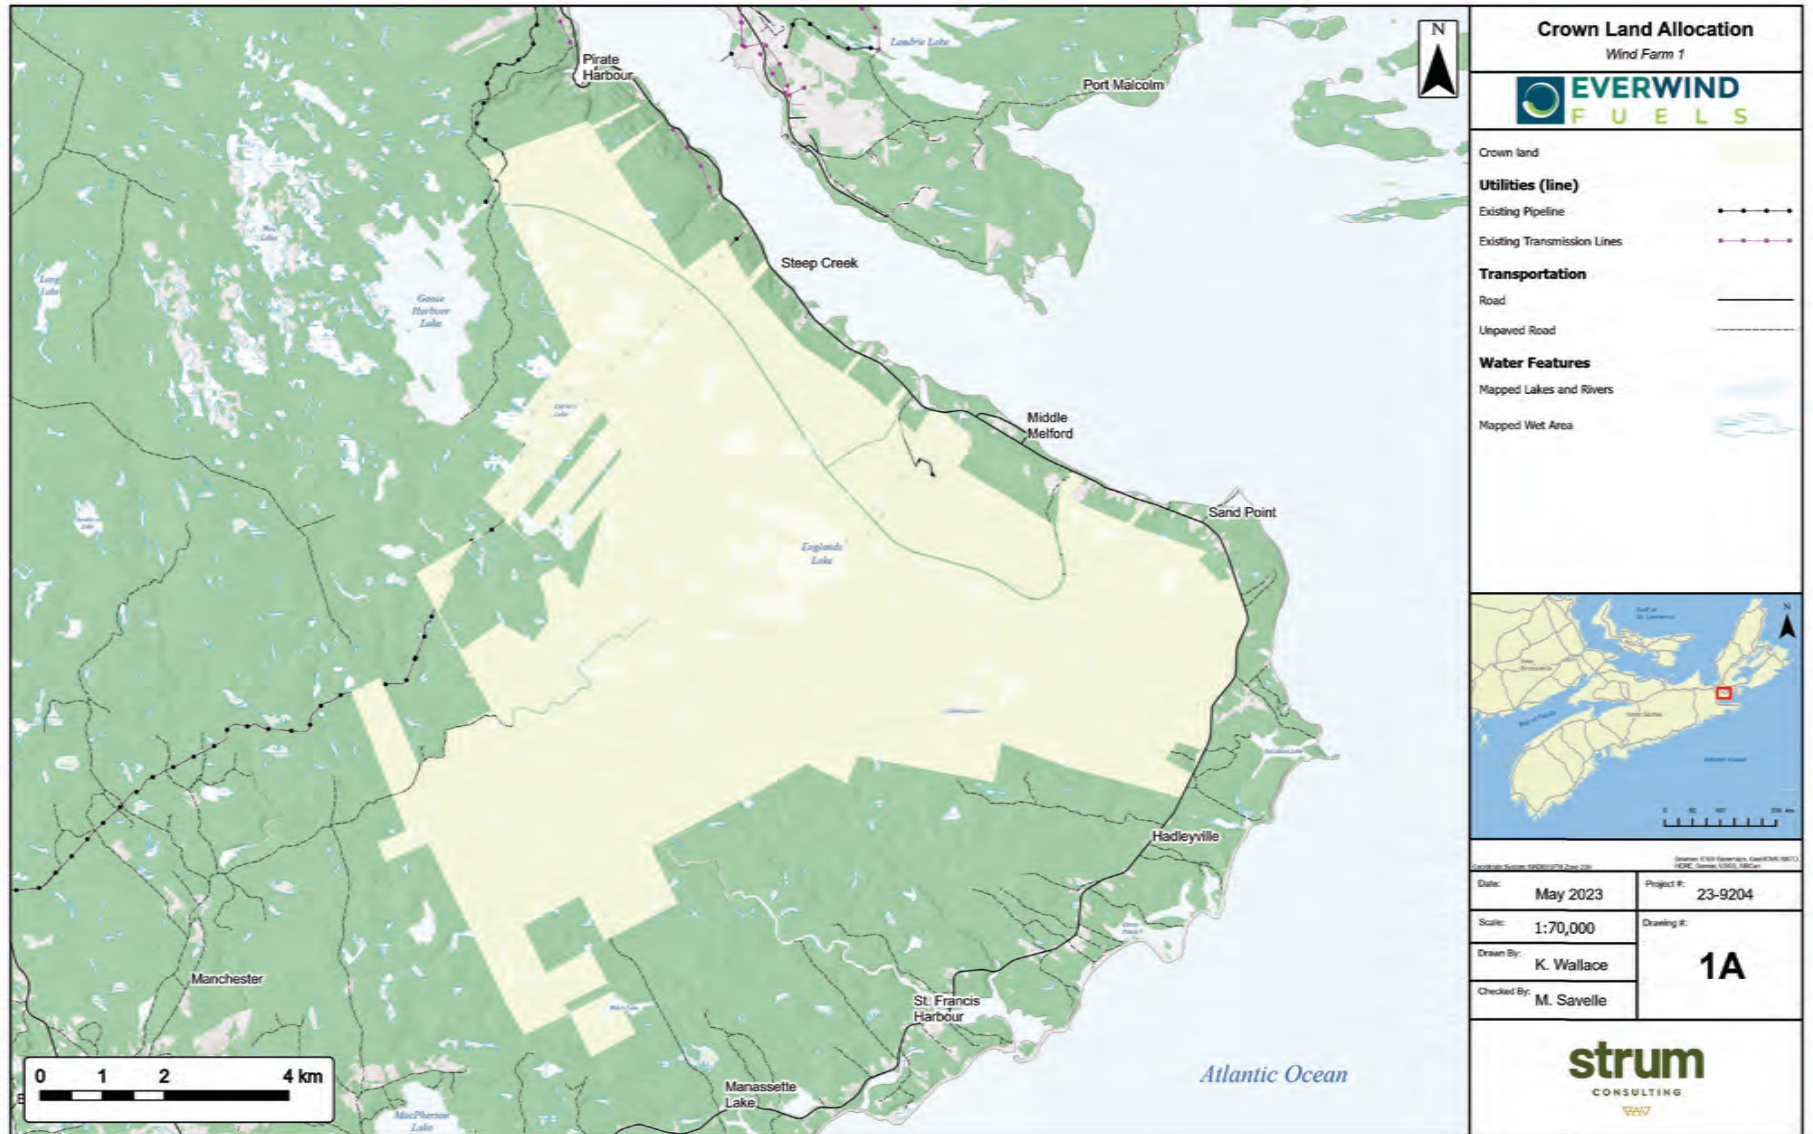

Bird and bat movement data is logged by an avian radar system, providing information for trend assessments and identification.

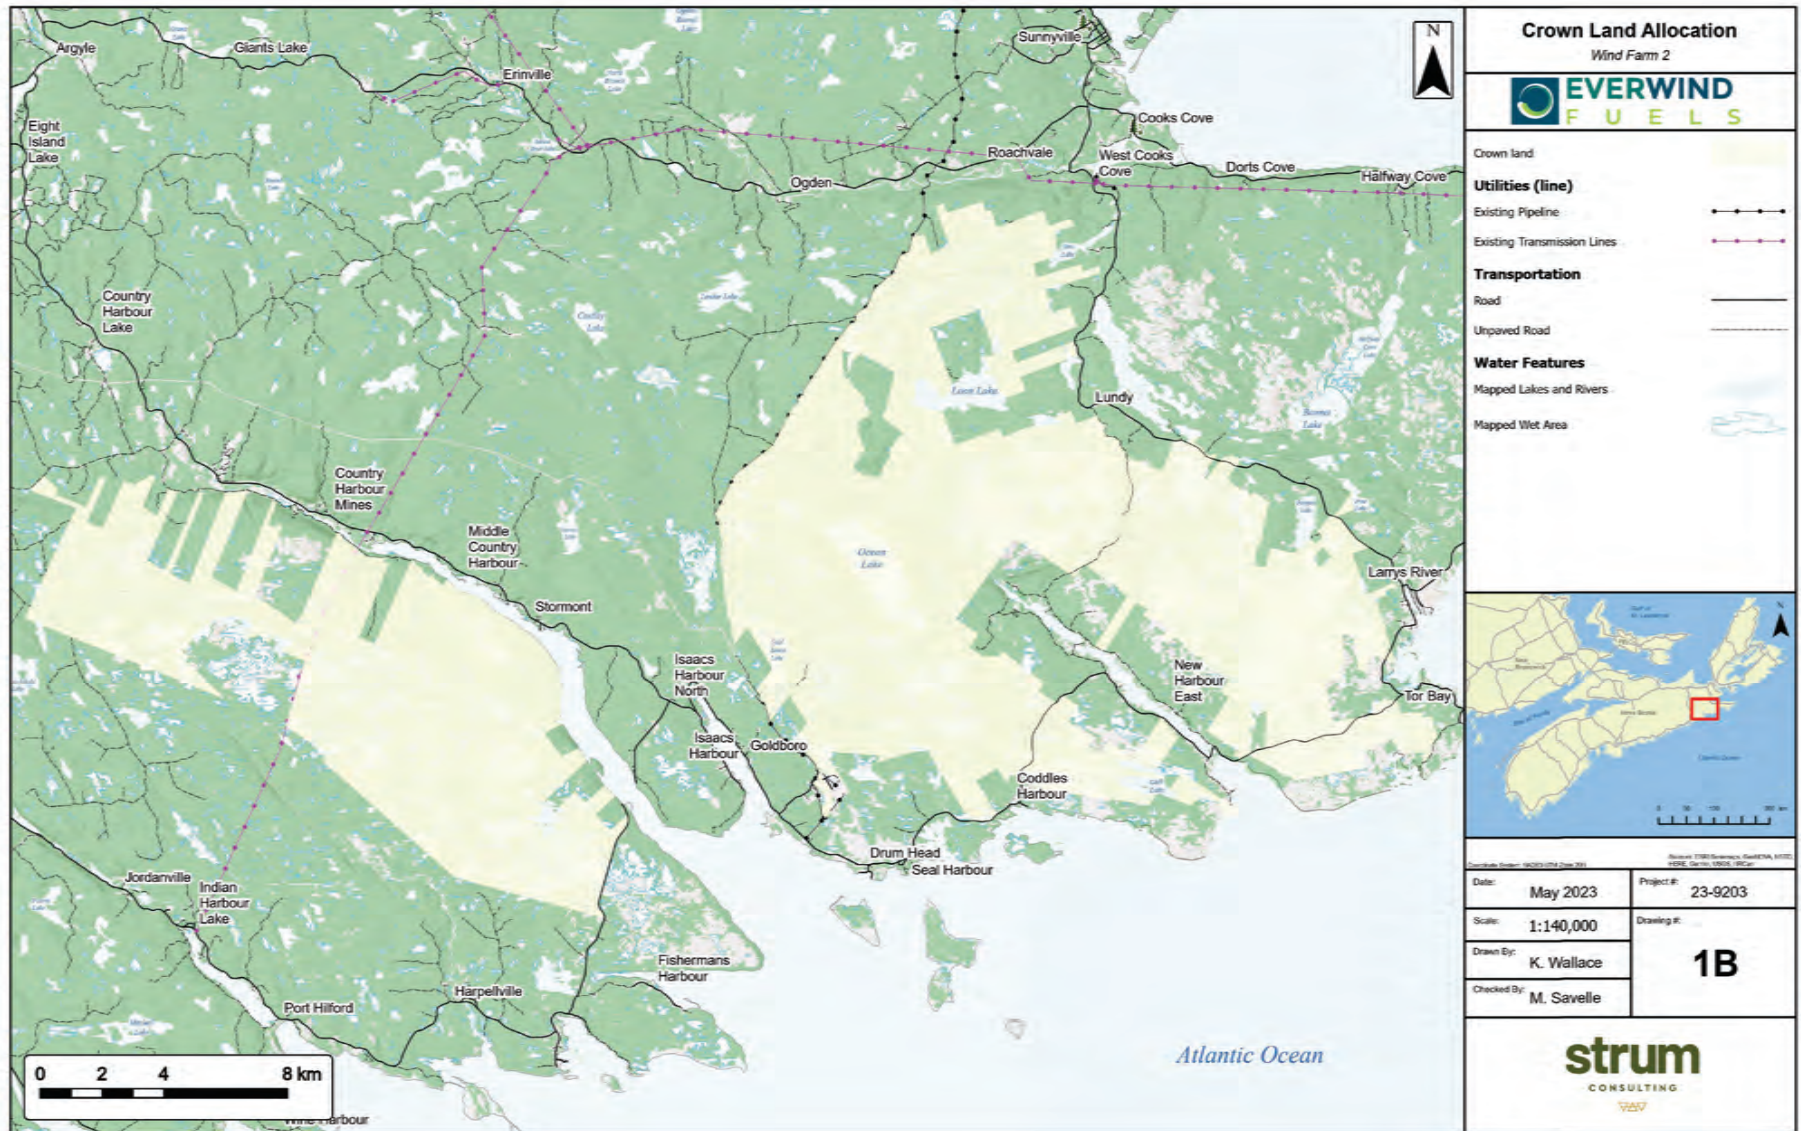

Meteorological (MET) Tower

- MET Towers are temporary structures designed to collect weather-related information, such as wind speed, wind direction, and temperature.
- MET Towers are unassuming in the landscape. Each METBTower requires just a 100m buffer. Any impact on the surrounding area is minimal.
- MET Towers have a concrete base with guy-wires for support. The wires typically extend 60 metres in 3-4 directions from the tower.
- Each MET Tower has a permit application approved by the Government of Nova Scotia.
