NOTICE

Registration of Undertaking for Environmental Assessment ENVIRONMENT ACT

This is to advise that on November 12, 2026, West Bay Wind Inc. registered the West Bay Wind Project for environmental assessment in accordance with Part IV of the *Environment Act*.

The purpose of the proposed undertaking is to construct and operate a wind energy project consisting of up to 25 wind turbines, with a maximum Project capacity of 150 MW. The wind turbines may be up to 232 m tall to the blade tip, with individual turbine capacities of up to 7.0 MW.

The Project is situated on the ancestral and unceded territory of the Mi'kmaq people, in Cumberland County. It is located approximately 9 km northwest of Parrsboro, NS. The project will also include a transmission line, electrical collector lines, a substation, switchyard, access roads, and temporary laydown areas. The proponent intends to begin their initial construction phases of the Project in the second half of 2028, and it is expected to reach commercial operation by the end of 2030. The Project is expected to operate for at least 25 years, with the potential for continued operation beyond this period.

Paper copies of the Environmental Assessment Registration Document may be examined at the following locations:
