

APPENDIX L
COMMUNITY ENGAGEMENT

Community Wind Farms Inc.
... working with communities across Atlantic Canada

The Confederacy of Mainland Mi'kmaq (Main Office)
PO Box 1590 (57 Martin Crescent, B2N 6N7)
Truro, NS B2N 5V3

October 3, 2012

To whom it may concern,

We are writing to inform you of the on-going plans for the Whynotts Community Wind Project located in the Municipality of the District of Lunenburg. Kwilmu'kw Maw-klusuaqn (KMK) is currently proposing the development of a wind energy generation facility located in the community of Whynotts Settlement, approximately 5 km northeast of the Town of Bridgewater, in Lunenburg County, NS. The 98.7 hectare parcel of land is privately owned and is bound by Highway 103 and Mullock Road to the northeast, Highway 325 to the west, Whynacht Road to the southeast and Leary Fraser Road to the southwest (site plan attached). The Project coordinates are 44o24'20"N, 64o28'11"W.

The Project will consist of two wind turbines generating a total capacity of 4 megawatts. A Nova Scotia Power Incorporate (NSPI) transmission corridor is situated in a northeast-southwest orientation throughout the centre of the Project site. The two proposed turbines will be connected to the existing distribution system.

Currently, the Whynotts Community Wind Project is in the assessment and planning stages. As part of the development process, an Environmental Assessment (EA) is currently in progress to determine and mitigate any effects of the Project on the environment and local interests. Baseline studies being conducted as part of the EA process consist of:

- Birds, bats, and general wildlife;
- Plants and wetlands;
- Watercourses and fish habitat;
- Groundwater and geology;
- Sound and shadow flicker;
- Visual aesthetics;
- Cultural and heritage resources;
- Socio-economic conditions and human health; and
- Mi'kmaq Ecological Knowledge Study.

Community engagement is an integral part of this process and all those interested in the Project are encouraged to become involved and provide feedback. We would like to invite members of the Mi'kmaq First Nations to participate. If you have any questions, suggestions, or concerns, feel free to contact the undersigned at (902) 527-3158 or by email at keith@communitywind.ca.

Sincerely yours,

Keith Towse
