THESES

Adams, P.J., 1986

A Depositional and Diagenetic Model for a Carbonate Ramp: Iroquois Formation (Early Jurassic), Scotian Shelf, Canada. M. Sc. Thesis, Department of Earth Sciences, Dalhousie University, Halifax, Nova Scotia.

Bowman, S.J., 2010

Cretaceous Tectonism and Volcanism in the Eastern Scotian Basin, Offshore Nova Scotia. M.Sc. Thesis, Department of Geology, Saint Mary's University, Halifax, Nova Scotia.

Cody MacDonald, C., 2009

Salt Tectonics of the Western Sable Sub-Basin: Insights from Regional Seismic Interpretation and 4D Scaled Physical Experiments. Department of Earth Sciences, Dalhousie University, Halifax, Nova Scotia.

Cribb, J. W., 2009

Analogue Modelling of Salt Tectonic Processes Beneath the Shelf and Deepwater Slope of the Eastern Nova Scotian Margin, M.Sc. Thesis, Department of Earth Sciences, Dalhousie University, Halifax, Nova Scotia.

Cummings, 2004

Sedimentology and Stratigraphy of an Ancient Progradational Terrigenous Clastic Shelf Margin, Missisauga Formation (Upper Jurassic- Lower Cretaceous), Offshore Nova Scotia, Canada. PhD Thesis, University of Ottawa, Ontario, Canada.

Gould, K., 2007

Chlorite Diagenesis in Reservoir Sandstones of the Lower Missisauga Formation, Offshore Nova Scotia. Department of Geology, Saint Mary's University, Halifax, Nova Scotia.

Goutorbe, B., 2007

Le Régime Thermique des Marges Continentales Passives : Méthodologie, Observations et Modélisation. PhD Thesis, Institut de Physique du Globe, Paris, France

Labails, C., 2007

La Marge Sud Marocaine et les Premières Phases d'Ouverture de l'Océan Atlantique Central. PhD Thesis, Geosciences Marines, Ifremer, Université de Bretagne Occidentale, Brest, France

Lyngberg, E., 1984

The Orpheus Graben, offshore Nova Scotia: Palynology, Organic Geochemistry, Maturation and Time – Temperature History. M.Sc. Thesis, Department of Geological Sciences, University of British Columbia, Vancouver.

Young, J.L., 2005

The Stratigraphy and Structural History of the Mesozoic and Cenozoic of the Central Nova Scotia Slope, Eastern Canada. Department of Earth Sciences, Memorial University, St. Johns, Newfoundland and Labrador.
