

Sustainable Canadian Agricultural Partnership

Competitive. Innovative. Resilient.

On-Farm Technology Adoption Program Guidelines

2024-2025

Sustainable Canadian Agricultural Partnership

The Sustainable Canadian Agricultural Partnership (Sustainable CAP) is a five-year (2023-2028), \$3.5-billion investment by federal-provincial and territorial governments to strengthen competitiveness, innovation, and resiliency of Canada's agriculture, agri-food and agri-based products sector. This includes \$1 billion in federal programs and activities and a \$2.5-billion commitment that is cost-shared 60 per cent federally and 40 per cent provincially/territorially for programs that are designed and delivered by provinces and territories.

In Nova Scotia, \$46 million will be invested through a federal-provincial partnership that is linked to five priority areas: 1) Building Sector Capacity, Growth and Competitiveness; 2) Climate Change and Environment; 3) Market Development and Trade; 4) Science, Research, and Innovation; and 5) Resiliency and Public Trust.

We support the development of diverse and inclusive industries. We welcome individuals from all equity-deserving communities including but not limited to women, persons with disabilities, Black and African Nova Scotians, Mi'kmaq, Indigenous peoples, 2SLGBTQI+ and racialized individuals, to apply to programming.
