1. Rumble strips installed on 100 series highways where posted speed > 70 km/h.
2. Rumble strips will terminate 30 metres prior to a bridge and resume 30 metres after a bridge.
3. Rumble strips are to be terminated 30 metres prior to the start of a taper and resume 30 metres from the end of a taper. They are to be continued through median crossover accesses.
4. Although the preferred width of a rumble strip is 400mm, a width of 300mm may be acceptable in some circumstances.
5. Rumble strips are not to be used when paved outside shoulder width < 2.0 metre or the median shoulder width is < 1.0 metre.
6. All dimensions are in millimeters unless otherwise noted.
7. Rumble strips may be installed 300mm from edge of travel lane in residential areas.
